

Texas Architects & Engineers call for a Real Investigation of the Destruction of the World Trade Center on 9/11 Press Conference / Seminar

What: Press Conference & Seminar covering the unreported evidence at the World Trade Center

When: 1:00 – 9:00 PM Saturday, March 20th, 2010

Where: Doubletree Hotel at 6505 IH-35 North 78753 Austin, Texas (IH-35 & 290)

Who: Several Texas architects and engineers

This Press Conference is held exclusively to announce that over a thousand (1,114) architects and engineers have signed a petition at Architects and Engineers for 9/11 Truth (AE911Truth.org) calling for a new independent investigation into the demolition of the Twin Towers and Building 7 at the World Trade Center on September 11, 2001 and to reveal the conclusions of architects and engineers who have studied the destruction of these buildings. All news reporters are welcome to attend and ask questions of our presenters from 1 to 9 PM. This event is sponsored by petition signing architect, Ronald F. Avery and his meetup group, and both "We are Change" meetup groups in San Antonio and Austin.

Signers of the Architects & Engineers for 9/11 Truth Petition will discuss the organization's findings, based on examination of the forensic evidence, videos and eye witness testimony omitted from official reports, such as the free-fall collapse of the 47 story WTC building 7 into its own footprint and the discovery of advanced explosive nano-thermitic material found in the WTC dust samples. The focus of this press conference will be to detail the scientific questions and answers of these building and technical professionals whose findings determine that all three skyscrapers were destroyed by explosive controlled demolition rather than the impact and fires from 767 collisions. AE911Truth is also calling for a grand jury investigation of Shyam Sunder, Lead Investigator and John Gross, Co-Project Leader both of the National Institute for Standards and Technology (NIST).
