VERSE 1:
C               G7               C
O beautiful for spacious skies, for amber waves of grain
G               D7               G               G7
For purple mountain majesties above the fruited plain

America, America, God shed his grace on thee
F               C               F               G7               C

A thoroughfare for freedom beat across the wilderness

America, America, God mend thine ev’ry flaw
F               C               F               G7               C

O beautiful for patriot dream that sees beyond the years
G               D7               G               G7
Thine alabaster cities gleam, undimmed by human tears
C               G7               C               C7
America, America, God shed his grace on thee
