

Psycho Girlfriend Stories

But not limited to only girlfriends.

A small video production company named Restless Tortuga created a short series for YouTube titled "Psycho Girlfriend". After a few episodes they decided to do more, but wanted fresh ideas. So Lyndsey, the female star of "Psycho Girlfriend", was in a little video asking people to post their psycho girlfriend stories. She said that the company might use some of the ideas if they liked them.

These are what their fans wrote—uncensored and unedited. However I did remove comments that didn't seem directly connected to the subject at hand. Good luck and watch out for the grammar Neanderthals!

The Comments

Yoni89

My ex constantly put toy ducks everywhere I went to get back with me, she used to call me ducky so she'd continually put ducks, everywhere and I mean everywhere.

I walked outside my door, I see a line of rubber duckies running up to my car.. Inside my car? More rubber duckies, how she got into my car? No idea.

Inside my house when I got back from work? Rubber duckies...

Continual phone calls saying "DID YOU GET MY MESSAGE?!? I HAVE A DUCK OUT FOR YOU, DUCKY!!!"

She was psycho, for sure.

PollockQT

Lol That's a good one

Yoni89

Wish it wasn't true, she also used to tie sock puppets of ducks onto my wangadoo. Fing nutcase.

amauta5

My girlfriend got a bug (locator) on my cellphone after i forgot it at her house during the weekend just to see where i am at all times. she would randomly call me and ask where i was. a lil creepy, i still loves her tons.

Feralsquirrel

how can you love someone who is that possessive? Imagine what else you -haven't-

found out about.

chibiokamiddr

my girlfriend was so clingy, she wouldn't even let me take a \$#!7 in the bathroom without her being in there. if you want more on the story, let me know

Ilik3chocolat3

well i had this friend that was soooo obsessed with her boyfriend that one time when he wasn't looking she actually stuck one of those microphone thingys in his back so that she could hear what he was going to do that day ... but when h found out he broke up with her and until 2day she always ruining his relanshonship with other women that i think he's moving to another country but i don't think she knows about that ... psyco all the way

Ramsez

my girlfriend climbbed up our rainpipes to get into my room after i broke up with her. i went to jail after i fucked her underage best friend.

spemberton16

Please include when insecure girls make another facebook or myspace to stalk their ex. Soo creepy.

halogirl333

Well, i wrote about the sex dream i had with my boyfriend, into my diary...

and a couple weeks later i found my brother snooping in it...

when i checked it later, the page was ripped out. My brother had given my boyfriend the page!!

it was sooo humiliating :(

Ricky1146

So, my psycho girlfriend story is this. I found out, she was cheating on me. When, she called her babies daddy unexpectedly. Cause she had cheated before, and I forgave her. Well i kicked her out of the house, and she called the cops on me claiming violence. I ended up in jail cause i had a fine, that turned into a warrant. Well, she got her babies daddy over my place. When I got out the next day, They had taken my car joy riding, stole some possessions and hid my keys from me. There is more

Ricky1146

After they took the keys, I ended up getting to PPO's and had one placed on me as well.

I went to court to fight the one against me. When we were in court it was an utter circus. As i just stared at the judge and baliff as i felt so sick of this drama. I could never look at her again. After that she emailed me dozens of times saying i love you come get me come get me, and saying she was pregnant. Even though she had her tubes tied.

Hajs5

wow.. that sucks dude, similar things have happened to my dad's friend who's in jail because of his psycho ex claiming he was abusive even though we all knew she was nutz and was just angry that he divorced her. The punch marks weren't even the size of his fist, they were her's! It's so stupid man, I understand there are abusive men, but that doesn't mean there should automatically be a bias in court, he's getting out in two weeks though, luckily my dad and other friends are keeping her away.

Ricky1146

Well see though there was no punch marks. And i don't hit women, never have never will. In my case, I had gotten in a fender bender 6 months before and failed to pay a fine. I had never knew there was a warrant out for me. But it ticked me off as hell when my car and he entered my apt. I had the ppo against me thrown out and dismissed. Which that only took 3 court dates, cause I brought witnesses, and proof in my case. Her witness was him, when he wasn't even there, he was on the phone.

Hajs5

yeah, it suck so much, and my dad's friend is the nicest guy you'll ever meet, probably how he ended up marrying that nympho-masochistic-clingy-viol ent bitch.

queerion

man i know something like that to. some girl admitted that she beat edherself up and called the cops that her bf beat her up and he went to jail..lost all his friends after he came back. i told her she was a bitch to do something like that.

Hajs5

lol just a bitch? the psycho practically ruined his life forever, she's far worse then a bitch.

dirtyjerz717

my ex drove over 100 miles to stalk me at the mall, she followed me in and out of stores for almost 3 hours. i confronted her about it, she disappeared. the next day, at my place of work she showed up again, this time with a box of chocolates and roses saying "her love for me is unconventional and she wants to spend the rest of her life with me." at this point, my boss kicked her out of the store, and she left a goodbye note and flowers

on my car...

ncfwhitetigress

don't you mean unconditional?

dirtyjerz717

nooo, she said unconventional, she explained it in her goodbye letter....instead of me bringing her flowers and chocolate, she brought me them...i never brought her flowers OR chocolate, on any occasion.

SVKmellow

but if she was hot then I would definitely try it with her at least that one time. i mean she was pretty nice.

dirtyjerz717

she wasn't that hot, but we did try it on/off for about 9 months...she just wouldnt give up or leave until this^^

23THEBIGBADWOLF

My Psycho ex girl friend was a wrestler and it was great at first till we were eating dinner and i told her one of her headlocks look kinda funny and she went fuckin crazy she jumped over the table and started kick ma ass all over the room for a second i thought i was in the wwe she hit me with a chair and tried to set me on fire till i jump out the first floor window truth be told i kinda liked till she kicked me in the nuts

ncfwhitetigress

yeah if you're gonna date someone who excels at any kind of highly physical sport, make damn well sure they aren't psycho. this is particularly important for women.

TwoThirdsPi

My girlfriend refused to leave me for any longer than 3 minutes whenever it was in her power.

That started the week before I dumped her.

CustomMadness

my ex gf was obsessed with the insane clown posse (ICP) and sometimes when she was depressed she would put on ICP type clown makeup and cry which would make the makeup run, then she would turn to me and start rubbing my junk and say "wanna make out?" lol, plus she thought that ICP was coming to kill her because her real father was the "Blood God" lol she was kinda strange

AWESOMERTHANYOU1095

That is fucking Epic lmfao

CustomMadness

thats only parts of it, she was a real psycho lol literally, went to the looney bin and everything

yoyocanary

Psycho ex girlfriend:

I met my boyfriend in April two years ago, and we were friends. All we did was hang out and watch movies, but his ex. girlfriend decided I was a huge slut (for no reason) and hated me. She hacked into his Facebook and deleted everything I'd ever posted on his wall and any messages I'd sent him. Then, after we started dating (in late May) I posted a photo of me and my boyfriend on MY MySpace, and she completely freaked out, called him at eight a.m. screaming at him.

ncfwhitetigress

every1 who is psycho is psycho for a reason. there is no excuse that makes this behavior acceptable.

she MADE it happen. it's called a self fulfilling prophecy. nobody likes clingy paranoid individuals. they drive people away with their oppressive behavior.

yoyocanary

They'd been broken up for two years at this point. That's an important part that I left out. No ex girlfriend has a reason to call her ex and scream at him demanding that he command his new girlfriend to remove a photo off of her own MySpace just to make the ex feel better.

And if you think that's acceptable, you might be a little psycho yourself.

xospawnfirexo

My ex carved my first name into her inner thigh.. After I broke up with her for cheating on me.

Both a creepy and true story.

TylerLeeFigueroa

I broke it up with my girlfriend one night because it just wasn't working out, I never realized how obsessed she really was because when I got home after driving around for a bit I find that my cat is not at the front door as usual, I walk into my bedroom to find

my cat dead on the floor, and on the wall are the words "I LOVE YOU" in my cats blood as proven by the detectives. She is now in an asylum. This was very true... I miss nina.

billywill7

i hope nina is your cat...

TylerLeeFigueroa

Yea. nina was my cat. I miss her a lot. I keep a picture of her in my wallet and remind myself of her from time to time.

TBboynL

wow that is really scary

dang man, youre a trooper

you must have been really sad that your kitty got involved :(

TylerLeeFigueroa

Yea, its only been a couple months since then, so im still a little shaken up.

It'll be fine but I wont be getting a new girlfriend anytime soon.

TylerLeeFigueroa

Oh something I forgot. When my psycho bitch girlfriend got her on phone call she used it to call me and tell me my cat tasted delicious... my cat was missing its heart... I know it sounds unrealistic but this is 100% true.

mad7o7

she wasn't an ex but she was obsessed w/ me.

she would e-mail people i was currentally dating and people who were my exes threating them. and once she climed on my cousins roof and looked through the window at him while he was going to the bathroom cause she thought I'd be in there. uh o another thing she did was she made a website w/ all my info on it and it got me a millon other crazy stalkers and she sorta started a cult based on that, (craziest bitch ever)

thai2die

I know a guy who dumped his girlfriend after going out with her for several years. She put Nair in his shampoo bottle.

He lost one and a half eyebrows on top of his hair. xD

That cyber hug sorta creeped me out. xD

ncfwhitetigress

I'm surprised that worked cuz that stuff has a very potent odor.

Spartan01017

I was dating this girl who started getting really jealous and one time when i was working at a club she came and she was on a level below me and i was asking a bartender girl a question but had to lean close to hear her because it was loud and my gf spazzed out and accused me of kissing this bartender right in front of her and then she sent her friend to spy on my all night

PollockQT

OH, I'm going to tell a friends one first!

They lived in different countries but they both could afford living together for long periods of times in each other's place.

Anyway, the were living together in this terrible house in the US, and since he complained about the terrible noisy and awful the house was in general, she decided to move two houses away without him knowing.

When he came back he had the same house a few blocks away, but still sucked
She thought it would be a great surprise

PollockQT

Anyhow, she had spent a lot of money in an apartment that was just as crappy and depressing.

When she went to live with him in Spain when she was fired from her job, after a month she merely disappeared and told him the following:

She couldn't live with him because he was disgusting and couldn't stand sleeping with him anymore.

He hit her and felt humiliated.

She actually call the cops to prevent him from kidnapping her dogs

Of course he didn't do anything to her and was plainly paranoid

yourmomxxpp2

Me and this jackass i liked were texting each other then he sent me naked pictures of himself including his erect penis. Then he stops texting me for one day i said why arent you talking and he says hes in love with some girl and im only being with her. So I made a up a fake myspace added him and he started flirting with me threw it and said he was single. 2 days later he got a gf but then i emailed her and sent her the

conversations we had and the nude pics. She dumped him and broke his heart!

Anieqxii

u rock~

Saleenrulz

man that just makes u a straight up BITCH, nothing to be proud of.

yourmomxxpp2

Ok if someone makes you think that he likes you, then he dumps you and played you, you would be a bitch too =p

Saleenrulz

well when u put it that way i see ur point

yourmomxxpp2

I even went to his mailbox and put dog shit all over his mail after he blew me off.

And i sent his nude pics he gave me to my friends and a couple of gay guys.

So everytime he gets a new gf, I will email her and send her those pics and the conversations we had on my fake myspace i used to talk to him threw! XD

Im psycho for revenge!

yockinnottou

Yeah you went really overboard..

yourmomxxpp2

Thanks

4gunpictures

Everytime me and my ex wife got in a fight, she would call the cops on me and tell them I was threatening her. No other explanation than that. In a 3 month period I think the she called the cops 33 times. She also had me committed to the psych ward.... twice! Once for 3 days, she called the cops and told them I said I was going to drown myself in the river. The second time got me committed for a week... she told the cops that time that I said I was going to the store to get some rat poison

4gunpictures

and eat it to off myself... She got drunk one night and set all my cds on fire, and told me it was because she heard Satan talking to her on my P.O.D. cd... She used to randomly

call my mother and tries to tell her all the stuff I supposedly did to her (we've been divorced for 6 and a half years)... If that ain't psycho, I don't know what is

QwErTy42597

lol i am only 15 so i barleygot stories but wen i was in 4th grade this girl strted liking me and i asked her out and she was the popular 1 so she was all seiroius bout it and wen i came 2 her house shee said lets take this 2 the next level and walked me 2 her bed and sprinkeled rose petals and then i was like u took this 2 far and dumped here then she did that little twich thing and screamed her dad came over and saw the roses on the bed and freakd but she punched his nuts and madethose faces

EugeneDaKing

I had an ex-girlfriend known as Gonorrhoeabitch. She would stalk my ass everyday and, apparently, had gonorrhoea. I was scared to go to work and get out of work 'cause I knew she'd be somewhere very close by. She'd call me and say "I see you" while I was at work. After we broke up, she immedietly tried to get back with me and kept stalking me for a good month or two.

treasurechip

my girlfriend kept a secret candid picture collection of me, once i found it i found some pictures in there of me from months before i even met her... o.o

ptsigas

pretty simple. but this one person at my work, which i dubbed as salmonella (yes the bacteria), made up a story that i was stalking her at her work place (umm...we work a the same store).

she said i followed her around the city with my car (i dont drive whatsoever).

well i didnt lose my job or anything...but i only spoke to this person for mabye an hour at work on my first day just as a co-worker

anyways shes fucked. she told me someone played a little fun joke on her at work (nothing

ptsigas

nothing bad but because she was mad at him she got him fired with the same bullshit story she tried to pin on me...what a nutjob.

chunnabee

i had a psycho ex gf moment trying to win an ex back when i was 16, inviting him to my formal (aussie version of prom). the formal was themed. i dressed in a very very small

alice in wonderland costume, and at the after party, got insanely drunk in order to tell him i loved him and needed him (and have an excuse if he said no), after vomiting on a fence, very classy with a bottle of vodka in each hand. he did say no, and that he was sleeping with my best friend. awkward!.. and sadly true.

wickedman6

I have had 2 crazy ass X GFs . The worst was the time I had to get a order for her to be atleast 1,000 yard (Or was it feet?) away from me at all times . This crazed chick calls me at about 3 in the damn morning (Giggling and what not) that she couldn't believe that I would be so scared of her to actually get a order against her . That was creepy , but the worst part is this chick was about 4 feet from my damn bed out side . THAT SHIT SCARED THE SHIT OUT OF ME .

KitKatBar603

last year in 7th grade there was this girl who was sorta my friend and whenever i would walk 2 my nxt class she would always follow me and lyk hide behind the water fountain and stuffso one day she asked me out..she was kinda pretty so i said yeah and i went 2 her house later and she was hiding behind a bush and when i walked into her backyard she ambushed me..btw she was naked..and she pulled me behind the bush and gave me my first blowjob...

KitKatBar603

problem was she told some of her friends at school that i raped her...so they called the police later and they interrogated me... but i was let go cuz i didnt rape her. then the nxt day at school...the girl that i truely loved wouldnt even look at me and now she hates me cuz she thinks i raped the other girl >:(

wierdwaffle

thats gotta be the most bullshit i've seen in one comment.

