

# Fedstock II: April 23, 2011

## Advertising & Sponsorship Opportunities

**Fedstock II: End-the-Fed Rally, March and Concert** is the 6th End-the-Fed event in Philadelphia. Hundreds of freedom lovers will again take to the streets to educate the public about the root of our economic crisis. After rallying at the Federal Reserve Bank, we will march through the city with a "rogue parade float," hundreds of signs and banners, distributing thousands of flyers. **The march will conclude with a concert featuring the legendary Jordan Page.**

**We need your help to make this event the biggest End-the-Fed event ever.** Individual and organization sponsorships are available. Please use this opportunity to promote your business or favorite charitable organization, while working to end the iron grip of the central bankers.
