

***Audit the Fed Petition to
Senator*** _____

- Whereas:** The Federal Reserve refuses to give a public accounting of the TRILLIONS in recent taxpayer-backed loans; and
- Whereas:** Congress has the responsibility to force a public audit of the Federal Reserve, and the American people deserve to know how their tax dollars are being spent; and
- Whereas:** Allowing the Fed to remain out of control and shrouded in secrecy clearly allows for abuse and the continued stealing of our tax dollars through inflation and unaccounted electronic bank “loans”; and
- Whereas:** The Federal Reserve’s abuses lead to constant economic crises like the current housing crisis, international banking crisis and the resulting chaos; and
- Whereas:** The Federal Reserve System forces fuel, food, housing, medical care and education costs upward, meaning that everyone who is NOT on the government dole is forced to make do with less as the value of money slowly decreases; and
- Whereas:** History shows us that riots, violence and full-scale police states can result when people finally realize fiat money isn’t worth the paper it’s printed on and REFUSE to accept it;
- Therefore:** I urge you to cosponsor and make every effort to seek roll call votes on the Audit the Fed Bill, S. 604.