Feralsquirrel

i had a bf who forgot to get a night off work so we could go to a party, so he took the sparkplug wire from my car so i couldn't go either.

Volper16

ok... so.. i met a girl.. she was KINDA good-looking.. we started hangin' out and stuff.. then we had sex.. so.. in the 2 weeks after that she was like: you know.. i think you deserve better then me... we need to break up - i was like... oh.. ok.. *5minutes later* i'm sooooooooooooo sorry... please forgive me! PLEAAAAAAAAAAASEEE TAKE ME BACK!!! / and this was like... everyday.. and I dumped her for good.. but we had break

up sex :D and.. she dumped me cuz she tought we were back again... 8-)

whitenailsnguitars

Years ago my dad had a psycho girlfriend (she was bipolar). We were trying to drive away and she actually hung on the back bumper and totally fucked up her knees.

I think years later he broke up with her and later that year that he did, on Valentines Day, she left us both cookies and a card on the windows of our car... I didn't eat that shit. Bitch hated me.

lasertrefakiefoo

My physco girlfriend stalked me for 8 months, Every single date I went on got fucked Because of her , every bar and club I went to , she was there and claims that it was destiny for us to be together every time i "bumped into her" that bitch used to sit on my front steps every week saying that she had a wild night with her porn star boyfriend but after hitting up a club she got too drunk walking home and passed out on my steps somehow!! that shit was fucked! I did her best friend , shes gone now

lamgamboa

my psycho ex was a psycho drunk. We went out to a club with her friends and she got really crazy drunk and tried to get me to be extra "nasty" on the dance floor, but she was so drunk I kept having to pick her up off the dance floor. She was very affectionate 'til she finally passed out. The next morning I had a big ol' hickee on my neck. She couldn't remember a thing about the previous night, and she went all psycho on me cuz she thought someone else gave me the hickee.

SocialEclipse

Still have a psycho girlfriend. One time, while I was avoiding her for a bit, mostly cause I needed a break without telling her that, she snuck into my house through the window late at night and when I woke up she was making out with me telling me she missed me. Thing is... My bedroom's on the second floor. Still love her though, but now I have bars on the windows.

dpearson53089

once i got a new girlfriend, my ex called my house phone and told my mom that I should forget about ever being friends unless I broke up with my new girlfriend.

lahoozer

my psycho x gf story is my x gf wont leave me alone we r tryin to b friends nd all but its hard wen we r havin a normal convo then she pops out wit this randomly "i met a girl

but she is nothing compared to you im not that into her. i miss having sex with you and i miss being with you but its cool that you dont want anything more than friends with me" gee maybe because u wont leave me the fuck alone everytime i see u u try to screw me and when we talk u wont stfu! even wen i ignore u u wont go!

princesskatt

When I broke up with an Ex of mine I would get this phone calls but no one would say anything, or every now and then there would be a flash of light I didn't get it. One day I ran into that ex and he asked me to have dinner, but just as friends. Right after dinner I asked if I could use him phone to call home as soon as I was done I took a look at his phone and there were photos of me and I looked at people he had called they were all my name. Lets just say I didn't stay!

o0hjacqui

i have my ex boyfriend's physco mom story.

she tried to break us up by calling my house and crying and screaming on my answering machine lies about her son and i having sex when we didnt and trying to always be next to us, she even went as far as hacking into his AIM to "break up" with me pretending to be him

maybe you could do another series called physco moms.

Ludwigtremlay

HE,He,He once I had a girlfriend who was so insecure that she would be jealous of EVERYONE. Once a guy called me while we were in front of the TV watching something, I took the call and she whent on a jealous rant accusing me of wanting to fuck this guy on the phone...my girrlfriend who I fucked silly every day, got jealous of a random guy...insanaity.

YeoChi

I broke up with this girl and she kept sending me pictures on my email. Then at school she kept following me then one day she stalked me home. Then next day I go to school because she planted a million pics of herself in my locker and said I snuck into the girls locker room and took them.

SANTARII

I was dating this girl once, she was nice but i didnt really feel anything for her so i dumped her and told her I was in love with someone else so she wouldnt try and ask me back or anything.

Then I started dating someone and she sent her a picture of me naked that I had sent to

her just before we broke up, and messages of me flirting with someone on myspace (must of been her friend or something...)

anyways my new gf dumped me because of that =(

AGarraFANGIRL

ok so don't get me wrong i luv my friend, we all do. But she gets psycho when it comes to her bf. He has a lot of girls that are just friends and so she freaks everytime we talk to him. She asks us if we like him that way, hits us, crys till she gets her bf involved till he hates us too, or doesn't even talk us and spreads rummors about "how easy we are" we never even had bfs before. sadly.

And we believe sex after marriage.

It's not as bad as some people's stories but that's how it is.

moomakerz

my girlfriend was really overprotective of me.

she came up to me and said, "who are all these fucking sluts your fucking dick! are you fucking all of them" "and who are you his sex toy? yeah you're really fucking hot" "how bout this girl huh? how many times have you been fucking her huh?" i told her they were my cousins, they really were.

Catcrazyovertime

I'm a girl but one of my close guy friends stalked me AND HE WAS MY NEIGHBOR!!! So he was peeking tom and everything.... :/

PHYSICO

rsmetal7

my girl thought i cheated on her so she tried to cut off my penis but i woke up

romjaheim01

well I had a girl friend I was In High school with so was pretty much protective of me she didn't like any female around me oh she will start tripping out when ever we go to the mall and if a girl just look at me she goes nuts. That's not the best part before I was dating her I was dating this girl in school but her mom and dad didn't like me b/c I was black she was Asian u know how it is so I was in school at lunch with my sister hanging out nothing big so my ex come up and said what's up how's

romjaheim01

things going I was like fine the out of now were my girl came and heard her she was

piss off she was like why are you asking about me man for u don't need to talk to him, the biggest mistake my ex said to her was well he was my man first I look at my sister and my sister look at me I had my gym shoes with me my girl took my shoes and started to beat the living hell out of her I was like what the hell are you doing you can't be betting people like that she was like your my man and now one is to

WoahTally

Well im a girl so there are some of the physco parts on my behalf... not really though. sorry , but try the "all my guy friends keep crushing on me thing" you could have a PARADE of guys chasing brandy or something. :)

sickysong

idk about a psycho girlfriend but im a psycho dude. if i loved a girl and i didnt think i wud ever lobe anybody else but she wud never love me.i wud do 1 of 2 things

1. wait 4 her
2. kill like 50 ppl, take her to the woods. and spell i love u with there bodies and burn them and show her

Poohinc

why would you need to kill 50 people to spell out the words "I love you" surely you can use considerably less bodies.

gabimookie

Ok i am not a psycho girlfriend completely but I do have my moments. Anyways, this is my moment in which you could definitely classify me as a psycho girlfriend. I have to put it in more than one comment box because it doesn't fit so enjoy!

gabimookie

A Promise Ring:

So I have been dating this guy for a while...and on our three month anniversary he gave me a promise ring. It was really cute. It was thin, gold, and it had a heart in the middle. Well my boyfriend told me that this promise ring represented our devotion and faithfulness towards each other.

gabimookie

[fast forward 4 months] I am in New York for a summer job. I go out to eat with some co-worker...just when I was about to take a sip of my newly order mango ice tea I look down at my promise ring to admire its beauty...AND SUDDENLY I see that the band has broken and the heart that was once whole in perfection and unity is now broken in

half. I stare at my ring for a good minute thinking of all the reason why this could have happened to such a meaningful possession?

gabimookie

As I sort out my thoughts I came to one conclusion that seems most rational. Of course a girl with good faith in the christian church and highly believes in fate can only find one and only ONE legitimate conclusion.

gabimookie

God has spoken and the love of my life is gay.

So whats a girl to do but call her boyfriend up and ask him, in a nice calmly voice of course *wink*, " what I ever did wrong in our relationship. Was it the sex?". Maybe he just couldn't take it because he wasn't religious.

gabimookie

"Had I turned you gay? Omg I did didn't I?" I started to pray with him on the phone. Asking god to the rid the devil out of him in hopes that I would not be responsible for a man to turn....GAY.

I told him: "We can get counseling." and that "many men are confused".

Anyways long story short...turns out he wasn't gay and it just broken by accident.

peace out,

psycho christian girl

XxOoMoNiCaOoXx

2daii i was drawing in my book and i didnt want my new/first bf to see the landscapes so we kinda wrestled for my book and it wuz fun but l8r one of my bffz showed him all the landscapes in them and i was soooooo embaressed!!!!!!!!!!

SVKmellow

OK :) So once my GF went on a vacation with her family for 10 days. I was planning to stay home renovating my apartment (hence I would not have time for her) and so I was kinda glad she went away to enjoy some sun.

We met before she left to say bye and I even called her the first day wheter she was OK. After that she would not call me and I just figured I bored her the first time talking about painting the walls, working the floor etc. She didn't even sound excited to hear me...

SVKmellow

However... so I just didn't call her again and since she did not call me the whole 10 days we did not talk the whole time. But I thought about her pretty much every day... (I mean what would you think about while doing such dull work :) and I was looking forward to seeing her.

So I called her the day I knew she'd be back and she was really surprised. She sounded shocked, distant and just weird and could not believe that I acted as if nothing happened.

SVKmellow

Than I found out that while on her trip she pretty much cried half the time, because she thought that I've forgotten about her and did not want to be with her anymore, because I didn't call again. So I asked her why didn't she call if she missed me that much and she was like: "I did not want to call you after you dumped me."

We went out for about 4 months when that happened so I didn't (nor do I still) get it. She was also hoooooot so I just don't get it... :) We patched things up after that.

tookietookie123

One time my ex popped up in my room at the end of my bed... I screamed and threw a taco at him(LMAO)... That was the only thing in my range lol... Then i beat the crap out of him...

dougis2167

My best girlfreind pics my roommate over me. Fri. the 13th of Feb, five months later, she's mad at me? I ask her why, " Nothing is wrong" she sadly and quietly says. Something is obviously wrong, she won't say. I ask 2 more times, same response. I leave, 1 hour later I get 13, I counted 'em, hatefull texts on how horrible, non-supportive, and bad a friend I am and on and on. Remember now, she passed me over and shunned me to date my roommate. We don't talk for 2 months. Then we're best freinds?

JIROzo

well, my psycho boyfriend (any psycho would do this, boy or girl) I realized that he was kinda dangerous to me. I broke the relationship off and he would constantly call and hang up. No answer, ever! Call and hang up. That went on for about a month He even came to my house with his arms cut but it wasn't deep hah. He would stalk me at times, too Thats the only thing i can remember. Thats my experience for ya.

xompirax

Well my story is about this girl i was with 2 years ago... this girl is a freaking

psycopath!!! i broke up with her and she was crazy enough to send her own "girlfriends" to flirt with me, to see if i was flirting with other girls!!! she was totaly crazy!! but well after a while i think she just gave up. But last week she called me to yell at me because i was going out with this other girl!! i just told her to go screw herself LOL... well this is my story... hope you like it

1970pimp

well i had this girl friend and things were goin good but a few months into the relation ship my gf started talking about knives all the time and it was starting to creep me out so i desided to dump her well that night that i brok up with her i woke up in a cold swet and at the end of my bed was my gf and in her hand was this knife she stabad it into mt bed close to my dick and it actualy cut a slit in my dick loandbehlod she was talking about kinfes cuz she wanted to buy my some for my bithday

GreenEyedSummerGirl

My Older brother's girl moved in with us and then started cheating on him a couple of months later. The thing is, I used to hang out with her all the time and after a few months of cheating, she just got up and left. and the worst part is, EVERYONE blamed me, (The cheating AND the leaving) But I didn't know what had been going on..... I think that falls under the category of 'Psycho Girlfriend'

SuperDisser

My girlfriend broke up with me cuz she dreamed I was cheating on her with her father. I kept reminding her it was a dream and she said her dreams sometimes tell the future. I was like whatever and left. 3 days later she called and yelled at me and said I ruined her family. She apparently told her mother I was sleeping with her father and so her mother divorced him.

callmeinstead

my ex was a clingy little weirdo. she started bawling in public cuz i had to go to ma class. i wuz lioke "u aint supposed to do that at college! let alone in public!"

thechatt

I was dating a girl for about 3 1/2 months, about a week ago she broke up with me saying I was the best guy she'd ever dated and that she's never been treated so well in her life by a guy. A few weeks before this she got me to join marching band, I joined because I loved her and wanted to be around her as often as possible. I went to the camp for a week from 8AM-5PM every day, and then 2 days the next week from 4PM-9PM including a performance.

thechatt

When she broke up with me a week ago I thought about it for a couple days and decided to quit marching band, I figured "if she can't pretend to love me anymore, I can't pretend to want to be in marching band anymore. So of course she gets mad at me for quitting and blah blah blah. I even explained to her that the only reason i joined was because i loved her, and she tried to guilt trip me, saying that she did favors for all the boyfriends who had broken up with her. I asked her what favors...

thechatt

she didn't give me any examples. When Somebody lies to you for 3 months about loving you and asks you when you're going to marry her (suggesting right after graduation) after only 2-3 weeks of dating, you don't really want to do them any favors. Especially not any that involve giving up an hour of sleep a day and weekends. She broke up with me, said i was an amazing guy, got mad at me for not wanting to help her out, then got pissed saying stuff about me lying to her and blah blah blah

Hajs5

Not a relationship at all, cuz I already knew she was psycho, she was big black chick, fugly too, somehow she found out I was home alone this summer and some how found out how I lived and knocked on the door, I answered to be polite and asked wtf she was doing, she grabbed me and tried to fucking rape me, luckily I slipped out of her grip and went into the kitchen and got a knife (only to scare her) and told her to gtfo, she moved to a different school this year, haven't seen her since.

selinamarie00

There is this girl i know her man was cheating on her she called him up she heard a females voices but he said it was the TV and he had been home all night but she knew it was a lie because she was outside his house feeling on the hood of the car and it was hot and lookin in the window at him and the other girl i left the details out cause didnt want this to be tooo long

prouck

i had a girlfriend who tried to pul a fatal attraction with my brother's cat that i was taking care of at the time, minus the boiling bit, by stealing it. problem was the cat was fucking crazy, and went all slice and dice on her face.

Guardsmen46

In Highschool Grad year I had a girlfriend she was a really needy kind that I took out

for simply using her, and on the last day of highschool I decided I would man up and tell her that we were over.

When I finally talked to her (she is a really shy girl) and told her we are done she completely flipped out and started to scratch and slap me. A couple weeks later she started to leave really disturbing comments on my Facebook and texting my phone I Blocked her but it still creeps me out.

BOXCHAMPION12

Ok i was going out with this girl for about 3 days then she called me like 20 times and i didnt answer my phone was on silent sooo she came to my house and told me what the hell was i doing i am supposed to answer and then asked me to marry her i said what and she took her clothes off and said lets have sex and then when we finished she said so whens the wedding WTF??

