The Real Facts about Photo Radar!

1. Photo Radar does NOT improve traffic safety !
2. 14 states have successfully outlawed Photo Radar.
3. In Arizona, citizens never voted on or approved Photo Radar.
Former Governor Napolitano implemented it by Executive Order.
4. The average Photo Radar ticket cost is over \$160.00 and many citations top \$200.00 *per violation.*
5. Lawmakers have a direct financial interest in preserving photo radar. Each automated ticket generates \$16.50 toward the *personal campaign accounts of politicians.*
6. There is a "quota" number of tickets that must be issued per month, written into the contracts with the camera companies

7. Many cities deliberately shorten their yellow lights, with disregard for safety, knowing it will increase violations to citizens.
8. The Photo Radar company receives more money from your citation than the city or state.
9. Photo radar cameras can record 24 hours a day and keep a record of where you are.
10. Photo Radar citations are generally NOT issued to politicians, illegal aliens, law enforcement officers, correction officers, high ranking city employees, or vehicles registered to a corporation.
11. Cameras will soon be set to issue multiple violations such as seat belts, registration tags, cracked windshields and burned out lights, in addition to moving violations. (2 for 1)

www.CameraFRAUD.com

12. Photo Radar cameras read and record your license plate as you drive by and can issue a citation *even* if the camera doesn't record you speeding. A citation can be based on the time it takes your license plate to be recorded by the next camera.
13. Photo Radar citations violate your constitutional rights to confront your accuser (*a camera*) in court AND you are not allowed "discovery" (to see the evidence that will be used against you), prior to your court appearance.
14. Safety Statistics quoted about Photo Radar "benefits" exclude negative information that gives the true picture.
