Tomboy Tools Focuses on Delivering Hands - On Education and Empowerment

With the Launch of Its First-Ever Pink Auto Kit—New *"Pink for Positive"* puts the Focus on Safety when Jumping a Battery.

Listed in Family Circle as one of the trendiest new parties—we're not your typical tool salespeople! Founded in 2000, Tomboy Tools is the only provider of hands-on education and high-quality tools for women. Tomboy Tools are for sale individually, in tool combinations and in specialty kits for projects such as tiling, painting, drywall, and plumbing. At in-home "tool parties," guests see products and basic home improvement demonstrations in action, learn simple and cost-efficient techniques and gain the confidence to tackle basic home improvement projects on their own. Tool parties serve in helping build confidence in women with home improvement projects.

Have a project you're unsure how to tackle? Host a Tool Party and let's hammer out the problem!

Story Time Felts—Back to Basics

Story Time Felts produces its own products in the U.S.A. and sell them exclusively through Independent Story Time Felts Consultants like myself. Our felt is completely machine washable, as well as colorfast, resists tearing, and it is softer and thicker than other felts you can purchase. The Story Time Felts manufacturing process is unique in that the artwork is actually dyed into the felt for long lasting color and quality. It will last through generations of happy children's felt board storytelling!

We offer the very finest in felt board stories and visual aids for learning. Strict attention is paid to the quality as well as the educational value of each product. We carry an extensive line of educational felt board story sets and non-denominational religious felts as well as dress-up dolls, felt activity books, finger plays, puppets, and audio story and song CDs for preschool through school aged children.

Children are natural storytellers but often their stories remain locked in their heads because they lack the ability to express

themselves. Story Time Felts help parents and teachers bring back creativity and imagination to the children in their lives through beautiful felt products such as felt board story figures, activity books, dress up dolls and other educational felt items!

Experts agree that kids these days are too "plugged in," so we offer something that is High Touch, not High Tech! Imagination is rediscovered and fostered with Story Time Felts!