YouTupeSuck

Psycho girlfriend:

- Stands over a tall building and threatens to jump unless you say you love here.
- Crashes your car windshield with a baseball bat.
- Kills your pets with pesticide.
- Goes to your family and informs them you are getting married.
- Brings her bad ass brother to kick you ass.
- Hires a hitman to kill your new girlfrinds but ends up killing your family by mistake.
- Kidnaps you and takes you to Las Vegas to get married at gun point.

finalconsecration

My relationship went pretty well.. until my GF started asking if I was gay. I kept telling her I wasn't every time she asked, but she was still convinced I was in the closet. She eventually told me if I ever left her for a guy, she'd hunt me down and chop my dick off. 100% true story.

TigerCool

Hit on girl at bar, Girls knows ex, ex was at the bar, ex whisper something into girl's ear, ex and girl spread some rumour across bar, entire girls at bar ignore me all night, random guy kick me ass outside bar.

rumor = i'm a closet nazi

TwoSnipersOneStrawPd

she broke up and then asked me out in the same sentence

Biktuh

RinLove

kidtastic78

my friend dated the craziest bitch. he dumped her after one week and she went totally ape and started calling nonstop, used payphones after he blocked her number. would break into his apartment and take stuff and leave her dirty underwear on his pillow. would show up at his work. he finally threatened to call the cops so she backed off. then one day we found blankets and empty food containers behind a bush under his window. turned out shed been sleeping there every night for two months

daughterofpearl

My friend caught his girlfriend messing with the condom...she deliberately tried to impregnate herself so he'd stay with her forever. Later she told him she had a debilitating disease and would be traumatized if he left her alone to suffer.

ShesLYDIA

this isnt exactly an ex girlfriend story but yeah :/

my best friend had this stalker who thought they were going out :S he didnt even know her and she used to text him stuff like loveyou babycakes and stuff :S and phone him in the middle of the night, and posted comments on his Myspace like isnt my boyfriend gorgeous? well he got a girlfriend, then this girl started going mad at him saying he was cheating :S then she went home and told her dad he raped her :S her dad beat him up :|

43837388

I would tell you but the memories are awful and I might hurt myself again.

The last 2 were real doozies.

So I'm better off alone

FREAKYJ13

NOW THIS IS BEYOND PSYCHO me and ex girl were on and off for about a year and every time i broke up wit her she would cut her self on her wrist now u cant tell me thats psycho but the weird thing is i ended up falling in love wit her lol emo

I got hit in the jaw for not liking West Side Story by a girlfriend.

brookworm122

About 6 months after I broke up with my bf I friended him on Myspace with a fake account I created using pictures of a childhood friend. We exchanged messages and AIM screenames, and for the next 5 months we would talk online almost every night for 1-4 hours. I became his mystery online crush and confidant, and even coerced him into having his first cybersex. I deleted the account because, let's face it, I was batshit crazy. We are still friends, and to this day he has never found out it was me.

DareallLyza

...or so u think...

powelltowel

Elitefaith87

I knew a psycho girl who was crazy cause my roommate had a thing with the guy who she wanted to date (he lived next door and was a friend of mine) I guess they were "friends" at the time and she never went home or bathed because everytime while he hooked up with my roomamate she would cry and bang on our door and make a whole load of noise and then sleep "passout" outside our door and they were also always fighting...anyway a long ass crazy story later they are getting married!!!!

jonnsaltilloies

well my ex girlfriend was older than me so the first months where cool but then i realized all she wanted was my money so i stopped seen her and one night she went to my home drunk screamin sh^ot about me so i went outside and i broke her huge glass of beer so she got mad and started to punch me, i pushed her back and ran . the next day i had scars all over my face and arms. lol

closet0home

One time I drunk-dialed my ex-boyfriend's current SO and told them I was going to set their dog on fire.

Atomsk648

heres one for you. (words were changed in translation from high school to adult)
my girlfriend ot upset when we broke up so she told the police that i was so upset because "she broke up with me" (when it was me that did it) and thinking about committing suicide. so lucky me got put on suicide watch when i was actually kinda happy about the breakup. so after they determined that i was fine they advised me to stay away from her (when in reality it was her fault)

tatiethезombie

my psycho ex boyfriend kept me up every single night my entire senior year i rarely got good sleep he would call me drunk to complain about me and break up with me and cry and say he was going to kill himself. bitch and complain every single day but wouldn't leave me if i didn't answer the phone he would blow up my phone with rude voicemails.. if i didn't text back fast enough he would assume i was ignoring him and bitch and complain. he broke up with me during my grandmother's funeral. drove me nuts

Taizzerlicks3

well i used to be bffs with this lesbian, her gf used to get jealous cus we would talk a lot so she decided to do a voodoo on me and pput some creepy info on this website so whenever someone looks up my name you see it, its still on there, then she started to feel guilty so she admitted it and im still freaked out

BadPhiish

When I was in high school I was the psycho girlfriend. I dated a guy for like two weeks and I convinced myself that I was madly in love with him. So every day at 6:45 in the morning I'd call him and say "HEEEY POOKIEBEAR!" and wake him up, and he'd get all mad, but I thought he was joking, and that he really liked it. So after we broke up I kept doing it for like a month. Eventually he changed his number...

KitsuneNekoTigi

My friend, I love her to death but um... she is sort of a psycho exgirlfriend. She called her ex's current girlfriend and told her how no one would be able to be with him like she was and how they were SOULMATES and no one could be a good girlfriend and she was to him, is it just me or is that horribly messed up?

arkarlwinmg

I used to have psycho girl friend ...she ask me to propose in the graveyard so that her grandmother can attend the weddinghow freak is that ...then one day she push me toward the car...luckily she can push enough towards the car...then i try to dumb her but i cant coz she will kill herself so i fly away from her ...it was 3 years ago ...)

aireun

for like 2 years my girl kept telling me she was pregnant at the most random times, like after we had a fight, or especially after we had make up sex, cause she'd still be pissed at me.

In the end i stopped believing her, and now i have 2 kids, twins.

this story has taught me two things. Birth control is either bullshit, or she was lying, and when your girlfriend pulls that shit more than once, dump her ass.

thats not to say im not happy, even though im not. haha

nicholeddy29

hahaa okay, my psycho gf is actually my EX, omg just the thought of it is weird, but she used to bite me, at first it was like a turn on, but then she got more violent she actually left me a scar on my left arm. one time i was arguing with her about some random thing and she for no reason kicked me on the leg and then she started to make out with me lol. so many other things

Spectreworld

Ok... I got a nice story. My EX kept following me like crazy for a while and when i finally broke things down to her, she told her parents that i raped her and well they started the following crap. It was a horrible experience and i am soooo glad that its over with now an that i have long moved away from those psycho freaks.

2stepninja

Yeah, my ex-girlfriend was a psycho. The bitch was coo-coo without the cocoa puffs. We had gotten in an argument one day and she hopped in her car to leave. While she was leaving she stuck her head out the window and cursed me out, so I told her to go fuck herself and then flipped her off. She didn't like that. She put the car in drive and tried to hit me with it, but the dumbass hit the house instead. Pissed off, she put it in reverse and peeled out of the driveway.

then we broke up :-) yea!

Shawlia

I once had a girlfriend, and right after we broke up, she broke into my house and replaced all of my clothes with T-shirts with her face on them...

tosh9i

Most of the other stories have been somewhat scary and lacked humor, but this one has been the funniest so far.

wertynosbest

Right now my current girlfriend, I love her to death and all but she does have her obsessive problems. I can't talk to ANY other girl that is outside of my family without asking her for permission, and she'll get either extremely hurt because she thinks I'm cheating on her by talking to another girl, or she gets extremely pissed off because how

dare me talk to a girl that is not her. She even does this with women much older than me. I'm 17, and I'm not even allowed to talk to my mom's friends.

litalboi123

My ex would constantly try to kiss me after we broke up (like every 2 minutes), when we were together, she would bite my fingers, kind of a turn on, but she took it out of proportion when she bit down to the bone, i still have the mark, and she would try to make out every 5 minutes. When i got home after i broke up with her, i had 15 e-mails from her with pics on them, trying to be sexy. i got them for the first month after the break up. To set her straight i kissed a random girl that was near

litalboi123

that girl turned out to be my best friend, we started dating later on that day.

cbreitel

You'll think this is fiction but I can prove it's true with court papers.

My exgirlfriend showed up to my condo at 4 a.m. wearing a Santa Claus hat. She smeared strawberry jam all over my front door when I didn't answer, and all over the hall in front. Then she took a used pregnancy test and the page from a book I gave her and stuffed it in an airport plastic bag that she stuck in my window. She also painted msgs on my car, which I had to drive to work that morning. Oh, and she stole my plant.

fishkindchick

here is a list of my exes:

boyfriend 1: lit stuff on fire in his trash can and told me how fast it burned and what it smelled like (over the phone).

boyfriend 2: broke up with me because (I shit you not) he "couldn't make time between me, Charlotte [another girl] and WORLD OF WARCRAFT".

3: walked over seventeen miles to see me, left roses & cd player on my steps, and wrote me strange poems in Latin. Then I found out he knocked girls up so he could have a harem of women.

wertynosbest

That WoW thing made me laugh hard, I know how addicting that game can be, I used to play it, but addicting to the point of breaking up with your GF? I'm sorry that really does suck, and no offense but the first two boyfriends sound like losers and the third one sounds like a jackass.

karmavirus

Damn, I have lots of stories on that. One dumped me after a fight and tried to be "just friends" so she'd hang out with me and try to sleep with my friends. She nailed one, the other pushed her off and was like "dude, thats not cool" so I got to thinking... I started inviting her over to drink with my friends and would charge ppl I idin't know very well 20 bucks to pretend they were my close friend. Boom, they'd get laid. So in the end I made 140 bucks pimping her out essentially, & told her

thewoodenpuppet

you sir are a master among master... Much respect...

karmavirus

Another was asking me to come hang out with her "being just friends" and would consistantly invite me out with her and her new bf to make out in front of me. When she was in the bathroom, he asked my why she kept inviting me on dates, and I told her we used to date, and he got pissed. So then he told her "honey, I know why you brought him and I think it's just great. I always wanted to have a threesome with another guy! And we started cuddling on eachother and she got all redfaced screaming.

karmavirus

That same one also accused me of cheating on her when my grandmother called my cellphone and it was a number and womans name she didnt recognize. So she called her up and cussed her out telling her to back of and that I was hers. Interesting shouting match, my grandma cursing like a sailor telling her I was her sweetypie and she loved me and nobody was ever going to stand between her and me. I got home and she was like "I talked to your whore!" and I checked the call log... oh gods...

karmavirus

A friend of mine dated this sick bitch who he bought a puppy with, and she screamed all up and down that she loved it and that she got to keep it so he caved. Next few days he gets a letter saying "haha, you idiot! I took it to be put to sleep!" and sent him pictures of her taking it to the vet and it dead after. Fucking demented witch.

karmavirus

Another got relly pissed that I dumped her so she started making up fucked up stories on her facebook account about me being a sick perv, and her facebook friends started yelling at me. One of them was this psycho redneck martial arts guy who kept saying he'd kick my ass. I showed up at the place to fight him, but by then she tried to dyke out with his gf and he was pissed about that, so we went and had a beer. We then

staged we were going to fight at a party she was at, then hugged.

karmavirus

A friend of mine broke up with one bitch who kept sending naked pictures of them together to the girl he was dating after her. Turns out she was raised strictly catholic and her mom and the other girl's mom were in the same choir practice for church. So one day her mom picks up and sees her close friend's daughter giving a guy a blowjob on the cell phone. HAHAHAH! Needless to say, the Monsignor took her aside for a talk. Luckily the guy's face wasn't in the pic.

karmavirus

My first one dumped me because I "drank too much". I would maybe drink once or twice a month at parties. Well, she came to this revelation after she got drunk at a party and cheated on me with a random guy. What reminded me of the 1st or second vid you posted. Girls dump guys for their own flaws, not any flaws in the guy. If she suspects you're cheating on her, it usually means she's cheating on you.

karmavirus

so many bad experiences. This is why I don't leave the house anymore... my roommate used to date a sewer-gutter trash girl nicknamed "Road Dog". He started avoiding her, so she started trying to break the windows and get into his house thinking she was going to steal or vandalize something. Soon as she gets the window open, he has a shotgun in her face telling her if he ever sees her again, he'll kill her. She ran for the hills, but a neighbor noticed her breaking in and called cops on her.

karmavirus

She got tackled by a police officer just 30 feet away from the house and arrested. He and his friends denied ever having known her, so she did some time :D

karmavirus

My absolute favorite though was when this one girl I was dating started hanging out with my friends and a few of her friends trying to get "in the circle". things went sour and we broke up, so she'd try to start fights with me. One day she told me to leave her friend's house and HER friend that lived there told her, "no way, he's cool... YOU leave, and dont come back... he brings beer and herb!" LOL So then she got banished from my circle AND "her" circle. Turned out *nobody* liked her.

DoubleDeckerWrecker

I was dating some bird and she told me that she'd kill herself if I ever broke up with her. I'm 15 I don't want to get married so i ended it and what did she do? She took it out on

her hamster, killing the poor thing then tried to make me feel guilty for it. Birds are insane

jordan567890

psycho girlfriend story: my girlfriend choked me and beat me up for something that didn't even happen.

PrettyCherish

I cheated on my ex and i told him, then he shot back saying he cheated on me and i punched him and gave him a black eye. HA.

thedewk1204

You shouldn't brag about being a cheater. Just my opinion.

theboredone

Had a girlfriend, out of state, told me she was in a band, sent me demos and everything. Told me she was dying from a rare disease. Told me she was being haunted by the ghost of her mothers twin sister who she said was murdered by her grandfather because he thought it was her mom. Told me she moved near me and when we were supposed to meet, she got "lost" by walking the wrong direction for 5 hours. Never met. Said a tree fell at her home so she flew back to make sure her bros were okay. The end

CNRhKXtreme

My first GF was a nutcase. My first experiences with her were interesting, but then it got worse. She tried to get me to beat her up in bed. I didn't do it, then she cheated on me and broke up with me because "I wasn't committed enough". Then, when I went to college, she found me on AIM and started telling me we should hook up again.

mlkshabang

i dated this one girl named caylyn n we were together for about 6 months and on the third month we basically fucked. Later on in the relationship we got reckless and eventually brok up. I still was there for the baby. Just to be clear Caylyn and myself are both African American. about 9 and a half months later the baby was almost born and Caylyn constantly tried to get back with me and i still said "NO". This bitch was literally crazy. Finally the child was born and gues wat, the baby was asian.

mega17

I fail to see how she's crazy...

Nothing you've said seems that insane or surprising. Except for the baby's ethnicity.

