

Dear Fellow Dreamer:

I am writing to tell you about the unfolding of an exciting vision—I believe it is my true life's work, my legacy. I am creating the Imagine Garden.

The Imagine Garden will be a series of physical gardens and an online presence. The intent and unifying prayer of the garden—May Every Mind Remember God—which ANY person of faith or spirituality can embrace, sets it apart. When people's hearts and minds are harmonized by the beauty of the garden, the sight and sounds of the waterfall, the rhythm of walking the labyrinth, and the warm welcome that honors all faith traditions, an up-leveling of personal and shared consciousness will occur. As the Garden inspires increasing numbers of people to embrace the unifying prayer, a new consciousness threshold will be reached.

The Imagine Garden is far larger than just religious tolerance/acceptance/respect. People who remember God are kinder and gentler; there is less violence in the world and more respect in all areas of life when God's presence is felt. What can and will be built THROUGH the idea of the Imagine Garden—an online presence and then a series of physical gardens throughout the world—that will create its impact and preciousness.

I am privileged to be the visionary/chief birthing agent for the Garden. And I ask for your support.

In December, I will be going to the Parliament of World Religions where I will have conversations with many like-minded people about the Imagine Garden (see <http://www.parliamentofreligions.org/index.cfm>). If you can support me in any way financially, I would greatly appreciate it. I am happy to provide a list of expenses.

There are other ways that you can support me and or the Imagine Garden:

1. Prayer! See me easily making the round trip, easily raising the money to cover all expenses, and all plans working out smoothly. Pray for wonderful rendezvous with the right people and all the materials coming together efficiently.
2. Distribute this info to people whose hearts might be touched by the vision and who may want to contribute to this effort and support their desires for a kinder, gentler world.

3. Review the list of things we need (page 5 of the *Garden Story* file) and see if you or anyone you know may feel happy to share time and other forms of support on behalf of the *Garden*.

I ask for support from you and/or your circle of friends and acquaintances in whatever way feels right for you. Please do what you can in a spirit of win-win joy!

Blessings and Gratitude,

Honey Judith Rubin
