

The God Rape

Does the rape of female have to be by penetration only?. The consequence of a rape. According to fictional book called "Bible", God implanted a seed into female womb. The female give "virgin birth" to a male child. That female name was Maria and the child name was Jesus. Did God asked the Maria for permission to implant the seed?. Did Maria agree to that implantation?. Nowhere in that book we can find information about God asking for permission. It was rape. What was the reason for God to rape the Maria?. Was the God under influence of "offering wine". Some call it "miracle, I call it "sexual abuse". It is only a myth, but how many people fallow that myth and perform a rape in reality?.

The consequence of a rape?. Ask female who was raped.

What is the reason for a rape?. In some cases, the male is driven by strong natural instinct to reproduce and if not willing female found, then will attempt reproduce by force. All man can control that "natural instinct", but if excuse found, the "control function" can be inhibited. One of excuse could be base on religion. Another excuse can be base on impeachment (drugs, alcohol). In some cases, female provocative behavior can lead to rape, specially if male is under influence of drugs or alcohol.

Many crimes against humanity was (and still is) committed "in the name of God" and many rapists are "good christian boys". Other religions permit rape.

Can we prevent that form of crime?. As long as humans are influence by superstitious believing, I do not see a way to end the violence.
