

Chairman Greer:

This letter is to formally ask you to exercise your authority granted under Florida Statute 103.161 to remove John Charles Stevens and Will Pitts from any and all Republican positions/memberships they hold.

Mr. Stevens is a member of the REC and both Mr. Stevens and Mr. Pitts are members of the Ponte Verda Republican Club—a club chartered through the RPOF. In my opinion, both Mr. Stevens and Mr. Pitts have injured the name and status of the Republican Party, and their actions have interfered with the activities of the party. The statements that lead me to believe that are harming the party are contained in emails, online forums and have been heard at public meetings—all while members of a sanctioned Republican club. Mr. Stevens has continued to make statements, that I believe are harmful, since he has been an REC committeeman-elect and as a seated member of the REC.

Attached are several examples of statements that I believe are clearly intended to dissuade people from supporting the Republican nominee for president, as well as other information that, in my opinion, clearly shows his intent and background behind his actions. Most of these examples have a hyperlink to the posts in their entirety. When a link was not available, a PDF version has been provided.

William T. Blaylock
