You are invited to attend the First Annual We the People Convention

This event is open to all patriotic citizens who are concerned about our state and our country and are ready to get involved in fixing our political system. By attending this convention you will learn about the important issues of the day relating to the individual rights and freedoms provided to each of us by the Ohio and US Constitutions and how government at all levels is infringing on those rights and freedoms. You will learn how you can protect your rights by participating in the governance of your township, village, municipality, state and country.

At this convention independent voters will learn about the critical role they play in governance today. Minorities will find how conservative values and policies can provide the path to equal opportunity and prosperity for all. Young conservatives will learn about organizations that allow them to play a role in the political process at any age. If you are business owner who is tired of being taxed out of business, you will learn how the Patriot movement is committed to changing government to help you create jobs and be successful.

If you are not a member of a TEA Party or other Patriot group, you can learn about those organizations and the role they play in holding our government accountable and supporting our elected officials so they can serve the people. If you are a member or leader of a TEA Party or other Patriot group, you can learn how to make your group more effective and develop your own leadership skills. If you have questions about how the political process works and are considering running for office, this convention will give you the information and skills you need to win elections.

This Convention will allow you to meet other patriotic citizens from your area and around the state and nation. You will get to hear nationally known speakers and experts on important issues facing our nation and state. Plus, you will have a front row seat to one of the biggest and best 4th of July fireworks displays in the country!
