## Who is Ron Paul?

Ron Paul is the only military veteran frontrunner running for President - Democrat or Republican - besides John McCain. He didn't obtain draft deferments like many others did at the time. He proudly served his country in the U.S. Air Force and Air National Guard.

Dr. Paul's medical training was interrupted when he was drafted during the Cuban Missile Crisis into the United States Air Force. He served as a flight surgeon out of Kelly Air Force Base in San Antonio, Texas, from 1963 to 1965, attending to the ear, nose and throat problems of pilots. He remained in the military during the early years of the Vietnam War. Paul's active duty service took him to countries such as South Korea, Iran, Ethiopia and Turkey. He then served in the Air National Guard from 1965 to 1968 while completing his medical residency in Pittsburgh. He achieved rank of captain during his service in the Air Force.
