

Help our Hero

This is Hero and he needs our help. He was hit by a car on March 22nd and taken to an emergency veterinary hospital. After he was stabilized, Hero was transferred to the local Humane Society, whose first impression was to put him to sleep. But when he looked into the manager's eyes, that was it – Hero was given a second chance to live. He won the workers over with his loving looks, sweet personality, and his strong will to live despite his injuries. He has damage to his rear leg and some muscle deterioration. He needs a little work, a lot of TLC, and all the help we can give him. Hero was rescued from the Humane Society on April 2nd and is going to be in a foster home to be cared for while he is recovering and to receive any other medical treatments he will need before he is put up for adoption. This is where you come in. He is a rescue and so our funds to pay for his medical expenses are very limited. We have already spent over \$200 on him and expect to spend several hundred more before he is ready to be adopted. This is a dog that deserves to be saved! He is a loving animal and underneath his rough looking exterior is the heart of a true Shiba.

Please see nycshibarescue.org for more information and to make a donation to help Hero.
