

Say NO to Real ID in PA!

The REAL ID ACT:

- ✓ **Mandates a national ID card:**
 - To be carried by *everyone* in the US.
 - To board an airplane, open a bank account, enter a federal building, etc.
 - That will contain *biometric information* such as facial features, fingerprints, handprints, DNA, voice recording, retinal scans, etc.
 - That may contain an RFID chip that can be used to track your travel.
- ✓ **Creates a national database** containing all of your personal information putting the security of your entire identity in the hands of the federal government.
- ✓ **Mandates states to comply and pay for this billion dollar system.**
- ✓ **Will do nothing to stop terrorism or illegal immigration** because terrorists and illegal immigrants will not volunteer to receive this card.

Does this sound like America the Free?