It is possible for a baby to be a completely different ethnicity, (a 1 in a million genetic thing) Get a DNA test~

kgrayman

i dated this one psycho bitch who only wanted me for sex and when i didnt want to do her she got mad saying she dont need me and that she got other guys she can call >>

CRAKIZGOOD

next time when u have a gf like that call me i can help

Dg4day

i was taking my girlfriend to work and as we were driving we got in and argument about me hanging out with my friends the night before that she didnt like so she starts yelling and opens the door and attempts to jump out .luckily i stop in time so she walk out of my car. as im driving next to her walking the rest of her way to work trying to get her to come back in the car she ripped off a \$400 necklaces i got her for x-mas and throws it in someones yard and i never could find it

edgpanda

As a senior in high school I fell for a 16yr old soph who was crazy jealous I couldn't hang out with my friends without her thinking I was cheating. It got ridiculous when she had her friends follow me around to keep tracks on me. In the end I broke it off and she went postal on one of my friends thinking she was the reason I broke it off. I learned my lesson and now date girls at least my age or older.

mugunthan55

i had this psycho ex girl friend, she hit me with a broomstick when i said i dont love her anymore. so i called the cop on her. hahaha

mugunthan55

i have another one. this is abt my bro's ex girlfriend. oneday my bro and i was driving when he had his ex girlfriend called him and started to freak out. they were done like a week before this. anyway she was freaking out cos she found a condom wrapper under a couch. which i used the night before. my bro doesnt know this,right. so i was dying laughing. only thing he could say 2 her was" what r u doing in my house?"she shouldnt be in there,right. i guess she sneaked in the house while he is out

The2ndKrezzz3

i cant say much cause she is still stalking me

JesusStoleMyCandy

this is probably the weirdest one...

when i was in highschool i went out with the hottest girl in school (what she saw in me ill never know,) anyways we kept seeing eachother but then she cheated on me with like 3 guys including my best friend so i broke up with her and then we slowly became friends.

JesusStoleMyCandy

i didnt see anyone utill about a year after, by then we were best friends, and she had already had like 5 boyfriends, but she went nuts when i told her and she started stalking me and saying she loved me and that we were "ment" for each other, once she went to my house in her underwear, did alot of other weird stuff like claim she was pregnet and said shed kill herself if i didnt love her, she ended up going to a mental hospital.

JesusStoleMyCandy

the worst part was that everywon called me a "stupid" because she was like supermodel hot, she actually got offers to be a model, and i was pretty weird and only slightly good looking.

TheD415

My ex girlfriend would stalk almost anything related to me (my name,screen names, birthdays, phrases, etc) on google to see what i was doing online. I got away with alot but the thought of her going through all that trouble was quite odd.

neonscientist

I used to work at a mcdonalds and my ex who lived like 3 hours away would come to my work just to hang out. She said that she had family in the area, I knew she was lying because she was adopted. My boss asked her to leave and she refused so she waited outside then she began just circling the building. My boss then tells her that she notified the police (another lie just to get her to leave) she then speeds to my house not far away and waited for me to get home in my neighbors tree.

neonscientist

when I finally got home I cased the area to make sure I didn't see her car. She parked it 3 streets down. She confronted me as I was putting my key in the door. Yelling and screaming, I couldn't stop her. She couldn't calm down. The only way that I could make her relax was to tell her that my boss was the crazy one. My gf at the time had a very hard time accepting blame as I'm sure you can see. I broke up with her the next day and

she replied "You'll be sorry" but so far I haven't seen her.

zoeymuse

lmao @ 'She said that she had family in the area, I knew she was lying because she was adopted. '

redmoonspider

Just watching that series and I could feel my blood-pressure going up...Being a "Freak Magnet" Lindsay, include the character trait some of them have given themselves ie:a degree in psychology (because they've read ALL "the books")...and you'll have it nailed.

superawsomeman1

well basically its been like 2 years and she is still madly in love with me and she denies it to everyone and then at the same time whines to everyone that i don't love her and she misses me and i've tried almost everything to tell her WE WILL NEVER WORK EVER AGAIN and she still is in her own world trying to get me back.

shes ruined many relationships for me and talks to like every girl i look at and becomes their "friend" and yea.....she makes me hate waking up and going to school :|

superawsomeman1

oh yea also last year she went to the counslor and complained i abuse her on a daily basis (lie) and basically cried out for attention and i had to sign this contract saying ill leave her alone or i would get suspended or expelled.....F-ing BS.

tooktaak1

myh now x kristina cheated on me by sleeping with her babys dad after he got outa jail for saying hed kill there son then she had sex with heer x gf and her other x jake 3 times and got pregnet and this has all ben in 3 1/2 weeks! plus she asked out both my best friends

JillLovewood

well last year my friend started seeing a girl, after a couple of weeks everything seemed to be goin fine. One morning though he woke up and checked his mobile for messages, when he looked in his contacts list on his phone, all numbers for any females had been deleted. He asked her and she said she had done it in the night, she had deleted all numbers off his phone that were stored under a female name!

JillLovewood

Even deleted numbers that were family, i.e his mum, his gran. She said he didnt need

any girls' numbers now he was with her!!! and he dumped her on the spot.

propjam2

that's harsh, I have a friend who's similar. he had a massive social network (some female friends old girlfriends an dates etc) on myspace and facebook mainly, But it wasn't long before his psycho girlfriend started tracking his comments, shadowing his female friends profiles to see if he replied. Pretty much every time she found something she would go of her tits at him over it. she even went as far as calling these women up and interrogating them. this stopped because my

propjam2

..friend gave in to her bullying and gave his pass words to her. He eventually deleted his profiles due to pressure. She still to this day plays columbo on him and harasses his ex girlfriends. thus as a result has alienated him from female contact other than her. the thing is that instead of getting rid of her he tries to cover it up. I honestly Im worried for my friend. she once said

propjam2

.....she once said. "If I found out that you'd cheated on me, I would'nt let you know, you would just go to sleep next to me and never wake up!..pray for him!

DumbedDownSociety

hey, there is a crazy female my friend is dating who is incredibly jealous, and posesive(sp?). what i thought would be good is that one time she tried to write a contact saying that my friend couldnt, talk, make eye contact, or look at any females, couldnt make decisions or ideas on his own, couldnt have any female friends etc etc. really crazy shit. there is so much crazy stuff i could tell you guys about this girl the list goes on and on.

DumbedDownSociety

one day we were all kickin it and i live in south LA, and we decided to go outside and she says no he cant go, we tell her its not up to her, he can go outside and she stills says no. so instead we just leave and she follows and there were black women outside and she starts screamin trying to drag my friend back into my house. when we get there she starts to cry asking what he saw and what hes thinking and if the girls out there were "ugly, flat and fat" which they arent. she just wants lies

Chiwaaaz

Im eating dinner, She calls. "Im eating dinner,ill call back.". I bite another bite of food. She calls. "IM EATING DINNER." I hang up. She calls again. "QUIT CALLING."

The phone is silent. I call her, "Im breakin up wiff u!".=D True storeh

ratuse

I'd give you a few of mine, but the very notion of EVER seeing any of these situations played out on youtube would probably make me wanna hang myself. ((shudder))

brinegret

She told me i loved her, i said i didnt... she got a brick and through it into my car window...

duskhawk

mine was very bi-polarlol she ran around with like 4 guys at a time and when i was with a girl who was just friends with me at a graduation she stalked me around for 3 hours and had the police called on her cause she threatened to murder my friend, the shortly after went back to being all nice then started telling al her family and mine that i beat her on a regular basis.. which is funny because the time frame that this happened in i was living 2-3hrs away from her with no form on transport. lol

duskhawk

and even right now she's checking my myspace, face book, spamming my cellphone with texts(no idea how she got my number),and threatening anyone i talk to that doesn't have both X chromosomes

MjsRoxs

well this is not my personal story :D

But my sister was telling me this story about her friend who had a phsyco girlfriend. If he ever said anything or did something did didn't like, she'd try to like, attack him. my sister said she tried to cut/stab him once.

freaky. haha.

Jaxluvyou15

when i came home one night my ex girlfriend trina was in my closet stealing my new girlfriends shoes. She knows i love nothing more than a nice pair of heels on a girl and my new girlfriend was living with me. So she decided to steal her stillettos. INSANE

Hreinn91

While having sex, my girlfriend tried to shove a dildo up my ear.

ObadiahtheSlim

This is more after the fact. However I had a girlfriend in High School (10 or so years ago). There were a few rumors about her being a lesbian, but I figured she was just bi. Well later I the relationship just sorta fell apart and we broke up. About a year later she comes out of the closet. It gets worse. So the other day I was on facebook and I see a familiar face on the friends suggestions. Same last name as my ex, but now with the First name of Andy and not Kristen.

suppupdupolous

okay well if you read this then, my gf has to constantly call me otherwise she goes mental and starts talking to herself!!!!!!!

Shooter1373

Well, she wasn't my gf, but this one girl I dated bought me a plasma television....three days after our first date. That was too much. I tried to politely refuse it, explaining to her that it had only been one date and I couldn't accept a gift like that so soon. She went ballistic, smashed the television and told me to f*** off. Then she called me a week later like everything was cool and asked me when we were going out again. I was paranoid as hell after that, lol. I didn't want to date anyone.

jilliancnw23

Funny story. I haven't dated anyone in my whole life because I'm afraid of Psychos.

Desleyinhillegom

lemme guess your just a nerd

jilliancnw23

I'm cautious but yeah I guess you could say that living your life without a girl friend is nerdy but being free is pretty cool in itself.

tylerdurdan1112

my psycho ex gf once started screaming at me and saying i hated her because i didnt tell her i had a mole! wtf lol

markonit

I had girlfriend that when I broke up with her, in the dark of an early morning, hooked a chain up to the rear axle of my car and pulled it loose after I had politely broken up with her. I should have known by the surprisng lack of drama after the restaurant.

Took her home, and when she tried to invite me in to talk, I cut her loose. Then woke up

the next day to find her doing her 'Mrs. Goodwrench'. Wow.

dovermoreno

I went on a date with a gal that worked at 7-11 and she insisted on driving to the restaurant. On the way, she casually mentioned that I should NEVER buy Pepsi products because if I did, I'd have a microchip embedded in my brain and the government would be able to read my thoughts. I thought she was kidding but she was dead serious !

Then she ranted about how George Bush kidnapped her son and was putting naked pictures of him on the internet...

3 hours of this stuff then I ditched her...

devonvincent

I had a girlfriend and she was a real bitch..... she was like one of those girls off of that MTV show. She would always yell and never joke around. she would hit me if i wouldnt buy her something..... and this all took place in 1st Grade

djpipotheoriginal

jilliancnw23

My sisters boyfriend was short and shes tall. We use to call him jiminy cricket. My sister and him would be on the couch and hed say something and for some reason shed slap him on one side and then slap his face to the other side. It's evil but it was kind of funny.

HisGoldenThumbs

my ex girlfriends always tryin to get other guys to beat me up

Lrak1193

lol i heard this women on the phone talking to her friend about how she gonna throw bricks through her ex bfs Audi car, she was like one of those phychotic smack talking women

junkyardmonkie

ok time to get personal:

Mine will never make it on the show, but at least people can read it. it'll just be a collection of the craziest parts

She would give me a bj and then run into the other room to try and get herself pregnant with it (Gross/TMI, i know)

She saw an IM to a friend of mine that happened to be a girl from the day before and she hid in my closet and muttered to herself in a ball, until i got her to snap out of it. Then, she got up and tried to jump out my two story window

noegod

my ex tried stealing money from me. several times! Anyway she didn't the break up so well, she pounded me with phone calls, surprise visits, to my apartment and my familys house! my friends suggested i get a restraining order. i finally did when she some how got herself hired at my work. my manager put her with me for training! i told him about her and he took it as a joke. i said i wud quit and he said and i quote 'You we can do without, she however is too HOT to let go!' i hate him & her!

falconer333

My psycho gf story: She left me... must have been psycho.

Ginnylore

I'm a girl but I had this psycho guy stalk me one time. I was walking my dog, and he started talking to me and eventually we exchanged numbers and we hung out for a tiny bit that night. I didn't flirt with him at all or anything like that. over the course of the next 2 days, he called me 20 times, and came to my house twice and just walked around it. he literally just walked around my house like a wolf hunting something. it was terrifying, I left my house when he wasn't there

Ginnylore

and was just freaking out, and eventually I texted him and ot him to understand that I didn't want to be friends with him anymore, and he was like "what did I do wrong"?
CREEEEP

Ginnylore

oh and I have another story! When I was just 13, I went on a cruise with my family, and I met this guy there who was really weird, he wore all black and stuff and he was just weird. He drew me a picture of satan raping a goat. anyways I tried to stay away from

him after that, but I was on a boat, there's only so many places I can hide. I saw him one day a few floors below me, and he saw me too and he started chasing me. I ran as fast as I could all the way to my room where I hid under the bed,

Ginnylore

and he was banging on the door and yelling my name. it was SO SCARY

Guilmon470

I had a boyfriend before that had multiple personalities. Let's just say that was a deal breaker.

Kaminaz1

I know a psycho GF..my sister. She got so pissed one time at her bf playing video games all the time, she picked up his xbox360 and smashed it into peices in front of him. Another time she called the police on him..and because she is white and he is black, he got tazored and arrested - when she was being the violent one.

bhabooshka

onr time em and my psycho biatch gf were having fun. All of sudden mood changed, and next thing I saw - she was giving me a head. I was about to bust and looks into my eyes and says "do you believe in jesus?"

redmoonspider

bhabooshka: that's the most incredible story I've heard in my entire life...one small paragraph and it gave me chills.

bhabooshka

haha. Well, its nice that my story is making others life atleast.

dashen

I made a rule to stay away from unstable girls in general. Even if they are physically attractive. Nonetheless, I think every guy who has dated has had at least one experience with a "psycho" girl. Mine the girl just stalked me for a really long time. I tried to be nice, but sometimes the best thing to do is just not acknowledge her antics at all.

HyperColours

My X Psycho GF used to chew me out about talking to her mum and sisters, so was so jealous and paranoid about me looking at other women no matter what age they were. You can imagine how much fun that was.

xxchris

I dated this guy for three months. During the relationship, he got really sick with the flu, the diarrhea kind of flu. Being the good girlfriend I am, I decided to take care of him. I fixed him dinner, watched Battlestar Galactica with him, and made sure he got plenty of liquids. The next morning, I'm awoken to him saying, "Shit, I shit the bed. Get out of bed." He had shat the bed not once but twice. What a great way to wake up in the morning.

xxchris

In a text to my girlfriend of around 2 months I said, "love ya" in a way like friends say to each other. She replied back that it was too early to be saying things like that. When I tried to explain to her that I meant it in a friendly way she yelled at me for not loving her. We broke up later that day.

CaramelCarm

this was my bf but it could go either way....so we broke up and were just friends n this psycho new i was moving i told him i would give him my number and let him know where i was when i was ready so he drives over n waits 17 hours outside my apt..so that he could watch me n follow the u-haul truck to c where i was moving too...then says it shows i love u ...on top of that came up to my school to watch me whenever i was in a game...wouldnt say anything just watched...can we say weirdo

Crazii3Compl3xLuV3

My psycho girlfriend story is when my boyfriend & I pass asian girls, I tell him: "You like that right? You want to put your friend (his penis) in their tight holes."

