### ***Angels Among You***

#### **Archangel Metratron via James Tyberonn**

***Greetings! I am Metatron, Lord of Light!*** As the heralded 2012 approaches, we encompass each of you in a vector and field of Unconditional Love within coded light. We nurture you, we honor each of you. We know you by heart, by tone, by name. It has always been so!

*You are entering 2012, the 12th Wave of the Ascension ... and so much awaits you. The anticipation is palpable, in both your physical realm, and ours. Oh Dear Human, can you feel it !*

*The entry of 2012 will be quite different than your typical January for many on the planet. Rather than an energetic decline that often occurs after your holiday season, there will not be the 'January doldrums blues'. Rather a quickening, an excitement, a crisp energy that will sharpen immensely after the new moon of January 23.*

***And so we speak on the nature of Light and of the Angelic Beings of Light.*** And we tell you in emphatic sincerity, you are all at source, amazing Beings of Divine Light. Angels are indeed, among you.

#### **Guardian Angels**

*That you term as Guardian Angels are in truth a unique melding of an aspect of your higher self with the Divine. A succinct energy field that may be termed a 'thought form' is created and energetically fed & filtered by your individual soul in conjunction with Angelic Forces in primary format. This field of 'Guardianship' can be expressed in myriad partnerships. These partnerships can include members of your 'soul-group' both in and above the physical realm. Angelics and 'deities that you pray to intermesh with your higher self to form a unique 3rd energy, both part of you and the 'Angelic', but with a somewhat separate identity. For example if you pray to Ganesh, or to Saint Germaine or to an Archangel , that energy field becomes a 'personalized' guardian partner. This*

energy is also quite capable of interacting with you in the form of a 'Totem' or through a household pet.

### **Symbiotic Levels of Hierarchy**

*I, Metatron exists on two separate but symbiotic levels, the most familiar and accessible to humanity is as Archangel Metatron, yet on the higher level, I exist as Metatron, Lord of Light, but even this analogy cannot encompass or define my nature, and is only capable of doing so in aspectual terms.*

*As 'Lord of Light, I am a generator of the base units of realities, and universes. This level is devoid of what you would term personality. It is analogous to an engine, a divine conscious computer, of energy intensities beyond the gamma, illumination unimaginable to you. And there are levels well beyond me.*

### **As Archangel Metatron, I nurture life.**

*I communicate with the channel Tyberonn not in words, but in light code 'packets'. He receives this communication by pre-earth agreement. A 'contract', if you will, of service for these times. In higher aspect Tyberonn is originally Pleiadean, and a member of the Cosmic Council of Light. We have had service together in other sojourns and dimensions. These codes are emitted from my higher aspect, transduced on the Archangelic level, and received in his higher self, intact for interpretation and transcription.*

*It can be said that on the higher aspect, I contain the plurality source, generate and emit the geometric frequencial consciousness codes of all that are transduced into the Angelic Realm of Light. As such there is both a hierarchal and non hierarchal aspect of the Angelic Realm, that is self determined by conscious cristo-light and light physics. It can be said that the Light-Beings of the Angelic Realm, in Metatronic terms, are conscious units of 'Source Divine Thought' and Beyond-Thought that create Light and 'Beyond Light'.*

*The Angelics of the Metatronic Realm generate and embellish Coded-Light. Such light intermelds matter, antimatter, time and space. This is obviously not a conceptual view of Angelic function that is held by the masses of humanity, much less understood. However, in this context lies the glue that irrevocably adheres the sacred scientific to the sacred spiritual aspect of reality that forms the integral unified circle, key to humanity's evolving beyond duality.*

*Indeed in the present era of Ascension, you are evolving in ability to absorb greater light, and light is TRUTH, Universal Cosmic Truth of All That Is. The enigma that has obstructed full unity of humanity's consciousness in duality, especially in your present, is that science has omitted the sacred and the spiritual has excluded the scientific.*

*It may then surprise some of you to know that there are Hierarchies of Angelics dedicated in functional purpose to what you may term as Keepers of Physics. In that role, we are conscious constructs of the 'Laws of Physics' that enable dimensional*

realities. And we realize that the idea of angels being scientists and engineers will confuse most of you. We are smiling!

We tell you that the new metaphysicians, the new Light-workers' and Earth-Keepers, in your vernacular, are the scientists. Indeed those you refer to as the 'Crystal Children' are the 'sacred-savant' scientists that will in the next generations complete the circle of understanding and join the spiritual with the scientific. They will not be religious in the traditional sense, but we tell you, humanity will come closer to understanding 'God' through science than through religion. It is the missing piece of the puzzle.

