

Are You Feeding Feral or Stray Cats?

We'll spay and neuter your colony!

Through a targeted Trap Neuter Return program, the **Kitsap Spay & Neuter Council** will canvass the neighborhood, humanely trap all feral and stray cats, take them in to be spayed/neutered and return them 24 hours after surgery. All friendly cats or kittens under 10 weeks old can be placed into rescues, where they will find loving indoor homes. Fixing your cats will reduce the population as well as noise, marking, roaming, and aggressiveness.