ChristianElise123

my ex boyfriend drove by my house all the time, left me a HUGE stuffed bear on my doorstep with a card saying, "we will be together again, I know it." I wouldn't return his phone calls, so he decided to come to my house, banging on the door, crying and saying, "you can have everything!! ...take my shirt! (took off his shirt) took off his shoes and socks too. (I watched this all through the peep hole) It got so bad that my mother had to put a restraining order on him.

dearmisterkidnapper

Psycho girlfriends who go through their bfs phones/sms, fb, and email and delete things steal phone numbers, call up and harass girls that scare them because they aren't confident in their relationship. My friends psycho gf stole my number out of his phone called me up on like 5 different numbers harassing me and threatening me and she was going bonkers. I had to call the cops on her. She threatened my family too. !!! What a nightmare!

dearmisterkidnapper

Well I didn't know someone would be THAT psycho, that I would of had to do something ridiculous like that! She needs mental attention QUICKLY!

hellsing0ace

Oh god, I know about so many psycho ex girlfriends. Why are people so crazy. Well, First off there was Katerina, the most psycho girl I know... though I know many. It's aggravating. First, when my friend Zack asked to go out with her, she said she wasn't interested, so he sent her a dozen roses and a letter saying he really loved her, or so she says. She decided that she would go out with him. Now, she was my 'friend' too, but oh no. Not after she started dating Zack. She was so paranoid about..

hellsing0ace

.. Zack cheating on her with /me/ (ew, nasty) that she would call me five to ten times a night yelling at me and calling me a witch who was trying to steal her boyfriend. One day, she even stopped me from going into my class accusing me I was making love potions and casting voodoo on her boyfriend. I laughed at her saying my room was too messy for that. But she kept calling and harrasing me....

hellsing0ace

This really ticked off Zack, so he said if she didn't stop that he would break up with her.

She promised to stop and she did for a bit. But then she just got right back to it and spread a rumorm around the school about something bad... I don't know what it was. I think it was that I was a slut. Which was completely unbelievable because I had only had one boyfriend than. And that lasted about two months...

hellsing0ace

Anyway, Katerina started to stalk Zack and read his journals (diaries...) and other such crazy nonsense. So he broke up with her and she accused me of it. Eventually they got back together again. But she did more psycho things, I don't remember too well because this was about five years ago. She wouldn't leave me alone either! So, I gave them my best wishes and left them to their craziness...

hellsing0ace

Later I found out that Zack had a mini obsession with me and wrote poetry for me and had dreams of me. Which creeped me the fuck out. So, I guess she had a reason. O_O They were both crazy and they dated for two years. She always threatened to kill herself if Zack ever broke up with her and one time, after he did break up with her (because they broke up often) she took a brick and slammed it into the area where her ovaries were saying it was his fault. She need a wheelchair for about a week. ..

hellsing0ace

And now I think I've posted too much... but god I have so much more! Like.... 6 of my sister's ex girlfriends... My best friend.... The crazy never ends!!!

shammymatty

my brother n his ex gf were together 4 1.5 years and she was the craziest chick ever..she would creep up in the middle of the night n break into our house to make sure he wasn't with any1 else,she wrote a 2 page letter to my brothers current gf stating and lying about how they been together for 2 years n never broke up and he wrote her love letters..yea that never happened..she bought a \$1000 ring and said to my whole family that my brother purposed to her..this chick still wont give up.

MrTwiky

My friend's psycho girlfriend started making out with him in the middle of their first time watching The Dark Knight and he pretty much shoved her off of him saying "No! God no! I don't want to be thinking about the Joker when I'm doing this!"

franknyt

Armageddon. Lips on psycho and one eye on film. Cracked up during the psych analysis part and pretended to cough into her mouth by accident. Haven't seen it since,

don't want to be reminded of it, well there goes that...guess I'll be renting this weekend.

samgam2

my skinny ass ex hits me when i tell her she's skinny because she thinks she's fat and tries to prove to me how much better her life is now that we aren't together

JAXknifeproductions

my ex girlfriend was so crazy, that a week into the relationship she said she wanted me to get her pregnant so she could piss her dad off with the baby....wtf.

drocloce

My girlfriend broke into my cabin to sleep.

ShayODonnell

i stalked this guy for three years, and when i finally asked him out he said no =[
so i broke into his house put up a camera in the bathroom and watched it .. and i also slept in his bed when he wasn't there, tried on his clothes... until i got a little too crazy, and i broke into his house while he was there and went into his bed with him while he was sleeping, turns out he wasn't sleeping!! and he called the cops, but i got away before they could arrest me or anything! --

YerAlwaysWrong

Synopsis: Acid deranged girlfriend on airplane kicks seat of woman in front of her while challenging her to a fist fight. Stews try to get her drunk enough to pass out. She becomes more psychotic, running thru Stapleton airport screaming. Arrive home, runs from car, gets dragged back, runs from home naked. Caught, taped up, passes out. I start new job in the morning. She remembers nothing. Can't figure out why she has tape sticky all over her. There's way more, but not enough room.

freakout4ever

Well...my friend would stalk her bf home from school and work to make sure he didn't even talk, no, excuse me, LOOK at another girl. She always competed for spotlight...even against his own mother (and let me say, a man can never forget his mother). And when she got pregnant by him, and they broke up a month later (I swear it wasn't because of the pregnancy), she threatened to kill the baby and leave it's remains on his doorstep...how that's possible, I'm not sure.

She's nuts.

ItsAustinyall

Lol, my girlfriend stole the sim card or some card i had my contacts saved on, and she put it in her phone while i was sleeping , and called some of the girls, bitching at them, thinking i was cheating on them, put some espionage in the next episode?

mymackicksass

I was about to have sex with my girlfriend, and she walked in we were about to have some fun when she tripped and used my junk to save herself.

Labrinaa

OUCHH

is it broken?!?!

wrongserver

One crazy girl i was with Would Keep saying "hi" EVERY time we kissed.

One of my girlfriends was real shy didn't talk much and when we finally had sex she was really loud and yelled stuff at me and was like YOU LIKE THAT HUH. It really scared me. When we watching tv the next day i asked her about it and she said that she didn't do that and acted like i was crazy.

torrid426

One did the normal stalking after we broke up when I ditched her she started calling my friends when they refused to tell her where I was she called my parents and asked them to make me get back together whit her, I was almost 30 then.

Another would argue over stupid things when I would ask what or why she was mad she would say "You are just saying that to change the subject! " I did not even know what the subject was. Some sort of Tourette's bitching syndrome.

MexiJessi

After one of the many time my brother tried to break up with his fiancée, he asked to have the engagement ring back since he decided he was done. But as soon as he said that she got really hysterical and refused to give it back. She kept on going. "What?! Why would you say that?! I can't believe you! After all theses years together?! I want to keep this for all the memories!" And she just would not stop bawling her eyes out. Thaty're unfortunately still together. :-(

noobthious

my girl friend onxe wouldent evean let me say i love you

dayleomighty

whilst doing the "act" with now ex girlfriend she starts singing chris browns "forever" in my ear i was totally creeped out but carried on, as i finished i told her i loved her and a few moments later she simply replies "i want a baby" i was like "no i dont want 1 yet" she starts cryin and saying if we had 1 i could leave her and the kid and she would never ask for any money or anything. and that is my true psyco girlfriend story

XG597M

Well she poured bleach into my goldfish bowl, shame i was getting quite attached to that little guy, more than i was to her anyway :L

nalleli821

my mom is a really jealous person she doesnt let my step dad look at other girls even if they are just waitresses or cashiers. she automatically thinks he is staring at their boobs. hahaha

animeloverryan85

Is that why she's not married to your real father? Hey look I never knew my dad and knowing my mom I would probably leave her too

ohsnapok

Grim soul85

My cousin was talking to the girl for like a month, when she went on a trip out of country.They had talked on the phone everyday while she was out of the country and

she said she wanted to be his girlfriend and stuff, but when she came back she denied that she has ever said that and that they were just friends!!! LOL true story....

Munkeh999

I wasn't really privy to the relationship and its breakdown, but me and my friend were walking through town when this girl he went out with months ago walks up and tells him she never wants to speak to him again. He tells her that's okay and tries to walk off, clearly avoiding a confrontation, but she chases him down the street asking for his mobile number 'cause she deleted it. When he says she can't have it, she screams "I never want to talk to you again!" once more and runs off.

deanne105

FML

JulySweets

This isn't much of a "psycho girlfriend" story but... I gave my boyfriend's best friend a handjob once and I felt so bad about it that I told him. He called me a psycho... amongst other things.

inserthumanityhere

I recently got out of a psycho relationship. I was dating this lady whom I met at a wedding. She had told me that she was falling for me and wanted to get a place with me. She even said in conversation that she would run away and get married in Vegas. Here's the kicker, we only dated 3 months. She was telling me all this by the fourth time seeing me. There is so much I can say about this relationship. Its a lot to type out but if you'd like to hear more, let me know. She was a complete nut.

amvking13162

this one chick i dated had her freinds follow me around and tell her if i did some thing like hug another girl and she talk to me about and it was my mom

HalaHalpenyocamp

Well my best friend rapes me almost every night and shes only 14 well im 14 to but thats beside the point and if thats not enough she almost killed me more than 4 times in the past 4 yrs i new her

redbandfilms

A week after my girlfriend and I broke up I noticed I was being followed by a cracked out looking bald drifter all over town, after a couple days I confronted the guy only to realize my ex shaved her head, got hooked on meth, hit rock bottom and had been following me around town. She looked like Howie Mendell if he wasn't germaphobic and liked being dirty and covered in what I assume was feces and shame. Long story short I admired her enthusiasm and we are now engaged.

PrettyCherish

I was 16. You live and you learn. Either way I'm with the guy it happened with and it's been 15 months and he actually knows what respect is. . . I believe what you do in ur past shouldn't be hidden. Might as well be real and not be bothered by pretending you haven't made bad mistakes in the past. Humans aren't moral beings right off the bat. That's what life experiences are for.

somanyso manycookies

had a girl break into my house because there was a car parked outside, which she thought was another girl (it was a neighbor).

said girl once called my phone in which my little sister answered. sister passes phone to me. girl says, "you better not be fucking her." i say, "dude its my sister." girl says, "thats right you better not be fucking her."

said girl dumped me for tipping a shitty waitress at bw3, claiming i should fuck her for her shitty service.

oh yea, and said girl was married too.

tinyartist18

I knew a guy who's girlfriend wanted to make him carry around walkie-talkies when he was in the bathroom, so she would know he wasn't cheating on her. She also clung to him 24/7, to the point of skipping class to be near him during his lunch period.

ManamiHashimoto

My friend Zee was so in love with her bf that she, tatoed his face on her hand, because she thought he was the "one". Infact she was so in love that she wouldn't let him leave the house with out a charged cell phone and some times she got me and becca to spy on him for her. once she got angry because there was a red stain on his shirt, and she thought it was lip stick so what did she do? SHE KNEE CAPPED HIM! Her dad has a gun collection. So she didn't go to jail because she blamed it on PMS!

JadedxBeauty

All of my close friends were hanging out one night and one of my friend's gf was at a party wasted and she called him at like 3am wanting him to come pick her up, even though she already had a safe ride home. He told her no so she started to cry and called him non-stop. Then she made the person who was going to take her home drop her off where we were hanging out instead. She demanded that my friend, her bf, take her home because she had curfew! And she wouldn't stop crying until he did. Psycho!

jallen6403

LOL I used to be a "psycho" gf until I realized it wasn't cool. haha I used to pick out songs on the radio that I thought described my love 4 my bf and I would keep telling him to listen to them with me on the head phones as we made out! I look back at those days, and laugh. It was funny. I had him and I listening to Michelle Branch, Vanessa Carlton, and Avril Lavigne as we were french kissing! I look back now, and I think "WOW" I was an idiot! We only dated for a week!! hahah

1 week!!

lmao

jallen6403

I actually had a psycho Boyfriend....

He would hold a gun to his head to make me do things...that was intense...and dumb... He's not my boyfriend anymore that's for sure.

He once said that I called him Fat, So he didn't eat for 2 days, and finally I took him to a place to eat, but he would because he then called himself a fatass. I told him that I didn't say that nor did I mean that he was fat, and that he sould eat, But he didn't forgive me untill i broke down crying saying I was sorry.

CraZY!

matrulez313

4meriland

My brother had a girlfriend a few years back. Once he was driving her home, they were arguing about something dumb and she grabbed a wrench from the back seat and started hitting him with it. He got a water bottle and threw the water on her. Then she wanted to get out the car, and just as he was slowing down, she got out and rolled on the floor. She called the police but they just told him to leave her alone, and then he broke up with her. Worse, she kept calling a year after they broke up. :|

maraschino38

A friend of mine had a psycho boyfriend who had a drinking & drug problem. She broke up with him because of it, and he started bugging all her friends (including me) asking what she said about him. Then he got his MOM to confront my friend about it, harassing her on the phone and saying her son would never get over his addictions now because she broke up with him. Like it was my friend's fault that he was such a douche.

thisisgettingdum

i have a friend whos messed up ex said that he raped her she was a real nutcase

blueflower8

I had a boyfried that would freak out if I wasn't waiting for him at his locker every day after school, and he would always invite himself over everyday after school, and stay until my parents kindly told him to leave. And when I broke up with him, he apparently drew pictures of me and refused to wear a sweater of his that I'd worn a month before I broke up with him because it apparantly it still "smelled like me"... I'm guessing he didn't wash it so he could preserve my scent?? o_O"

androknroll

Once I had a girlfriend that that set a playboy magazine on fire in our bath tube because she didn't like them.

carrie1293

I knew a girl who not only meowed at her boyfriend whenever she wanted to talk to him and nicknamed his dick "Mr. Carrot", but she once painted "[Her Name]'s Slave Boy" on his shirt.

NGxREALITYxFANTASY

this girl i knew made people turn against each other. she would befriend both try to get secrets out of them and then tell the other person they said crap about them, so people start hating each other and like her. and another one was my friend had a guy who she didnt want to be friends with so she said she needed her space then he wrote on his shoe repeatedly Die and my friends name. another time was when he went into my friends house without her knowing he was JUST THERE IN THE KITCHEN..creepy

FRUITYoBOYZ

i had a girl stalk me in skool its creapy cuz she was a student assistent

cluedoking123

she wasn't really a girlfriend, but once i had a girl who liked me so much that she stole one of my shoes. Not the pair, but just one shoe. I had to go around the whole day in school wearing one tennis shoe and a boot.

boobooberry

A girl who stalked her boyfirmed, who looked emo, scary and silent. With terrible eyes looking at that guy lol. Running all alone during the night aprantly to find the guys's house and WATCH by his window!!

dallwalk

she said "i don't mean to creep you out but.... your the only reason i'm still alive"

true story

losermilkshake10

my friend had this ex girlfriend who wouldn't leave him alone after he broke up with her. she still had a key to his apartment from when they were dating and one day he came home and she was lying in his bed and he literally had to pick her up and carry her out of the apartment because she refused to leave because she couldn't get over him. she was a TOTAL freak in the bed too (like electricity shocks etc) but was one of those girls that came off as totally reserved in public.

phalluman

one time my girlfriend walked in on me cheating on her and she was like "WHAT THE FUCK, DICK?" what a bitch

Shawlia

You were cheating. You deserved it.

GoochOwnsYou

I walked in on my Girlfriend going through all my phone messages two times. The 2nd time ended up with me and our flatmates kicking her out.