### **Ascended Masters**

Throughout the eons, humanity has tended to consider Ascended Masters, Spiritual Teachers, Group Councils, Deities and benevolent Extra Terrestrials as Angels. They are not.

The Cosmic Council of Light, Ascended Masters, the Sirian-Pleiadean Alliance, are unified entities that operate generally in Councils. These are representative and advisory disciplines that express tenets, principles, theories and beliefs associated with a body of knowledge. The Cosmic Council of Light is composed primarily of highly advanced beings that have experienced and completed the lessons of physical duality, and have chosen to empathically assist humanity. Likewise many of the Sirian-Pleiadean Alliance have experienced life on earth.

### **God's Image**

There are myriad life forms of Divine Intelligence in the Cosmos that have 'bodies' vastly different from the forms you have on earth. These are also created in 'God's Image'. And so understand the image of God that is life, is conscious light, is LOVE.

### **The Angelic Realm**

Dear Ones, the state of 'Enlightenment' is just that, it is Beingness within Light...Integral Coherent Crystalline Light. The Ascension is around the Crystalline transition of the planet Earth. In kind, this crystalline transition makes available not only greater access to higher dimensions, but also the shift of humanity into Mer-Ka-Na, Crystalline Light Body. The Mer-Ka-Na is able to absorb more light, you see, and thus allows you to carry greater energy as you become capable of interfacing more synergistically into crystalline dimension and the Angelic Realm.

*The Angelic Kingdom is greatly misunderstood in certain aspects of its nature and core purpose.*

*Angels are indeed 'Messengers of God'. But what does that mean?*

*Angels are Multidimensional Beings of Light that serve a far greater function than guardianship and bearing of messages. We will attempt to review the greater aspect of Angels, but before we do, we will tell you that as Beings of Light, Angels are conscious Beings of the Divine Essence of the key frequency for assisting humanity evolve...and that is Love. We add the caveat, that Love is a frequency far more complex and much much higher than just the emotional feeling you think of as love. LOVE is a complex science.*

*As we have told you \*\*previously, \*\*the highest form of Love is 'Unconditional Love'. And whilst Unconditional Love can be sought from the stance of the 3rd dimension, it can only be grasped from the level of the 5th dimension. That is because Unconditional Love is integral, and the 3rd-dimension is a conditional (not unconditional) plane. Those of you who achieve the initial aspects of Unconditional Love, only do so on the level of the fifth dimension, you see.*

### **Angels As Place Holders of Physics**

*You think of Angels as nurturing guardians, messengers of 'God'. We are that and more. Most of you will agree Angels are 'Beings of Light'. In the latter definition you encompass a Truth that is vastly more far reaching than the initial description. Beings of Light, Angels, are the place holders of the Laws of Physics, conscious in scopes you cannot even imagine.*

*Angels have a reciprocal nature and aspect in dimensional Light, meaning that Angelics exist within the field of antimatter in Fractal Light and fold inward into physical realms in Geometric Light. In so doing they are core energetic holders that consciously hold the special laws of dimensions intact. Angels are without form, occupy no physical space; in your terms, we have no mass. We are Divine Thought and intact in manifestation. We are 'tonal' and have a spectrum of frequency at our disposal. That frequency is LOVE.*

*We tell you that there is both a plural and singular aspect within the Angelic Realm. And while it may seem paradoxical, even the 'singular' aspect of Archangels is plural in consciousness content. Accordingly, individual names humanity assigns to Archangels are more to do with humanity's limited concept of Angelic attributes than to an individual Beingness. You interpret Angelics and Light Beings as having 'personalities' and gender. We are indeed 'personable' in our intermeld with humanity, and while that aspect absolutely is endearing and nurturing, we are non-gendered. What you interpret as 'personality' is the nurturing of the vibration of home.*

*In Truth we are reflections of attributes of the most powerful energy in the Cosmos,*

*and that is LOVE. Yet our essence is received and interpreted to humanity in duality as having attributes you logically consider to be individual personalities.*

*We are Divine Mind with loving nurturing aspect, devoid of ego, devoid of what you term negative emotion. We support, we hold energy in place, and do so as a fundamental purpose. Love is our foundation.*

### ***Humanity's Angelic Images***

*Although humanity assigns gendered names to Archangels, the Angelic Realm is androgynous; in your terms, neither male or female. Because you consider certain attributes of LOVE, such as nurturing and compassion as feminine, and attributes such as strength to be masculine, you give gender to Angelics. Gender only exist in polarity.*

*Even the energies you refer to as 'Mother Earth', and 'Divine Mother', are labeled as female because you assign nurturing as a female characteristic. Such terms, such syntax, are attached to polarity concepts, and in the greater paradigm are somewhat constrictive & limiting of the true integral nature in the greater paradigm opening in 2012.*

