“Speaking The Truth In Love”

The True Goal of Islam & The Threat of Shari’ah Law In America

Shahram Hadian

Conservatives, liberals, people of faith, church leaders, governmental officials and all who are concerned for our personal and religious freedoms **need to come and hear from local Christian Pastor and former Muslim, Shahram Hadian**, who is speaking the truth about the threat of radical Islam and Islamic Shari’ah law in America.

Shahram was born in Iran and came to America at the age of 7 to escape an oppressive Islamic regime. He is a proud US citizen. He experienced a transformational life change when he gave his life to Christ 12 years ago and was called to ministry as a Christian pastor. **When he became a Christian, he immediately faced the persecution and disapproval of his family and culture, and according to Islam became an apostate.** He has served his local community as a pastor, police officer, teacher and

coach and recently was a candidate for WA State Representative in the 44th Legislative District.

Our nation and our churches are asleep, and “political correctness” is handcuffing our ability to respond to the growing threat of Shari’ah law.”

Shahram’s heart is to awaken America and especially people of faith to the true agenda and goal of Islam. He will share with us how **Islam is a political ideology focused on establishing oppressive Islamic Law (Shari’ah)** in every country, including America. **The goal of radical Islamic groups is to see America become an Islamic “Caliphate” State.**

He will also outline why radical Islam is one of the greatest threat to peace, and will practically explain Shari’ah. **Shari’ah law has already infiltrated some of our local, state and federal governmental laws and policies here in the U.S.,** and we are on the path that Europe has been on for the past 10 years.

People of faith generally have a poor record of civic engagement and voting. This has helped to open the door to the political correctness and liberal ideology that is sympathetic to Shari’ah law. Shahram will present practical ideas for engaging our governmental system, electing strong candidates, protecting our constitution and defending our national security.

“This generation faces challenges and threats to our nation and religious and personal freedoms like never before, and must be willing to stand up no matter what the cost.”- Shahram Hadian
