

Join Valley Forge Patriots

<http://www.meetup.com/VFP-TeaParty09/>

Activists, Educators and Regular American Citizen Patriots peacefully working towards more responsible government at the County, State and Federal levels. We believe our governments have failed us. We believe government is so big, that it can not function efficiently anymore to serve our minimalist needs. We believe in a level playing field not, special deals for special people. We swear an oath to live life in a personally responsible manner, to be accountable for our actions and we expect no less from our elected officials.

We Support and work for.....

1. Adherence to the Constitution of The United States Of America
2. Freedom
3. Liberty
4. Truth and Justice
5. Personal Responsibility

We are organizing to support and promote electoral candidates and a legislative agenda that agrees with our principles. To protest and work to defeat those that do not, using our democracy and the power of the ballot box.

We are and support the TEA Party Movement and the 9/12 principles and organization.

Come out to a meeting and join us. Get educated. Take the Government back from the Politicos and fix it, to serve us again. Remember, it is "We The People, not, Us the Government". We are Americans, we can fix it, but we need your help. Join Us.

Valley Forge Patriots

Today we face a real test for this country and the ideal it represents. On one hand we have the claims of those currently in power, that if we simply spend a whole pile of money over there, we can save some money over here. It doesn't seem to matter which group of public servants we place in elected offices. They simply all, do not measure up, and certainly, don't deliver on what they promise us. Some of these politicians are worse than others. Some are simply deplorable.

There comes a time to say enough is enough and to try and get educated as to why we are where we are today. This is kind of an ugly story. It is understandable that we need this education. Many of us were a little busy. We were raising our kids or, running our businesses, working 60 hours this week, 80 the next, planning retirement or all the other simple responsible matters that make up our everyday lives in this complex experiment in human freedom we call America. One theme is consistent here, we were busy.

We elected those other people to Congress and assumed everything would work out. They always said the right thing. They made nice speeches about family values. They promised to look out for our interests. They promised to protect us. That was supposed to be the deal. Well news flash, it hasn't worked out. Our government has failed us in so many ways, for so long, it is hard to enumerate. We could write for weeks about the transgressions. And transgressions they are. Transgressions against our country and the Republic it stands for.

We have wandered far away from the basic intent of our Constitution. It was written long ago, yet it is cherished today, by many, both here and afar. Our Constitution is under US legislative assault. Not just cherished in concept, envied around the world and our politicians have been changing it, incrementally for some time now. Tweaking it here and there. We Americans invented this incredible idea and have mistakenly now, let it slip away in piles of unread legislation. We have been asleep. We were comfortable and we were busy. We have let the politicians run the show and steal our freedoms and our liberties with their laws and regulations. It is past time to fight back, but today, is a good day to start. That is what TEA stands for (T)axed (E)nough (A)lready. We are tapped out. We are fighting back NOW.

Many in both parties believe even more government is the answer. Nothing can be further from the truth. Government, is the problem, plain and simple. They do not listen to us and yet make decisions for us. They do not even bother to read the bills they sign, that further enslave us. If we object, they pass a little bill anyway, a compromise, if you will, and then they modify it into a great big fat bill that steals even more of our liberties and our freedoms when we are not looking. We say the party in DC is over.

Join Us. The time is NOW, right NOW. If you do not help NOW, the unease you feel; that things aren't quite right, that we are losing control, this feeling will simply grow into real tyranny and tyranny is fear of the government. When the government fears the people, there is Liberty and with it Freedom. When the people fear the government, there is Tyranny. Will you instead look back on this time, today, and realize there was a chance for you to make a real difference, to help make a new history for our country. To craft an American future. Will you join us NOW, get engaged and insure our mutual destiny, designed so long ago. We need you.