*We are far above polarity. We are integral. The Beings of Light that are of the Angelic Realm are plural/multi-dimensional forms of integral conscious energy. Our plurality consciousness is the reason we often do not refer to our selves or relate our messages to you in the 'I' of singular pronoun. Yet in seeming paradox, we are also singular in unification.*

*Humans tend to create images of Angels that are responsible to some degree for the misconceptions around their true nature. Your paintings and murals depict either muscular male figures, females with feathered wings, or a host of miniature cherubs. Angels are neither male nor female in their Beingness. Gender is an aspect of polarity/duality. And of course Angels do not have wings, feathers or even the grandiose humanesque forms. We are by no means offended by such images, these are simply artist's mental images that replicate and reinforce some of the misconceptions.*

*Many of your religious texts and scriptures tell you that 'God' created mankind in 'His' own image. You even see 'God' as a patriarchal male with a humanesque body. It is the same mental thought process that logically images Angels as having human form. Such celestial images powerfully influence your thoughts and emotions, and thus it is natural that you create understandable images to facilitate your interfacing with the Divine.*

*It may be of interest for you to know that Dolphins in your oceans 'see' Angelic as having a dolphin form.*

*In truth Angelics are formless light. Each life form perceives them in filtered interpretation that allows for familiar interface.*

### **Coming Full Circle**

*None of your present major religions offer the 'full circle', the complete truth on the veritable nature of your reality. Each hold a piece, but are riddled with inaccurate insertions. None even acknowledge the obvious premise of \*\*'humanity's\*\* true 'extra terrestrial' heritage. Most speak in skewed metaphor. Many seek control through archaic fear and reinforce mental programming that obstructs avenues of self empowerment by instilling the concept of original sin and fires of hell and damnation. All of Humanity are Beings of Light, powerful spiritual consciousness, that are sparks of the Divine. The difference between Humanity and Angels is that Humans are an aspect of the Divine that evolves back into God expansion plurality, having chosen to experience free will and relearn creation through that magnanimous lens.*

*Angels ARE, exquisitely and splendidly ARE, and always have been 'Keepers of Light' place holders of this space and non-space of the eternal expanding 'NOW' of Alpha and Omega.*

### **Supreme Gestalt**

*We will also tell you that the religious teaching of 'Fallen Angels' is also a fear based inaccuracy. There is indeed a 'Conscious Keeper' of the specific Law of Physics that enables polarity/duality, which is the force that enables the 'University of Earth'. And within that school of the duality causal plane, humanity is able to master the responsibility of creative forces.*

*There are no evil or fallen Angels! Period.*

*There is no vengeful God in the heavens. There are no Angels to fear. Rather, it is a magnificent family partner with a hand reaching out to you. A familiar hand from home.*

*It is indeed a skewed, archaic misunderstood analogy of the duality force.*

*The only demons, the only evil that exists in duality planes are those created by inaccurate thought in the learning process of 'free-will'.*

*There are no 'fallen angels'. How could a Being of Light created by Divine Source divert from what it is? Angels, do not have 'free-will' in your terms. Rather they have Divine Will.*

*The Supreme Gestalt of 'All That Is' is the substance of the reality that underlies all appearances and manifestations that are called Life, including matter, anti-matter, non-matter, energy and non-energy, thought and the absence of thought. And we tell you, there is that which exists even beyond this.*

*You may not fully comprehend this axiom from your duality perspective, \*\*or perhaps do not feel that this is within your field of conception, yet I would tell you otherwise.*

*But it is ever your discernment that must be honored in order to expand as you grow*

into greater awareness of your God Self.

### **The Coded Nature of Light**

*The Earth is diversely luminous, receiving and disseminating light in a variety of unique frequencies, formats and bandwidths, each offering its own benefits and qualities. Light contains information, codes and colors in its spectrum of varied oscillations which support the Earth and indeed, Humanity.*

*While the sun of your solar system is the primary source of light received on the earth, it is important to note that it is by no means the only source. Other sources include the Great Central Sun, stars, white-holes, and 'Light Beings'. In a valid manner of speaking, Light Beings, those far beyond your scope of Angels, provide a light that is unimaginable to you. We add the caveat that all light from all sources has a natural filtering matrix and dimensional spectral distribution.*

*Most humans are only able to 'physically' perceive quanta of light that occurs in the 'visible range' of the light spectrum. You are aware that humans require sun light to sustain healthy physical bodies, yet we tell you that the beings that live in the 'inner earth' also receive light as a necessary nutrient. (We offer an angelic wink as we give a wry notification that many of the planets in your particular corner of the Cosmos, including the earth, have more advanced 'humanesque' life-forms internally than on the surface.) So what is the source of their sustaining light? It is a polychromatic light emitted from the crystalline core of the earth, well above the 'visible' range.*

