

Universal Health Care IS Possible — NOW

Some candidates TALK about Health Care. Dennis Kucinich ACTS on Health Care. Dennis Kucinich already has a bill before Congress (HR 676) to provide Universal, Single-Payer, NOT FOR PROFIT Health Care. HR 676 takes health care away from the insurance companies and gives it back to the PHYSICIANS.

“Insurance companies are holding our health care system hostage and forcing millions of Americans into poverty with unconscionable premiums, co-pays, deductibles. We’ve got to have not-for-profit health care, **get the insurance companies out of the picture.** Health care is not a privilege, it is a right, and it is a human right.”

— Dennis Kucinich at the SEIU Conference on health care — Las Vegas, Nev. — March 2007

Make your vote count. Kucinich in the White House puts REAL Health Care in YOUR house.

Dennis Kucinich — Leading the way for Health Care

On Jan. 24, 2007, Reps. John Conyers and Dennis Kucinich led 43 other House members in introducing HR 676, the Conyers/Kucinich Health Care bill. Today the bill, which Kucinich helped write, is supported by 78 Members of Congress, 250 union locals, and more than 14,000 physicians. HR 676 is endorsed by the New Hampshire State Legislature and by Michael Moore, producer of the movie SiCKO.

HR 676 covers all health care needs, including dental care, mental health care, vision care, prescription drugs, and long-term care. You choose your health care providers, they provide the health care you need, the federal government pays the bills.

- No insurance companies, no HMOs, no deductibles, no pre-existing condition hassles, no co-pays. **Complete portability.**
- **Veterans** could go to any doctor they wanted. **Farmers** would not need an off-farm job just to keep their family covered.
- **Unions** would not have to bargain for health care benefits. **Businesses** would be able to better compete in the world market.
- **Parents** would not have to turn down jobs to stay below pre-set income limits just so their children have health care.
- **Entrepreneurs** could go into business for themselves without having to forego health care coverage for their families.
- There would be no danger of bankruptcy due to medical bills. **Families** would be more stable, life savings not at risk.

Call your members of Congress today. Tell them to support HR 676, the Conyers/Kucinich Health Care bill.

Authorized and paid for by Kucinich for President 2008 — labor donated
