NOW

# SINCE 9/11

## this isn't something you can ignore

9/11 Truth Action is an international coalition of concerned citizens calling for a new investigation into 9/11. We Are Change are peaceful but dedicated activists in opposition to all of the tyrannical elements of the War on Terror. We are united for the anniversary of 9/11 in refreshing the call to investigate 9/11 which has fallen on too many deaf ears over the past seven years.

In this small flyer we cannot give you even a fraction of the facts regarding 9/11, but have provided addresses of the websites which can, and we urge you to use them.

If we are wrong, then you will have lost nothing from engaging objectively with the recorded facts, but if we are right the stakes are too high to justify inaction or apathy.

What happened? What has happened to the world and to our nation, all based on a story about 9/11 which has never been proven?

Since 9/11 seven years have passed. How many more years are going to pass before the people realise that we have been lied to about 9/11? And how many more years are there left before we no longer have the freedom to do so?

Since 9/11 we unlawfully invaded two nations. Since 9/11 over a million have been died in Iraq, and thousands in Afghanistan. Since 9/11 Iran has been targeted. Since 9/11 the government has signed an agreement to hand over any British civilian for rendition and trial in America. Since 9/11 torture is legal. Since 9/11 there is a sudden pressing need to log us all with ID Cards, a key building block of a police state. Since 9/11 we can be held without trial. Since 9/11 we have to allow ourselves to be stopped and searched by the police whether or not there is any evidence we have done anything wrong. Since 9/11 we can no longer protest within a kilometre of parliament without the permission of the police. Since 9/11 every single right under the Magna Carta has been trampled on.

# a brief history lesson...

**Sept 2000:** Dick Cheney, Donald Rumsfeld and 14 other soon-to-be members of the Bush Administration are a part of a think tank called Project For The New American Century. The project says that in the wake of the cold war, the US needs a new justification for projecting its power around the world. It calls for the invasion of Iraq, the securing of the Caspian basin gas through a pipe line across Afghanistan, and massive increases in military spending. It says this must begin by October 2001, must be done under a single enduring banner (like the Cold War, or say, the War on Terror) and it must move fast. It notes that the process would move slowly unless there was a "New Pearl Harbour" - a devastating attack on US soil which would get people behind the agenda.

**2000:** General Ahmed Mahmoud of the Pakistani ISI oversees the wire transfer of \$100,000 to alleged lead hijacker Mohammed Atta. The week of 9/11 General Mahmoud will be in the US meeting with American intelligence agency heads. The 9/11 Commission will conclude who funded the attacks is "of little practical significance".

**2000-2001:** 15 of the 19 alleged

hijackers fail to fill in visa documents properly in Saudi Arabia. Only six are interviewed. All 15 should have been denied entry to the US.

**June-Aug 2001:** German intelligence warns the CIA that Middle Eastern terrorists are training for hijackings and targeting American interests. Russian President Vladimir Putin alerts the US of suicide pilots training for attacks on US targets. In late July, a Taliban emissary warns the US that bin Laden is planning a huge attack. In August, Israel warns of an imminent Al Qaeda attack.

**Sept 2001:** Days before 9/11 Mohammed Atta and several other alleged hijackers are seen drinking heavily in a bar. Over the next few weeks various accounts will place the supposed adherents to fundamentalist Islam in strip bars, eating pork, snorting coke and buying pornography.

**Sept 10, 2001:** Reportedly, a number of top Pentagon brass suddenly cancel travel plans for the next morning, apparently because of security concerns.

**Sept 11, 2001:** Described as a bizarre coincidence, a US intelligence agency was set for an exercise on Sept 11 at 9 AM

in which an aircraft would crash into one of its buildings near Washington, DC.

**Sept 11, 2001:** In the testimony of police, fire fighters, people inside the buildings and journalists at the scene, multiple explosions are heard and felt before and after the building collapses. The first reported explosion is a few seconds before the first plane hits.

**Sept - Oct 2001:** NASA take thermal images of Ground Zero 6 days after 9/11 which show surface temperatures reaching 1377 degrees f under the Twin Towers and WTC7. During this time numerous accounts surface of molten steel being sighted at Ground Zero. Jet fuel cannot melt steel.

**Dec 2001 - Feb 2002:** After invading Afghanistan, the US engineers the rise to power of two former Unocal Oil employees: Hamid Karzai, the interim president of Afghanistan, and Zalmay Khalizad, the US envoy. The big American bases created in the Afghan war are identical to the route of the projected oil pipeline.

**May 23, 2002:** President Bush says he is opposed to establishing an independent commission to probe 9/11.

**2004 - 2005:** A growing number of top government officials and public leaders express disbelief in the official story of 9/11. 100 prominent leaders and 40 9/11 family members sign a statement calling for an unbiased inquiry into evidence suggesting high-level government officials may have deliberately allowed the attacks to occur.

**Aug 9, 2006:** 9/11 Commission chairmen Kean and Hamilton outline repeated deceptions by the Pentagon and FAA, including the timelines of Flights 77 and 93.

**2006-2008:** Over 50 former senior government officials and more than 100 highly respected professors publicly criticize The 9/11 Commission Report as highly flawed, and call for a new, independent investigation. Architects and Engineers for 9/11 Truth forms and swells in less than two years to over 450 qualified members, all of whom assert there is irrefutable evidence that the WTC buildings fell through controlled demolition.

**Today:** We call on you to investigate 9/11 and reject the agenda the world has been tricked into supporting on the pretext of lies.

**Tomorrow: Is up to you...**
