Instructors:
Julia & Charles Yelton
international permaculture
designers & teachers

Permaculture: a design system for creating sustainable human environments. It offers positive solutions to the problems facing the world by using ecology as the basis of designing integrated systems for food production, housing, technology utilization and community development.

Cost: \$1250 (includes 13 full class days, meals, breaks, field trips, guest speakers, handouts, camping and more)

Deposit: \$250 (\$100 non-refundable) to hold your space - Call or email below to request a registration form!

The Instructors: Julia and Charles Yelton are the newly named co-directors of the Permaculture Center of Newforest Institute. The Yeltons are international Permaculture designers and teachers, and have been consulting, designing and teaching Permaculture for the last 15 years. They have traveled and lectured throughout the world and formerly lived and taught at Crystal Waters Permaculture Village in Queensland, Australia. Julia and Charles were recently named the 2008 Still Water Fellows of the University of Maine, Orono.
