

SPS Night Shoot @ Centennial Olympic Park – 7/16/2011

Key Locations:

Here's another view of the park with a few key areas indicated.

There are also quite a few area restaurants and the CNN food court is also available earlier in the day. Taco Mac, located over behind CNN (I often cut through the food court in the CNN building to get there) is open until 2:30am so it's a good after-shoot spot to grab a late dinner/snack and a cold beverage before heading home.

Don't forget that there's a whole city around the park to shoot – you're not just limited to the water features, sculptures, and other things *inside* the park!

I'll try to be identifiable, at the risk of looking silly, by having a couple "glow sticks" attached to my hat and/or vest ☺
