

**Where does our group Hike?** - We hike anywhere the [American](#) or [Yuba River](#) watersheds take us, with an emphasis on the lower Foothill regions below the 3,000 foot level along the I80 and I50 corridors east of Sacramento.

Commencing in 2011 the group will have one road-trip per month outside the Yuba and American River Watersheds within a two-hour drive of the Greater Sacramento Area. We are also offering multiple [American Volkssport Association \(AVA\)](#) monthly events.

In the warmer months we'll explore the alpine and sub-alpine areas along the I80 and I50 corridors allowing our members a cool respite and an opportunity to see where all that darn water comes from.

Our group does not plan events, or excursions, anywhere outside of these boundaries with the exception of the monthly Roadtrip. By definition this includes major portions of [Tahoe](#) and [El Dorado](#) National Forests, [Auburn State Recreation Area](#) (Auburn SRA) and [Folsom Lake SRA](#).

Please enjoy [this slide-show](#) as Foothill Hikers takes you from the American River outside of Natomas to the summit of HW50.
