Company: [Mealtime Success](#)
Product: *Mealtimesuccess (MTS) is aimed at offering efficient and healthy meal solutions for individuals and families. Between the time everyone gets home at (5.00pm) and bed time (9.00 pm) there are four optimistic hours in most households in which one has to debrief the day, put out fires, put dinner on the table, clean up and get ready for the next workday. That leaves very little room for creativity to please everyone at the dinner table. MTS addresses this issue by offering ideas on creative meals that appeal to tender palates and adults while limiting the effort that goes into preparing these meals. With enough credibility MTS will eventually launch products (pod casts, books, endorsements) in line with its theme of improving efficiency and creativity over meal time.*

Intent: MTS is in its pilot phase and seeks input on target communities, effective means of seeking web presence, tools that will improve ease and efficiency of the site.
