Single, tandem (two person), fishing, and kids kayaks, all of which are extremely stable, maneuverable, and unsinkable. They also offer motorized kayaks for rent. These include the motor and battery in addition to everything the regular rentals include.

All of the rentals include all necessary gear such as paddles, lifejackets, backrests, and dry bags. They will deliver the kayaks to you or meet you at any location you desire. Included is also a laminated map of the area you're paddling with pointers on things to see and places to go and a free paddling lesson for beginners if desired.
