This new documentary film from Italian production company Telemaco explores the latest scientific evidence and reveals dramatic new witness testimony, which directly conflicts with the US Government's account.

The importance of this film can not be overstated. If its thesis is correct, the justifications for going to war in Afghanistan and Iraq are built on a series of outrageous lies.

Thesis: the official version of the events surrounding the attacks on 9/11 can not be true.

See the film that 30 million Russians saw on prime time television

What results is a sequence of contradictions, gaps, and omissions of stunning gravity
