The 9 Principles

1. America Is Good.
2. I believe in God and He is the Center of my Life.
3. I must always try to be a more honest person than I was yesterday.
4. The family is sacred. My spouse and I are the ultimate authority, not the government.
5. If you break the law you pay the penalty. Justice is blind and no one is above it.
6. I have a right to life, liberty and pursuit of happiness, but there is no guarantee of equal results.
7. I work hard for what I have and I will share it with who I want to. Government cannot force me to be charitable.
8. It is not un-American for me to disagree with authority or to share my personal opinion.
9. The government works for me. I do not answer to them, they answer to me.

The 12 Values

- Honesty
- Reverence
- Hope
- Thrift
- Humility
- Charity
- Sincerity
- Moderation
- Hard Work
- Courage
- Personal Responsibility
- Gratitude

A continuation of trivia about the United States Constitution

Q. Where and when did the deputies to the Constitutional Convention assemble?

A. In Philadelphia, in the State House where the Declaration of Independence was signed. The meeting was called for May 14, 1787, but a quorum was not present until May 25.

Q. About how large was the population of Philadelphia?

A. The census of 1790 gave it 28,000; including its suburbs, about 42,000.

Q. What was the average age of the deputies to the Constitutional Convention?

A. About 44.

Q. Who were the oldest and youngest members of the Constitutional Convention?

A. Benjamin Franklin, of Pennsylvania, then 81; and Jonathan Dayton, of New Jersey, 26.

Q. In the course of ratification, how many amendments were offered by the State conventions?

A. Seventy-eight; exclusive of Rhode Island's twenty-one, and those demanded by the first convention in North Carolina. There were many others offered which were considered necessary as items of a Bill of Rights. Professor Ames gives 124 as the whole number, inclusive of those of Rhode Island and North Carolina and the Bills of Rights. Various of these covered the same topics.

Protecting Our Health Care Preserving Ohioans' Freedom

Know the Facts Share With Confidence

The Ohio Health Care Freedom Amendment, which will appear on the November 2011 ballot, would amend the Ohio Constitution by adding Section 21 to Article I, Ohio's Bill of Rights, "to preserve the freedom of Ohioans to choose their health care and health care coverage." It is the intentions of the Amendment's drafter (the 1851 Center for Constitutional Law) and proponents (Ohioans for Health Care Freedom, the Ohio Project, the Ohio Liberty Council, and others) that the Amendment provide the greatest possible protections against, separately and distinctly, federal, state, and local efforts to preserve and protect Ohioans' freedom to make their own health care and health insurance decisions.

If they say it will destroy Ohio laws that protect consumers from dangerous medicine or bad doctors... You tell them this..

It grandfathers laws in effect as of March 19, 2010. Existing laws won't be affected. & Issue 3 will NOT undermine Ohio's worker's compensation laws.

If they question why we need this. You tell them... You tell them..

If they say there is a big lawsuit already going to the Supreme Court you say...

- If Issue 3 doesn't pass, the government can:
- * Control your medical choices.
 - * Force you to purchase costly government-defined health insurance.
 - * Make you pay more to upgrade your health insurance to meet government requirements.
 - * Force you to disclose private medical information.
 - * Prohibit you from obtaining private health care.

Top lawyers confirm: Ohio winning Issue 3 in November will influence the S. C. when they make their fed. ruling in Jan.

If they say it doesn't bother them, they're on Medicare. (Yes, there are people that selfish) You tell them...

They took half a billion \$\$\$\$ out of Medicare to pay for Obamacare.

People say they trust their personal doctors not to allow anything that will hurt them despite Obamacare.

Your doctor will be forced through procedural rules and financial pressure to follow government decisions. You may no longer be able to see your doctor of choice. Doctors will be ordered. to allow bureaucrats to make decisions about your health care. In life/death decisions who do you want deciding for you?

If they tell you that illegal aliens and poor people shouldn't be getting their emergency room care for free

MORE people will be treated free. The poor and illegal aliens are exempt from Obamacare. Prior existing law stating medical care must be given will remain. Workers laid off due to expensive business regulations will be forced to emergency room care too. It only gets **worse**.

If they tell you the country's big problem is jobs, you tell them...

Employers will have to lay off good, loyal workers because Obamacare has costly regulations for businesses.

If they think it doesn't affect them because they have insurance through their own companies...

“Let them know According to their findings, 30 percent of employers said they would definitely or probably stop offering insurance once the law's main provisions go into effect in 2014. The inclination to dump coverage exceeded 50 percent once employers' understanding of the law's effects increased.”

Tell them...THINK: IF ISSUE 3 FAILS THERE IS NO LIMIT TO WHAT THE GOVERNMENT CAN MAKE OHIOANS BUY.

Campaign phone calls show that the majority of people don't know about The Healthcare Freedom Amendment...

Even those who signed the petition!

It has been a long time since many of them signed. You must inform.

Ohioans should have the freedom to make their own healthcare decisions. Period.

The administration uses the commerce cause from the constitution to justify many infringements of freedom. Do you feel like an object of commerce? Do you want to be treated like an object?

Bottom line

You and your family should never be imprisoned, fined or prosecuted for choosing health insurance or treatment different from government requirements.