TheKevineaddy

I had a girlfriend I dont want to say her name... Melissa Arlene Cox from Jasper,MI. I broke up with her because I caught her followin me around town when I said I was going drinking with my friends and at my apartment you needed to get buzzed in from below. No buzz but a knock, so I thiught it was the super but it was Melissa Arlene Cox from Jasper,MI. She looked at me stone cold and said youre not gonna drive around town with your little whore like I dont exist. Scared the shit out of me

jrock888000

well once my mom got mad at my dad when i was about 3, she threw a knife at him and surprisingly it stuck in the wall behind him, he ran away and when he came home and she was asleep he wrote "knife (insert moms name here) tryed to kill me with" he then hid it in the air conditioner in case she killed him so the cops would find it.

Desai969

This one isn't so much a psycho girlfriend, as much as a psycho girl who should never get a boyfriend. My friend Jeff was talking to this girl Sabrina. Amazingly sexy, gorgeous, A+, hell S-Rank. And they went to this cast party together. They were chillin out and having a good time, and eventually got drunk. Now Sabrina was pretty done in, however, Jeff is a good ass dude, and refused to take advantage of her.

Desai969

Sabrina though, wanted to have sex with him pretty bad. But Jeff stayed noble and repeatedly refused. Sabrina was very pissed about this. So Jeff wakes up next morning, and finds dried blood on his inner thigh. The blood was from about 3 razor cuts in his leg that he got while he slept. If that aint crazy, I don't know what is.

BlondeGuy94

I had this girlfriend who stole my boxers and made them into cut them into thongs to make a point to tell me how uncomfortable they are. Psycho!

emabc101

tha day i got mi period i jus wantd 2 b left alone so i was glad mi boyfriends didnt text or call but by the time he finally did i was so pissed that he HAD'NT txted or called me that i jus yelled at him LEAVE ME ALONE! causing him major confusion nd me still feeling like shit

BakaxDesu

Once, a friend of mine was telling me about how his ex rubbed her cactus plant on some of his boxers because she read through a suspicious text on his phone. Crazy.

SportbikeGunman

Facebook stalker

TheAtreides

One of my ex's who knew I was going to break up with her soon got off her birth control to try to get pregnant so "we could be together forever" luckily that didnt happen and I am now dating her best friend who told me all this.....psycho!

booboogoguy

I never dated this girl, but in college I went to a social with her b/c I'm too nice a guy, and din't even spend much time with her there (was hittin on other girls). Well, that night she apparently wants to kiss me when I take her home, but I avoid it.

booboogoguy

After a couple of weeks w/o seeing her, I'm taking a nap in my dormroom with all the lights off, and someone comes in and closes the door. I think it's my roommate trying not be loud, but then I just hear creepy breathing. I turn on my lamp, and its the girl staring at me. I yell at her to get out. Years later, this same girl calls my parents house asking for me.

robbydeedooda

u could be sat there with ur boy friend and then u just say to him ur annoying me

nwijesinghe

my psycho ex gf called me a cheater cus i watch porn!

vtarmybrat

one of my friends burned all of the clothes that he left at her house, she took all the ashes and dumped it in his living room.

AndreaEatsRainbows

my boyfriend asked a girl to be his girlfriend on Myspace, with a comment. then they talked in status comments and comments.

i copied them all and put them in a message, making sidenotes, correcting his bad spelling and making fun of him.

it took me three hours.

and i actually did it.

me=cheater=psycho.

oh yeah, i also had my friend hack his Myspace and make him look gay. very gay.

"i like it in the ass." was in the 'about me'...

fl1pm1ster

wait, how are you a cheater if HE was the one who cheated on you with a random internet girl?

Lechxim

oh oh I had this girlfriend... that when i finished the relationship she still was like stalking me D: she readed all my comments, status, EVERYTHING I put in Myspace she use to read and ask me "Do you have SOMEONE ELSE ALREADY??" and im like "NO is just a freaking song r__r" then I told her "hey, we could be just buddies" and she was like "NOOO you are gonna be MINE FOREVER!! EVEN IF YOU DONT LIKE IT" and I was like "D: omfg!!!" and then she started to come to my house D: and started to say

Lechxim

(2nd part) to the neighbors that we were still a couple and im like "HELL NO!!!" D: she still stalkes me D:

yanachkaOG

My ex-bf watched me kiss a bf that I had at that current time, it was really creepy... and he would hide and shit but still watch...

He burnt my favorite Metallica shirt.

He still watches our old sex tapes and I don't know why he won't delete it....We broke up 6 months ago and he still does it.

He is crazy...

romeosdistress

A friend of my parents had an ex-girlfriend who not only stalked his new girlfriend but went into his offices, with an axe, demanded to be told which room was his, the front desk didn't, but they phoned him whilst she went up anyway, and plunged her axe into the desk... unluckily for her it was the desk of the room next to his, and he had snuck out whilst she was there

sobedabest

my ex- and i went to the mall she went into some "girl only zone" and came back out w/ a hot pink dress so hot that lady gaga would have to sign a waiver b4 wearing it either way she asked me if i liked it and of course i eased into a hearty HELL NO! i thought it was a joke but then she fell on her knees in the middle of the mall and started to throw a bitch fit/temper tantrum and screaming WHY GOD WHY?!? i told her to seek medical help they took her away and i've never seen her since TRU STORY

twisterghost

My ex once ran out of her house after I left screaming and crying, so I stopped so she could get into my car. We drove away and she said her mom was attacking her with a frying pan.

Later, I got a call from her mom. Turns out her mom was getting the pan out to make dinner, and even had invited me over. She thought my ex and I were just hanging out elsewhere.

FinallyLost

I had a gf like 2 years ago and one day I was hanging out at the mall and then she just came up to the girl who I was sitting next to who was my friend for like most of my life and she started beating the shit out of her so I just walked away before the police came >>

SGCTRONZORE

My ex and I started dating and she always asked me about my friend Emma who I hung out with every night, my girlfriend thought I was cheating on her. I told her i wasn't, and the truth that my friend is gay, she flipped and said I was a dirty liar and broke things off.... I've now been getting txts from her saying she wants me, but every

time I txt back asking If she wants to meet up, she says "fuck off I don't want a cheating liar like you!" As you can see CRAZY

EvilMambo

OK i loved this idea, because i did not know what to do with stories like this one...

once my ex got so jealous at a party cuz i had a phone call from a girl that she started crying and yelling at me in front of everyone for like 30 minutes...

my friends and me tried to calm her down but it did not work, so she decided to grab my best friend's face and kiss him (she forced him, i was looking) and then she ran away from that house pretending she was almost dying...aint that a psycho?!

willy286

It was time to get rid of this chick that was hanging aruond ALL THE TIME . I told her to split and she broke a beer bottle over my head. Then grabbed her stuff from my room and punched out 3 windows in the front of my house. I hid in a closet but she found me agian. I didn't want to hit her back because her brother and his friends were a bunch of Lynard Skynard rednecks that said early on they would kill me if I hurt thier princess. I had to fake a 911 call to the sherrif to get her to leave.

Romeo31Romantico

i dates this girl name jessica, when i was 17 at first i though it was strange that a girl he age would carry around a teddybear, but i went along with it, when we use to go out to places like movies, partys, restaurants she would always carry a teddybear and i though it was just creepy as hell, we once went to a restauran, and i told the host "can i get a table for 2" jessica says make that 3, and i asked ger are u waiting for somebody, she says no, but the teddy had to eat

Romeo31Romantico

at that moment i though she had to be the craziest girl ever, even the host looked at me liked i was going insane, she got a chair for the teddy, and i couldn't even eat, on our way back, i was driving but i forgot i didnt have my permit, so a cop car pulled us over and i though i was fucked lol, the cop approached us and i lower my window, he asked "why is the baby without a booster seat & seat bell" i looked at him and looked at the back and shocking the teddy was dressed as baby in the back

Romeo31Romantico

i looked back at the office and told him that it wasnt a baby that it was a teddybear, he looked at me and told me, "sir do you think im stupid, dont try to fool me, i know is a baby" and i replied office that is a teddybear , the office pulled out a flash light and over

my head flash the back and than told me, its a baby not a teddybear i couldnt believe what i was hearing once more i told him it was a teddybear so the office open the door of the back and looked inside and saw it was a teddy

Romeo31Romantico

the office closed the door, looked at me , apologize and left, when we finally got 2 jessicas house, she decided to take a shower so i went to her room, and her bed was fill entirely with teddybears, i got so mad i got 1 and ripped it, she got out the bathroom, and it looked like she had the teddybears counted cause she said there was 1 missing, that same night, she asked me to say over, and i had no money to get home so i did, she wanted to have intercourse that night, and so we did,

Romeo31Romantico

the next day i left, and went home, i came back to jessicas house in the evening, i had decided that i couldnt handle being with jessica any longer and we had to end it, so i entered the house and everything was quiet all the sudden her family jump out screaming suprise there was ballons and confetti everywhere , i had no idea what was going on so i asked my best friend chris who was there, he told me jessica had told her family that i propose to her and we were gonna get married, i was in shock

Romeo31Romantico

i couldnt believe what i heard, i had to sit down everyone and tell her hall family that it was a lie she made up and that i never proposed to her, i went to the kitchen where jessica was told her we had to talk, she said about what, i told her its over, you a fuking lunatic, crazy, psychopath and i cant be with you anymore, she spill a bucket of water in the floor, and stared crying than, she grab a nife and told me that if i left she she was gonna cut her veins, i slowly ran toward the freezer

Romeo31Romantico

i open the fridge and took out a froze water battle, i went up 2 jessica and told her i was only joking that i wasnt gonna break up with her then she put the knife down and turn around to clean her tears, i hit her with the frozen water bottle and knock her out, her parents took her to a hospital, the doctors told them that she was fine, but that she had amnesia , and that she might no remember some things,

dinisharob

how did u know there was a frozen waterbottle in the freezer?

Romeo31Romantico

because i had left a water bottle the night before in the freezer and i knew i left it right

in the front standing up

she woke up and recognize her parents but didnt recognize me, i told her parents, not to tell her about me, and that i never existed in her life and then just left , THE END lol

siliva94

Someone told me there was once this girl who made up a Myspace pretending to be her own cousin. She requested her boyfriend and began flirting with him and asking him if he wanted to come over and hookup to see if he would cheat on her even though he rarely talked to other girls. He said no, and broke up with her after realizing it was his girlfriend.

karixlee

My best friend's kinda ex won't believe when he breaks up with her.. & then when she gets tired of him she breaks up with him & then when he 'cheats on her' she gets pissed & then they kinda get back together & since he's my best friend we're really close so she said she wants to kill me & calls me to tell me to stay away from him even though I have a boyfriend.

& then they broke up for a while & he got another girlfriend & she got super mad.. even though she 'cheated' on him.

Crazy bitches...

julesickdrums

dude, my 1st girlfriend was(is) the most psycho & stupid woman on earth, I once went to her house cause' she called me at like 5 am saying she needed help to get inside her house because she couldn't find the keys, turned out she broke the window to open it from the inside but she cut herself, so when I arrived she was bleeding badly and was at the porch drinking all happy saying "I feel dizzy, look I finally got the beer!" so i got to drive her to the hospital and I had to explain everything.

julesickdrums

another time after i broke with her she was at a friend's house drinking with all my friends, I got mad and told her to go home but she started to cry making an embarrassment, tired of that i went back home and another friend call me within 15 mins saying she was trying to steal a skateboard from a guy(i was 17 back then,she was 19), other time we were at a party and she fell down and accused me for it i was like 3 meters away, one time she used the classic "If you leave me I'll suicide" thing

z3p31n

My cousin had a girlfriend who liked having him over with her family. My cousin broke

up with her after he noticed that she was a bit obsessive when he talked to ANY female, especially when going shopping. She would offer to pay, just so that he wouldn't talk to the cashiers. One time... as my cousin was about to leave from her house, she parked her car in the driveway, HITTING and blocking my cousin's car so he wouldn't leave. she was yelling and crying "why don't you love me!?!?" hahaha

Emile1238

My exboyfriend got some of his friends to constantly ask me/call me to question me about why I broke up with him. They also tried to convince me to get back with him or yelled and told me I was being an idiot.

TeroSinari

She left me for another man, in which that man left her for another man, then both guys started dating her, then after that, she started dating another guy while dating the same two, and shortly after that, she brought a girl into the fucked up game of love which they are all now dating each other too.

FluffyThePunkRocker

My ex boyfriend of 8 months told me that he now has to use hypnotism to forget about me. psycho/FML.

010494x

when i broke up with my boyfriend, i was talking to my a friend about it and she thought he was out of order. the next day i get a call from my ex asking if i know a girl called amy, i said yea she a friend of mine and he started shouting at me say that i was being pathetic and that i needed to get over him... after i was the one that ended it. but i turns out she'd gone through my phone got his number, text him to meet her and threatened to get him beaten up if he didn't ask me back out.

010494x

i had a big argument with her saying that she should keep out of my business. two days later she started dating him... only last a week but still.

wertynosbest

Well, besides from her obsessive behavior she's a good girlfriend :P Right now me and her are trying to work on it cause we both don't really wanna leave each other, at all. I dunno, I'm giving her another chance and I'm gonna help her with it. It wouldn't be fair to break up with someone without giving them another chance to make everything better if that's what they truly want.

Cwasserstrom

I would class myself as a phyco girlfriend. my bfs ex use to always threaten to beat me up and kept calling me a schoolgirl slut and a catholic whore because i was 16 when i met my bf anyways my bf cheated on me with her and i got my own back at him but i got naked pictures of her from his old computer and her telephne number then made them into sex cards then i was planning before my bf stopped me to get her dads email address get him to cheat on her mum then send her mum the convo x

thetrap72089

Damn that's evil! Are you related to Cartman or Satan by any chance?

ElizabethCanton1717

I went to Wayne Co. Circuit Court in Detroit....A woman saw her man talking with another woman and attacked her boyfriend with a boxcutter. Don't ask me why she was carrying around a boxcutter. He ended up seriously injured. Moral: Don't mess with my BFF, or I'll fuck you up. :D

LifeUnderTheStars

well...we were kinda of a leauge of phsyco ex-girlfreinds. but only after three of my other friends and I discovered that he had dated all of us...at the same time. so we kinda went "John Tucker Must Die" on him. sabotaged his feelings with help from our lesbian friend. :) nothing can emotionally crush a guy better then hearing that "she left him for her." ahhh.....good times

rdussel89

one of my friends got dumped so she took pictures of herself crying and posted them on facebook and Myspace and was all "YOU BROKE MY HEART"

flare765

well this one isn't really mine but its like my uncles wife..so anyway they had been fighting for a while and eventually she gets really angry.. so she writes him a note telling him its over and all that. and she staples it on his nutz while he's asleep. hahahaha!! hahah! funny?

ChrisThePsycho

My ex was really psycho when she decided to bring her "Friend" in which turns to be her current boyfriend to our house after I ended it with her. I went to pick up a friend to help me move my stuff out in which she called me on the phone to start YELLING at me and I finally had it and called her a Cunt, She broke my Cd player. and said it was

an Accident. B.S.

