" Make money valuable and you will always pursue it. Make yourself valuable and money will come to you."

Bhaga, Ancient Persian God of Wealth

How can it be, that in these hard times, some people are doing fine – even thriving? It is because prosperity is a mind-set. It's an attitude. It's a deep belief which creates prosperity no matter what is going on around you. **How do you get that mind-set?**

I didn't know either, until I started channeling Bhaga, the ancient Zoroastrian God of Wealth. His teachings emphasize sustainability and responsibility as well as prosperity. Through these meditations and communications, I have been handed 17 prosperity principles and 14 prosperity exercises which have **transformed** my life.

I'm finding that **THEY REALLY WORK** . . . and they work quickly, as soon as you begin implementing them.

Sandey Lock, actress . . . *"I believe in prosperity, but it had always seemed intangible. I have now been able to make prosperity tangible. Since Abbi's prosperity class, I have a very secure feeling in my heart that everything will always be taken care of, and the fear and the negativity is gone."*

Sharon McCormick, documentary filmmaker . . . *"To wake up in a home that's filled with love is definitely a first! I never knew what true prosperity was until now."*

Kristie Reeves, producer . . . *"I have tried to get a film financed for two years. In Abbi's class I finally understood what I had been doing emotionally to prevent that from happening. We are now fully financed and in pre-production."*

Abbi Lake O'Neill has been facilitating workshops and classes in the Los Angeles area and is now bringing her work to the Desert. PLEASE feel free to come check out what to expect in this class with a **PREVIEW night, Tuesday, February 9, 2010 at 7:30 p.m.**
