9/11: Explosive Evidence – Experts Speak Out
a documentary film by Architects & Engineers for 9/11 Truth

- Presents more than 50 experts (high-rise architects, structural engineers, physicists, chemical engineers, firefighters, metallurgists, explosives experts, controlled demolition technicians) who describe the scientific evidence that undermines the official explanation for the total destruction of three New York City skyscrapers on September 11, 2001.
- Includes interviews with several psychologists who describe the emotional barriers that prevent many from confronting this difficult evidence.
- Shares the poignant stories of several 9/11 victim family members who support AE911Truth's efforts toward an independent investigation into the crimes of 9/11.