ChrisThePsycho

Later that night after I got my buddy and we moved out the rest of my things, she started to follow me to his Truck, and then procced to ask me if I had ANYTHING to say to her, I told her NO, Your "Back up plan" is in that house waiting for you, as I got into the Truck she opened the door and attacked me. my buddy was trying to get her off me and I finally shoved her down and drove off with him. She claims to this day I rasied my fist to her, I'm a gentleman, I would never.

Morrigan0123

I knew this girl who pretended to be pregnant with his boyfriend just to fuck up with him, then she pretended to have an abortion.

She did the same thing with his next 2 boyfriends, in a period of 6 month.

She redefines the word "Bit*h"

bchea1989

my friend's gf always want to be the center of attention when a group of my friends and i hang out. she loves to pick fights with him over little things. for example, she would ask, "hey can we go over to Helen this weekend?" he would say, "no i can't." then she'll flip out and say well you didn't have to throw an attitude!

my friend is only allowed to hang with us if she is there, but she can always hang out with her friends. we have to do things she wants to do.

MyChemMyLove

My brothers girlfriend comes over to my house every time they are in a fight and stuff and she comes in crying and then she sits down with my rents telling them everything that happened andcomplaining.sometimes she randomly comes over when he isnt here and is like can i go up to his room? and mom says no and she starts why and asking please.she has to kno where he is at all times! i think she is the p in psycho girl...totaly useless.

RiverofDoubts

My psycho girlfriend from high school kept pestering me all through the day she would even skip class to eat lunch with me but when i tried to break up beacuse she deleted every girl in my phone she grabbed my arm and swore to god she wold yell that i raped her if i left and when i tried to walk away she jumped on my back and started hitting me on the head and apparently pushing her off was "assault" in my principal's eyes.

blueflower8

My best friend had a boyfriend that was very clingy, and after she broke up with him he called her literally 13 times (she counted) and banged on her front door continuously and shouted for her to be with him again until her neighbour threatened to call the cops... he was a BIG guy too, lotsa muscle and a football guy, she was terrified of him o_O"

illusionillusion

My ex snuck into my house and set fire to my dog after i broke up with her because of her insane behaviors. She was sent to jail and is going to get out in about 2 months.

AshleyRheiner

My fiance's ex-girlfriend got so mad that he got with me that she started sending me messages and blogging openly, telling me and everyone else that could read it, EVERYTHING they did together, in detail. She even showed up when we went out on dates, then would tell everyone how she did better things with him than I did. Four years later, and it's only starting to stop. Crazy, isn't she?

MusicMaggie101

My bro's ex moved in down the street and started texting him like crazy :P

wpolopunk1

Ok so this is how the story goes.... This girl and I dated and on the down hill slope she kind of went nuts. I would go to my friends house adn she would eb there waiting. She didnt have a care and lived at least 15 miles away. Then she would have me drive her home. After the break up, she still did this. Not to mention we were on the swim team and I was sleeping at a meet. I woke up to find her just staring at me straight in the face sitting about one foot away from me.

99pinklilies

a girl made up a fake account on a networking site to catch her bf, she got him to give him her number... she even bought a prepaid phone so the fake internet girl and her bf could text, without being caught. :(

redbandfilms

I knew it was time to end our relationship when my ex described a unicorn as a horse with a seat on its head.

trevwhore10

I was walking through the park to get to a friends house, and my crazy ass bitch ex girlfriend literally jumped out of a bush screaming, tackled me, and told me if I didn't have sex with her right there that she would put a hex on my house...

I got a restraining order.

DandCProductionzz

funniest story of my life!! LMAO HAHAHA

alejandra504

i have 2 stories: 1. 2 years ago i got so psycho on my current boyfriend, i thought he was cheating on me , so i went to his house with my best friend to spy on him. I saw his car parked up front and went to check inside, and when i saw a purse inside i went nuts!!! i started banging on the windows and kicking the door, and when i finally broke in, i saw it was his brother who was inside with a girl, they had exchanged cars for the night! ...

alejandra504

long story short, i ended up hiding on a cabinet for 3 hours at my boyfriend's to avoid him.

2. My friend recently had an accident because of his stupid girlfriend, they were in the car fighting and the girl tried to u-turn for some reason but instead made my friend loose control of the car and they hit a tree so hard, he broke his spine and is in the hospital immobilized and she just broke her damn arm, ugh, what a bitch!

sillsje

One of my friends dated a guy on and off for 3 years, and was always the one to break up with him, (8 times). The last time they broke up, her reasoning was that she wanted

to see if she had a chance with this other guy before she 'settled down'/ went back to her boyfriend.

ralphhersheljunior

ok how about this one minor reference to my psycho ex:

Ex: Im pregnant

Me: What? Are you sure?

Ex: Yes

Me: Can you take a pregnancy test?

Ex: Well you see I had a miscarriage

Me: Riggghht..

GJJDGDJF

haha my cousins gf is a psycho bitch she calls him 24/7...he cant go out by himself he needs her to go to the mall to eat anywhere cause she doesnt want him checking out girls...then she calls me and tells me to wake him up so they can talk at fucking 3 am in the morning...she also called his exes and claimed my cousin saying hes hers and only hers telling his ex's that their getting married and blah blah shes effin crazy.

Exile2347

I moved to Australia for my girlfriend and once I got there she accused me of cheating on her non-stop. Once I ordered her steak medium (the way I like mine) instead of well done (the way she liked hers). She said I must be taking other women out to lunch instead of her.

muffintop92

My friend's ex girlfriend was overly obsessed and super jealous. She always gave his female friends dirty looks and threatened to beat them up. Every time he tried breaking up with her, she would start crying and being really dramatic. One night, she tried to kill herself by taking tons of pills. My friend had to call her parents so they could take her to the hospital and get her stomach pumped. Pathetic much?

leinadhtims

One of the last fights with my ex girlfriend was about how she had a dream that we were arguing and fighting. When she told me about her dream she got upset about "how could you say something like that?" and then she got mad at me because I wouldn't apologize for the things that I said in her dream! Some woman are crazy.

missrawrz

HAHAHA those dreams are the best! haha but I wouldnt get mad cuz of them.

immortality64

My girlfriend hacked my myspace, facebook, msn and everything else i have an account on even youtube to check my inbox if any girls sending me emails or shyt ='(

blismwithmyblizblop

My name is John on my Psycho Girl friend makes ne do this crazy thing because she has obsessive compulsive disorder.

Every time we leave the apartment together she makes me go back to the door to make sure its locked. Not once but twice she makes me check if I've locked the door correctly. She makes me pull on the door handle as hard as I can so she can make sure its locked.

If I don't lock the two locks in the right order she makes me unlock the door, open it, close it and lock them up again.

KitKatBar603

i once had a gf and she was rilly jealous of my best friend who i had known since i was 4..and my best friend liked me..so as u can tell my gf was crazy jealous! so i wanted them 2 become friends cuz i didnt wanna have 2 choose between my gf and best friend, so i told my best friend 2 invite my gf over 4 a sleepover so she did.and my friend told me later that my gf had tried 2 stab her in her sleep and started chasing her around the house w/ a knife and her mom came out and called the police!

silverchaarm

my uncle came home to his apartment and found his girlfriend of one week in his place going through his financial records and personal files. he dumped her for obvious reasons. they got back together (who knows why) 4 months later. she creeped him out, and when he tried to re-dump her she had a nervous breakdown & locked herself in the bathroom, coming out 2 hours later acting as if nothing happened. she stuck around for the evening, and my uncle cought her adding rubbing alcohol to his tea.. :\

Sephitron

I had a psycho ex that would always call me and would cry if i didnt call her back right away or if i was busy. She hated my best girl friend and threatened to kill her. When i broke up with her she pretended like it was fine but then I heard from people that she was stalking me and she would park outside my house or drive by to see if i was home. She called my mom trying to convince her to convince me to get back with her. And she sent me a message on myspace saying (continued on next post)

Sephitron

she had seen me with other girls and that she was going to break the windows on other girls cars if they came to my house. She told me that SHE was the only one for me whether I knew it or not. I ended up moving two hours away and I hear she is married and has a kid now. Psycho chic

genothetank

I had an ex that when I found out she cheated on me, I blew up on her we fought back and forth, I hung up on her she sent me 24 calls, texts and voicemails in 12 hours, long story short I take off to Cali from Oklahoma to get away, I come back to get a call from her "british sister" that she killed herself and I was to blame, knew she was faking, I confront her, she claims to be a british twin until I brought up a moment only we knew and caught her acting, although I knew this the whole time.

alrnrlds

my friend's gf air-dried... i thought that that was pretty psycho

suganhoney232

well it's actually my boyfriends psycho ex girlfriend. \ when they finally broke up, she refused to leave and kept going over to his house. she texted him constantly and would never leave his side. finally she got her car stuck in the snow at his house, we were all there trying to help her get the car out. she purposely flung snow at me with her tires and gave me a dirty look. after all was said and done she told him, "if you two ever start dating i will slit both of your throats in your sleep"

bronko0824

my ex was wickin or what ever and when we broke up i found out from her roommate that she was putting mestril fluids in my food as some f#\$^ed up ritual to put some kind of love spell on me nasty stuff but it did not work sick B^%\$h

Jayster69

My psycho ex girlfriend stole my phone at a party after we broke up to read my texts. Then she claimed i spiked her drink with a pill of some kind just so i would go to her house when it was empty the next day so we could "talk it through." I dont even smoke cigarettes let alone spike my ex's drinks.

aaron62890

My pyscho ex girlfriend pretended was dating somone else while she was dating me and accused me of cheating. then she said she was pregnant and i believed her and we

were going to get married and the week before the wedding i found out she was on her period. and i know girls cant be on there period and be pregnant and i knew she was lying and ended right there.

Blackdevil198

One of my ex's pretended to be a Gay, adopted, prostitute brother so that she could trick/presude me to ask this ex-girlfriend out.

who obviously didn't actually exist...

She also once told me about how I was her 'angel' since I saved her life by talking to her on AIM once when she apparently was going to try and kill herself.

Deminx13

My phyco girlfriend whats so fuck me with sandpaper!!!! Srsly!!! SHes a nasty sick asain , .. >_> Freak!!

JCoconuts23

hippichick123

a friends girlfriend was scaring every girl who talked to him by threatening to kill them

when they were sleeping and stuff. He didn't believe it when I told him so he talked to her. When she got asked if she was actually doing that, of course she denied it. Later on in their relationship she got even more jealous and sent his guy friends messages that he didn't like them and that he never wanted to see them or talk to them again. Then he had no friends at all. Then the dog went missing. They broke up

hippichick123

And she was arrested for animal cruelty, breaking and entering his home, and spying on him. Ya she's pretty psycho!

juelz415

about a year ago me and this girl I was dating went to the park some how she got my phone and found out I was texting another girl she took the number called her and asked her all these questions after she pulled a baby knife that she keeps in her purse out and cut my thumb. I had to go to the hospital where I had got no service when I left she left me like 10 messages and she kept calling from blocked numbers long story short she still calls me too this day

AliciaSings

So I have a guy friend who was dating this girl and they texted all the time. Then one time he didn't text her back 'cause he was at a family reunion. So later on she got so obsessed with it that she kept calling him and saying, "Why didn't you text back? What's wrong?" and stuff like that and then he tried to explain it but she kept interrupting him. So then she started crying and he hung up on her. The next day at school she found him during lunch talking with a girl and she started screaming.

RICbass78

yeah actually just the other day my girlfriend flipped the fuck out because I went to do homework with a girl in my class. I even told her, I called HER and said "I'm going to do some homework.... this girl's the only person in my whole class who I know... ttyl" (so it's not like she didn't know where I'd gone) and she called me and FLIPPED OUT and yelled and screamed and eventually hung up. It was lots of fun.

Oh, estrogens.

taylorbrooke44

my ex boyfriend's ex is friends with his sister and would spend the night at his house all the time and make up stories for people to tell me. she told me that she was the only girl he ever cared about and that they were having a secret relationship behind my back. he is leaving for college and she told people she didn't know what she was going to do

without him and how much she will miss him. he doesnt even talk to her and he only dated her for a week.. and it was over a year ago..

666superstar

My ex went to Lake Erie for a couple weeks for vacation and she called me almost 4 times every day. I told her that she didnt need to call me that much and she got pissed. She got really drunk and cheated on me twice, and her explanation for this was that I wasnt being open with her and that I wasnt paying attention to her. When she got back she told her friends the 'terrible' things that I said, and they actually defended her, it was a mess.

MattyboyJ

One of my exes actually went so far as to spike my drink just to try and get with me again after we split up. Only, she couldn't remember wich was mine, and wich was hers out of a Guinness and a WKD Blue, therefore both drinks ended up spiked. That was a fun trip to the hospital.

teetertoter3

This one girl asks me to talk to her more so when I started calling her more she called me a stalker. O.o

Brooklyn082285

My ex-girl friend went totally effing psycho on at the New York City Metropolitan Museum of Art. She was yelling and crying in front of all the patrons, because I forgot the digital camera. I'd never felt so embarrsed in my life.

BlueSoda20oz

I still to this day can not understand how my ex-girlfriend was straight up furious with me because we NEVER fought, no arguments, no yelling, nothing. I never cheated, she may have, and the only time we ever fought was at that one time because what hadn't before and she couldn't understand that there was no need for it. No matter how many times I tried to explain that being happy is the general idea,, she'd just start yelling and crying about how we never fight and something must be wrong.

healr4man

I had a girlfriend who wanted to quit drinking coke. So she pulls up to a drive thru window and ordered one...I told her that she was wanting to quit...she told me to shut the f up and I decided I better get out of the car and just walk home instead of fighting with a crazy woman....so as I was walking down the road she yells at me to get in the car...I refuse...so she backs up and sideswipes me! I was fine..but shocked that she

would actually hit me.

hardbud33

do you consider my girlfriend psycho if she does this all the time?....contantly wanna have sex morning, afternoon, and evening...all and all we do it like about 10 times a day...and thats not it!...we broke up like a couple of months ago..she already have a new boyfriend and she also doesn't want me to move on too...she gets mad and ruin all the dates that i had plans...what can you say about that?...

falconsguild

My ex thinks she's and alien....

shoquie

lol that is crazy

Dragonlegs15

and alien? :)

falconsguild

Yup.

Exile2347

My ex-girlfriend used to call me gay if I didn't want to have sex with her. Its not like her pussy got any better te more sex we had.

jw13303

I once had a girlfriend that I had to break up with, give me some "last chance" sex... Right in the middle of it she started peeing on me.. I was soo fuckin grossed out! She thought it was funny.

stephaniealishia

In a long distance relationship my ex girlfriend faked being pregnant...acted like she was in labor...and then posted pictures on myspace ...and she also use to call my phone 40 times in a row and on each call let it ring all the way to the voicemailand she kussed out my mother shes puerto rican and white...That b*tch was physco times infinity....

Kagedanji

My doorbell rang once while I was talking with a bud of mine on my cell. I went to answer the door with my phone still in hand to see it was my psycho ex covered in

pimples. She screamed some jumbled sentence along the lines of "LOOKIT MY FACE! I ATE JUNK FOOD OUT OF MISERY THINKING ABOUT YOU! HEY WHO ARE YOU ON THE PHONE WITH?!" And she started to yell some unmentionable things so my male friend on the phone could hear, my ex thinking he was some girl I was dating.

