Grow Our Own Lactation Consultant/ IBCLC Prep Course

California WIC is once again offering the all-inclusive Lactation Consultant Course Beginning September, 2010

If you have ever desired to become an IBCLC, **this is the opportunity of a lifetime.** The Grow Our Own Program prepares students to sit for the IBCLC exam or to become Clinical Lactation Specialists.

Space is limited, and priority for scholarships will be given to WIC staff since this is a WIC state-funded program, but we desire to educate as many from the community as possible, so we have reserved some scholarships for community members and health professionals.

Only those who attend the mandatory orientation at one of the meeting locations will be eligible to apply for the special scholarships that will cover the cost of attending Grow Our Own 2010-2011. The scholarships are valued at over \$2,500.

Students will be able to attend class every-other Friday at one of the two Riverside locations (Desert Regional Hospital or Corona Regional Medical Center). There may be a Tuesday/Thursday evening class offered again in Banning, depending on interest.

RSVP today to schedule to attend Orientation
