## **Panic to Prosperity 3-card Tarot Spread**

Have querent pick the card that represents total prosperity for them (they can choose this one analytically, by looking at the pictures on the cards). Then the querent will pick the card that represents where they think they are now in the prosperity journey (also an analytical draw). Have them now shuffle the cards and cut as you normally would. The card that is now drawn is the action that is needed to take them from where they think they are to where they want to be.

### **Prayer To Charge Your Prosperity Pouch**

Great Spirit, God, Goddess, the One, the All, the All That Is, we ask that you bless these bags and help us to charge them with all the love and light emanating from all those present. We ask that the energy present help to calm us all and place us and keep us in a space to receive the prosperity that is all around us, just waiting to permeate our lives. We ask that you imbue us with your divine love and help us act as magnets to draw in what is meant for us and our loved ones. We ask that the love from this circle and the prosperity we are attracting spread through our homes, our community, our cities, our state, our country and the entire world so that every person today will be open to receiving and allowing prosperity in their lives. We thank you for helping us on our journey and know that it is so.
