

Will our Declaration of Independence survive?

Who Said This?

"I believe in being friends and I like as much free travel as possible and I like free trade, but I don't like more government management because it essentially protects big industry..."

"So called free trade deals and world governmental organizations like the International Criminal Court (ICC), NAFTA, GATT, WTO, and CAFTA are a threat to our independence as a nation. They transfer power from our government to unelected foreign elites."

"The ICC wants to try our soldiers as war criminals. Both the WTO and CAFTA could force Americans to get a doctor's prescription to take herbs and vitamins. Alternative treatments could be banned."

"The WTO has forced Congress to change our laws, yet we still face trade wars. Today, France is threatening to have U.S. goods taxed throughout Europe. If anything, the WTO makes trade relations worse by giving foreign competitors a new way to attack U.S. jobs."

"NAFTA's superhighway is just one part of a plan to erase the borders between the U.S. and Mexico, called the North American Union. This spawn of powerful special interests, would create a single nation out of Canada, the U.S. and Mexico, with a new unelected bureaucracy and money system. Forget about controlling immigration under this scheme."

"And a free America, with limited, constitutional government, would be gone forever."

"Let's not forget the UN. It wants to impose a direct tax on us. I successfully fought this move in Congress last year, but if we are going to stop ongoing attempts of this world government body to tax us, we will need leadership from the White House."

"We must withdraw from any organizations and trade deals that infringe upon the freedom and independence of the United States of America."

Republican Presidential Candidate Ron Paul is the leading advocate for freedom in our nation's capital. As a member of the U.S. House of Representatives, Dr. Paul tirelessly works for limited constitutional government, low taxes, free markets, and a return to sound monetary policies. He is known among his congressional colleagues and his constituents for his consistent voting record. Dr. Paul never votes for legislation unless the proposed measure is expressly authorized by the Constitution.

Who Said This?

"The United States must lead in the 21st century... the United States cannot lead by virtue of its power alone. But we must also lead... by creating the *new* international institutions necessary..."

"We have to strengthen our global alliances as the core of a *new* global compact -- a League of Democracies."

"At the heart of this *new* compact... We need to listen to the views and respect the *collective will* of our democratic allies."

"The risks of global warming have no borders... We need a *successor* to the Kyoto Treaty..."

"With globalization, our hemisphere has grown closer, more integrated, and more interdependent... Americans north and south share a common geography and a *common destiny*. The countries of Latin America are the natural partners of the United States, and our northern neighbor Canada."

"I believe the Americas can and must be the *model* for a *new* 21st century relationship between North and South. Ours can be the *first* completely democratic hemisphere."

"Americans should welcome the rise of a strong, confident European Union... The future of the transatlantic relationship lies in confronting the challenges of the twenty-first century worldwide: *developing* a common energy policy, *creating* a transatlantic common market tying our economies more closely together... and *institutionalizing* our cooperation on issues such as climate change."

"We do not need all the weapons currently in our arsenal. The United States should lead a global effort at nuclear disarmament..."

"If we are successful in *pulling together* a global coalition... if we lead by shouldering our international responsibilities..."

"We also need to *build* the international structures..."

March 26, 2008, remarks by John McCain to the Los Angeles World Affairs Council. As a member of the U.S. Senate, McCain is an advocate of the global warming scare and world government 'solutions' being proposed by people like Al Gore. His McCain-Kennedy bill promoted amnesty for millions of illegal aliens. His McCain-Feingold bill is a major affront to the First Amendment. In good conscience, who do you think should receive the nomination for President at the Republican National Convention?

Should we remain free and independent or should we build world government?
