

Lincoln Pickard for State Assembly District 80

Make California Great Again!

There are issues that separate Lincoln Pickard from my opponent Lorena Gonzales and her Democrat friends.

You do have a choice in this election!

- **Jobs, Education and Water are explored on my website and in another pledge letter.** Lorena and her Democrat friends talk a good game but their track record has been very disappointing. **Jobs and Businesses have been leaving our state. New water projects have been blocked by Democrat leadership. We used to be best in education,** but due to Democrat leadership, California now has one of the worst records when it comes to the education of children.
- **Privacy: Lorena and her Democrat friends have passed laws that will put boys in the girls bathrooms and showers at schools.** And vice versa. Democrat leaders have deviated from the traditional values that make us proud to be Americans.
- **Lorena and her Democrat friends want to confiscate all of our guns.** They will deny it but every year they vote to pass laws with more and more restrictions on gun ownership. They never quit, they never give up in this particular quest.
- **Lorena Gonzales, as Secretary-Treasurer of a large local union played a major role in scuttling the Chula Vista Bay Front project. Local residents lost lots of jobs.**
- **Lorena and her Democrat friends passed a law that automatically makes you a registered voter when you get a California Driver's License or ID.** This action will often be in direct violation of Federal Law that requires a registered voter to be an American Citizen.
- **When elected, I, Lincoln Pickard, pledge to fight against the Democrat extremism and the laws that have been raising taxes and changing traditional values and mores that are driving too many skilled, family oriented, hard working American citizens out of our state. Check my website for additional issues as this campaign moves toward election day.**