Kagedanji

Afterwards, in a surprisingly Reckless Tortuga Psycho Ex-Girlfriend fashion, she told me, "These are actually herpes."

Kiffer79

The Psycho ex n me were broke up for 3 months i hadn't seen the bitch in that time at all or spoken too her. Went camping with the new girl while camping saw the Ex at same place way up in mountains very remote. I was cival but when i went in the tent i was disgusted. Bitch took n saved her shit it was smeared on everything in tent and on floor word Whore was written in shit.

xxsoundofsilencexxx

my girlfriend still to this day lol(believe it or not) wanted a foot rub. i was really tired so i didnt want to so i was going to bed and she said if you dont do im going to pee on your head. of course i didnt believe it so i went to bed only to feel something warm on my face and her vag was in my face peing. i sprung out of bed like WTF?!?!haha she would kill me for telling this story

SanAndreas997

my ex kept laughing at stuff that was just normal stuff and it creeped the shit out of me after a while. she cried too much. not just that she texted me too much and when she kissed me sometimes i thought of other women while i kissed her near the end of our relationship. not just that her mouth was disgusting she tried to kiss me with a piece of lettuce stuck between her teeth.

SVKmellow

I have to share one more... So there was this girl I went out with and she went to a saloon (hairdresser). She was blonde and wanted some highlights or whatever but after she came back she was totally freaked out about how she looked.

She yelled that her hair was totally red and that she looks horrible and went on and on about this. So I sat her down and was like:

Honey, you look gorgeous. Maybe it is a little red, but you look great so just forget about it. You look just fine.

SVKmellow

If she wasn't so freaked out I would not have known she had done something with her hair. I mean she looked great even with the highlights.

However, about 30 seconds in she gets angry like hell and starts yelling at me to shut up and that she knows she looks terrible.

So I tell her: "You look great. I really like how you look. I think you're beautiful and that frankly I would not even notice if she didn't tell me..."

SVKmellow

So right there she gets angry about the fact that I would not notice (still thinking that she looks bad) and tells me to f* off.

At this point I pretty much did what she told me to. She apologized but I knew right there that I wanted it to end.

witchady14

ok im a girl but this is a story of a psycho boyfriend i had. well i went out with him cuz idk i thought he was ok and he kept asking me well. im the type that likes to take things slow but he would go fast he told me he loved me after three days . he gave me a shirt covered in his cologne so i can wear it when i sleep to remember him. i invited him once with my family to this restaurant and he like said to my mom if ur daughter was older i wish she looked like u. and in the car this song came on.

witchady14

(continue)

and he was singing it on the top of his lungs my uncle told me that he felt like braking the car really hard just so he can get knocked out with the back of the drivers chair. idk he was the most dum boyfriend oh and not to mention that in class he would be the annoying kid he would fart in class and start laughing. biggest mistake of my life

lemonstar101

This is about my ex-boyfriend, but it sounds more like something a girl would do, anyway my bf stalked me and followed me around campus. one night i woke up at 3 am to find him outside my window watching me sleep, he said i was so cute when i slept he just couldnt help but watch. I would also catch a glimpse of him hiding behind trees while i was with my friends, and if i talked to a guy he'd get all intense and start following him. He was insane, which is why i broke it off after only 1 month.

Yeppitserinn

ok here it goes

so i went out with a bunch of my friends and met this guy who was friends with my other friends. he was really nice and i added him on facebook. so we talked on there and then he asked my my number. so i was like ok here. so we started textng and whatever. then one day i get this nasty text message saying that im

Yeppitserinn

(continued)

the "uglest thing to ever show my face on the internet" and i need to stop liking him. so we said some not so nice stuff to each other and i found it it was his ex girlfriend. she got my number when i gave it to him on facebook. because she read our conversations. she also texted my friend who was talking to him too. so we both just kinda stopped talking to him as much. and then one night we decided to text her and bitch her out like she did to us...and come to find out she

Yeppitserinn

(continued)

has a boyfriend...but shes still obsessing over her ex.

so then another night i get a phone call from her best friend or whatever saying that im a "fuckface" and then i shouldnt have talked to her bestfriend the way i did. and that same night...i get a text from the guy saying "fuck you dont talk to my ex girlfriend". so i was like what the hell? so i texted him and told him my side of

Yeppitserinn

(continued)

the story and how she texted us first and he was just like oh im sorry i didnt know blah blah blah. (like a little pussy)

so end of the story...we all just stopped talking to him.

then school started again this year.

the guy is in my friends class....and sits right behind her.

and guess whos in my class.....

the crazy ex girlfriend.

Yeppitserinn

(continued)

and its so weird now. because we all go to the same school. and we always see the two of them. and since they're together now (go figure) its even weirder.

mainly hes a wimp and shes a slut.

Sharkdread

If you do read this, I have a story, it's a bit simple, but basically the girl I dumped got all her girl friends.. to get revenge...

I think you should include something like this, such as get a really slutty girl that is friends with the "physco girlfriend" to have a part in the next one, and both of the girls get revenge on the guy :P

SVKmellow

I don't get my last gf either she was super hot too but she got jealous about everything. Also, she was always scared that I would leave her and stuff like that.

Frankly my looks are very mediocre and she also got an offer to be a model.

Maybe the hot ones are really the ones with the worst daddy-issues.

VidMasterflex

My GF went and fucked some dude the next day after we broke up. Then she assumed we'd get back together afterwards. When I said NO. She threatened to take a whole bottle of pain killers if I didn't get back together with her. So I told her I called 911 and she was like WTF. I lol'd

crookedballer

short and sweet , i was playn pool with my buddies who ran in to some girl they know .after the night was done we headed to a pub till 2. my girlfriend got home at 3:15 am,yelling and tryna kill me,apparently her sister was there and noticed my helping my partner shoot .harmless right?,no . sh egot hom eand demanded to ""smell it" to see if i had cheated on her. needless to say we are no longer together. thank god. but feel free to us emy exp as a skit . good work in the past 1's

dovermoreno

The ultimate psycho girlfriend would ask the question like the lyrics in that song...

Let me smell your dick !!

fuqueue

Hahah..."Let me smell your dick"...classic

AndNoted

she didn't want me to leave one day so she ran to my car and proceeded to try and eat my registration and insurance papers. i got them back but she bit my finger and i lost feeling in it for like 2 months

AndNoted

another time she jumped on the hood of my car at 3:00 in the morning, barefoot, in her short nightgown, gripping onto my windshield wipers and saying that i can't leave her

AndNoted

also i tried breaking up with her and she chases me down the street in pajamas screaming at me. the cops pick her up for being under the influence and i break up with her face to face. then she calls me later that night to pick her up from jail

AndNoted

finally i caught her outside my house still trying to stalk me. she doesn't have a license so she usually rides her bike 4 miles in the middle of the night to try and catch me. this time she has someone's car and is waiting outside. i call the cops. but i use 311 instead of 911 because i don't think it's an emergency...and i'm responsible. 4 squad cars end up showing up and she is carted away.

AndNoted

BUT WAIT! every year on my birthday she calls my parents house because she stole the number from my cell phone which i ended up having to cancel because of her stalker ass. she tries to say sorry for threatening me and my family, but we all just hang up on that crazy bitch.

AndNoted

oh yeah, and she called one time and said that she's pregnant and that if i don't call her back, she'll see me in 9 months. Surprise! no baby.

bebebe8484

I had a BF that would accuse me of cheating constantly and then cry all the time cos he thought i was lying to him...this was really embarrassing, he did it in front of people. It turend out he was the one cheating. He'd also call me fat and I'm not even fat, when I broke it off with him he called my mum telling tales on me. then told me he was going back to his ex who was pregnant with his baby. It's been 2 years and he still tries to get back with me. u shld make a phycho BF series cont-

bebebe8484

When i broke up with him, it was because he didn't want me to go out. I told him it was over and i was sick of his shit and to get out my car. So he did and he had a man bag and threw all his shit out on the sidewalk , threw a little tantrum and gave me the fingers, it was pretti funny, needless to say I didn't miss him at all. He did all sorts or other crazy shit...then went on at me wen we had broken up about how good the sex was lol he only ever lasted 3 minutes tops it was traumatic.

KINGKAI41

This hasn't actually happened to me, but, you can say for yourself, that this chic is somewhat psycho.

This one chic had the itch for a scratch *hint hint* so without hesistating, the dude quickly takes off his clothes and even before he could take of his pants, the chic jumped onto to him and so on, by the time he was ready to cum, the chic wrapped her legs around him. "BE THE FATHER OF MY TWO KIDS."

I know, right?

marshy44100

so i just dumped my girlfriend and knowing that she goes insane after break ups i threw away food and shampoo. Thinking she either had done something to either. But she didnt do anything to my shampoo or food but when i was at work she took the key i leave under my doormat and burned all my clothes while i was at worked. I have nothing in my closet now. SHIT!!!!!!

IKickHobos

So one of my ex's cheated on my hardcore and basically fucked me over. I wasn't going to let it rest there. He was staying with a friend who gave me the key so I went over and got all of his things, leaving him some Jewel CD and a pair of dirty socks. I piled it all up in my car and drove to my friends farm where we set it all on fire after calling him to show up. He shows up, I'm gone, and I called the cops for arson. He got 2 years.

tenta20

Whoa. Damn. That is serious.

IKickHobos

Yeah. I'm not proud of it. I'm not terribly ashamed either but lets just say that I've matured past vengeance. But hey, they asked for crazy and that sounds pretty crazy to me!

spitfirescotty123

i went out to the pub and didnt turn up till the next day so she started throwing chairs and she bit me in the face

andy80186

When we broke up, my psycho mental ex girlfriend stole my pets, two turtles and the entire collection of FRIENDS.

Then, she put on facebook the picture of my turtles, with her and her new boyfriend

IntelligentJewel

lmao....you should make her claim she's a lesbian...and hit on seth's love interests...to keep them away from seth. XD that's what my friend did. haha.

psychologymajor00000

About a year ago, my ex and I had just broken up. She wasn't over it. Demanded I take her back, blah blah blah. I said no, because I got over it within like, 2 days. Plus, I had a date. Apparently, one of my friends, and I still don't know who, told her about it. She went there, and brought a picture of a very small penis, (not mine), and claimed it was mine. I was pissed. Luckily my date was really cool and said, "It's Ok, I have a small vagina." I haven't heard from my ex since.

Taurenspoon

So, me and this girl did some stupid shit, and got arrested, ending up with a no contact order.

Of course we stay together totally ignoring the no contact order, but eventually ended up breaking up about 3 months later.

Long story short this bitch shows up to my house telling me if i don't fix her car she'll call the cops saying i broke the no contact order and having me arrested...

IAmJustinGracie

Mine decided to start telling people I hit her after we broke up- I swear to God, I didn't. She tried to kill herself, while I was in the room. After I got the knife out of her hand, she made me tacos? She cheated on me, multiple times, ruined relationships with lots of my friends, threatened suicide if I didn't talk to her for 4+ hours on the phone daily, pretended we had a baby, tried to make me wear a promise ring and a heart necklace... and lots more, too much to type. fuck that.

IAmJustinGracie

Oh, and on my birthday, she hit me for disagreeing with her about music. So i started

walking home, because it was my birthday and that shit's not cool... and she gets her mom to chase me in a fucking van. She made my life hell for eleven months, and I didn't leave because I was honestly afraid she'd kill herself. But, thank God, it's over now.

generalchad

Dated a girl for a bit... she was getting pretty serious, talking marriage etc., so I broke it off with her. She flipped out. This girl followed me around town for months. One two different occasions I had to have the cops ask her to leave me alone. She broke one of the windows out on my truck.. she was amazing in bed though. Kathy, if you see this, call me ;)

paz8473

I was checking email and had one of those meet your match spams, my girl saw it and demands I open it, I told her no way cuz it could have a virus and deleted it, she gets all bent saying "if it was nothing you would have opened it" then she storms out of the house, she comes back in a minute later and wants to know why I didn't come after her, I told her I know its best to leave her alone when she's upset, she says "don't try to turn this around on me!" I'm standing there like WTF?!!

silviosdemon

Broke up with this gorgeous girl she was totally flippin' crazy but damn the sex was good any ways bout 4 months after the break we so happen to meet each other out of nowhere one thing leads to another and we end up in bed for some crazy action... after a smoke I ask her how her life has been and she responds... I'm pregnant with my new boyfriends baby and quickly gathers her stuff and leaves.... ew...

Adversaryan

My x use to threaten to cheat on me for not having sex on the spot. She called the cops on me once for not getting off the phone. She picked up my sega dreamcast and broke it on my face for not getting off it and coming to bed. she got into my email and posted a letter i wrote to a new gf's parents on her Myspace. She tried to kill herself and is alive only because i called an ambulance to her house after she told me on the phone to take care of her kids and passed out.

belle380

I know of a girl who found out her ex was dating someone else. She went to his house while they were out, picked up a dead squirrl from the side of the road, walked up to his doorway and smeared it's guts all over his front door. As she was walking away she meet up them on the sidewalk. It was pretty awkward. BTW, he's the father of her child.

tiffanylogsdon1993

well my friends dad was cheating on her mom and we were in the car with her mom and so we looked over and in that car was her dad and another girl we ran into the store told her mom and her mom came out a took her car and samshed into his car it was halarious! (even though i was in that phsycho girls car)

scbafreak

Every Psycho girl I have known, and there have been many, cried a lot. I mean I could water my fucking plants with the tears from the crazy girls.

Also, I have heard many, many times the words "do you think she is prettier than me"? It probably doesn't help that when asked, I stop and stare at the girl in question and give an honest response. Something like "Oh yeah, clearly".

jennifer50158

1. All psycho ex's always start a fake myspace, facebook, tagged, or whatever to "catch" him doing something bad.
2. All psych ex's always go through personal things... phones, emails, wallerts, websites, and etc.
- 3, All psycho ex's are talkers and I mean serious ass stalking
4. All psycho ex's aere cop callers, but without reason... think of a thin line between love and hate.

jennifer50158

I also think it would be hella funny if the baby (if there is one) turned out to be black and the crazy bitch still tried to convince dude it was his. What if the lame believed IT and was like... "sosometimes this stuff can go back for generations wirthout even knowing," LMAO

Striker9233

lol my ex was a bitch.1...she would complain when i dont have ice on my cup of soda and get into a huge argument about it...2. i would get yelled at if i forget to turn on the tv when shes in the room and im reading a book...3...we would argue for who gets the last slice of pizza...4...she would get butthurt if i asked a simple question like "what do you want to eat?".....can you believe all that happened in our relationship that only lasted a month?

ChadTower

my psycho ex used to love to flash her breasts at strangers all the time... try that, it

would make for a good episode

keepthemaskon513

I knew a girl who found out her boyfriend was looking at porn and jacking to it and she got all pissed and freaked out saying he cheated on her because he was "imagining have sex with other girls"

dirtcrawler1

I was about to sleep with this girl when she told me to hang on, she had to take her tampon out.

I said i wasn't down with that since i had only known her for a day and she said "no it's cool. I just had an abortion"

WTF