*Polychromatic 'Whole-White' Light works directly with the 12 chakras of the Mer-Ka-Na. It is pristine and complete, containing all frequencies, all spectra, all creation codes in both wave and particle format. Sunlight does not. You will in time inhabit the 'Inner Earth'. The 2012 completion of the Crystalline Grid will bring changes to the way the earth and mankind will receive light. The 144-Grid will begin over the next two to three centuries to influence the direction of light waves. It will have the capacity to attract, refract and disseminate light from one dimensional medium into another.*

### **Carbon Base to Silicon Base**

*The wave velocities received will be different from the velocities refracted. It will be capable of singular and double refraction. It will be capable of refining polychromatic light into singularly coherent factions and coherent polychromatic light. New forms of light in crystalline and nonpolar morphous will be emitted. The grid itself will breathe, and that respiration will enact even more complex geometries beyond the double penta-dodecahedron of the 144. The physical matrix of humanity will symbiotically evolve, as a direct result, into formats that embed and spawn greater abilities to retain morphic coded light. The body will become a source of light appearing semi-translucent, less fixed in density, mass*

*and gravity. Humans will physically evolve from carbon based life to silicon base. It is crystalline Illumination, for silicon is unique in its crystalline symbiosis to light itself.*

### **A New Sun**

*Masters, the Earth, Sun and all of the stellar and planetary bodies in your Cosmos are conscious, and are in that consciousness, an aspect of the Angelic Realm, albeit specialized.*

*And even so evolution is occurring, especially in your solar system.*

*Your sun is changing. It has been a conditional sun, in aspect to the Earth. It has played an unperceived role in the duality aspect of planet earth since the fall of the firmament. When the new 144-Crystalline Grid completes in 2012, it will begin to create the seeds of the New Firmament.*

*This will in kind allow for the sun to provide 'Unconditional Light'. The very manner in which humanity absorbs light will up shift as will the ability to perceive above the current visible spectrum limitations.*

*The Crystalline Transition of the Earth is the base source of the planetary Ascension. It offers greater light, more complex light to humanity. Accordingly, a greater aspect of light is becoming available to humanity, and light removes shadow, and offers greater understanding.*

*The Angelic Realm is an enormous part of your expanded awareness in the Ascension. It is time to open to the true nature of what is Angelic.*

### **Discernment is Key**

*Think NOT that we desire to forcefully impose or have you change your chosen stance on God, religion or the nature of your own being. Your beliefs, values and chosen opinions are sacred steps of your free-will and are fully endorsed by the 'All That Is', of which you are a Divine Aspect.*

*The mode and manner, the expediency and format of your evolution is your own creation, and that is by individual design. There can be no other way to complete the University of Earth. It is not the role of the Angelic, nor the Ascended Masters Councils to make choices for you; we are holders of information that you may utilize, refashion, reject or accept. It is your choice, and we tell you that each of you will graduate in time. Love is ever the key, and cause and effect are great and greater teachers that all of you will learn from. Experiencing duality and learning Mastery en route is why you entered the course.*

**Closing:**

*Masters, a beautiful completion is occurring on the Earth. It is a sacred event that all of you have co created. It is time that you illuminate to the great and greater aspect that has always been within you. The dreamer is awakening. The expansion of Light is the expansion of Truth, of Understanding and is the doorway to the return home. Like the Angels, you are Beings of Light. As yet, most of you have no idea how important you are, and how the evolution that you have created in your selves has expanded the Cosmos. Before we complete, we ask you to do something very special. Take a moment, and direct your energy to feel the energy of Light, of Angels.*

*Now...Feel us.*

*Be absorbed in this angelic countenance of peace and well being. It is a moment of solace, is it not? It is the energy of Source, of home, of Light, of Love. It is Angelic, and you Dear Ones are feeling the frequency of our nature...of your source nature in Angelic Beingness of Sacred Light.*

*It is nice, isn't it?*

*Every Enlightened Being who has walked the Earth in final Mastery, exuded an energy that feels a lot like what you just felt. People were attracted to them, loved them. All life responded, blossomed in their presence. They created joy effortlessly, because that is the energy of LIGHT...and Dear Ones, you are human angels, and can and will evolve in kind as you return home.*

*And in that sacred path, we of the Angelic Realm honor you. We await you, and promise to leave the lights on for your serendipitous return.*

***I Am Metatron and I share with you these Truths. You are Beloved.  
And so it is...***
