To the members of the State General Assembly of Indiana:

The citizens of Indiana wish to respectfully but clearly declare that the issue of illegal immigration has become a state issue because the federal government has failed its obligation. When you took office, you took an oath to defend the Constitution which included upholding the Rule of Law.

The signatures below represent the Indiana citizens who expect and will be noting your action on illegal immigration legislation that is presented in the 2010 session of the General Assembly.
