## ▲ ALEX VITET "BATH"

ALEX VITET translates his own vision in Home Design into 4 segments: bath, light, furniture and tableware.

ALEX VITET "BATH" is the first segment to be launched with a premiere collection that groups 55 essential items, and offers a wide potential of compositions, within a high range of American manufacturing.

New website, now online, is showing a large part of the bath collection.

## ▲ ANTELOPE COLLECTION

ALEX VITET introduces his first bath collection, where physical, natural parameters meet the physical human being. Over a thousand hours of research and development have gone into the creation of a curve to meet the needs of comfort and water conservation. "ANTELOPE" is a bathroom design program made exclusively of Corian, which has been developed to offer a wide variety of compositions around 4 washbasins forms.

## ▲ NEW CATALOG ONLINE

A brand new catalog of the "ANTELOPE" collection is now available for downloading in a printable PDF version.

Enjoy!

## ▲ DECORATIVE PANELS

ANTELOPE decorative panels are based on true, Hi Resolution, digital photographs of sandstone which act like doors opening to nature. In the bathroom they evoke a look and feel of serenity. Panels come in two distinctive patented materials; Corian and Sentry Glass Expressions.
