The Constitution Party of Florida Platform
is Predicated on the Principles of:

The Declaration of Independence
The Constitution of the United States
The Bill of Rights

According to the original intent of the Founding Fathers, these founding documents are the foundation of our Liberty and the Supreme Law of the Land. The sole purpose of government, as stated in the Declaration of Independence, is to secure our unalienable rights given us by our Creator. When Government grows beyond this scope, it is usurpation, and liberty is compromised.

We affirm the principles of individual and unalienable rights upon which these United States of America were founded:

- ◆ That each individual is endowed by his Creator with certain unalienable rights; that among these are the rights to life, liberty, property and the pursuit of happiness.
- ◆ That the freedom to own, use, exchange, control, protect, and freely dispose of property is a natural, necessary and inseparable extension of the individual's unalienable rights.
- ◆ That the legitimate function of government is to secure these rights through the preservation of domestic tranquility, the maintenance of a strong national defense, and the promotion of equal justice for all.
- ◆ That history makes clear that left unchecked, it is the nature of government to usurp the liberty of its citizens and eventually become a major violator of the people's rights.
- ◆ That, therefore, it is essential to bind government with the chains of the Constitution and carefully divide and jealously limit government powers to those assigned by the consent of the governed.
