

TO END THE WAR

END THE FED

The Federal Reserve Bank creates money out of thin air making endless, senseless wars possible.

Where did the trillions of dollars spent to fund the Iraq-Afghanistan Wars come from? Taxes? Nope. Taxation barely covers the INTEREST on the national debt. The FED, a consortium of PRIVATE BANKING INTERESTS, simply prints the money and lends it to Congress.

Prior to the establishment of the FED in 1913, America's tradition was to avoid foreign entanglement and wage war only in self-defense. The power to issue money from nothing changed that.

"I sincerely believe that banking establishments are more dangerous than standing armies"
--Thomas Jefferson

No Funding = No Wars

TO END THE WAR

America faces a future of economic depression, social upheaval, a total loss of freedom and endless wars under a dictatorship of the Financial Elite.

America faces a future of economic depression, social upheaval, a total loss of freedom and endless wars under a dictatorship of the Financial Elite.

- The power to issue money must be returned to Congress where it *constitutionally* belongs,
- Money must be backed by a system of hard assets
- Central Bank monopoly on the issuance of money must end.

- Central Bank monopoly on the issuance of money must end.

The privately owned Federal Reserve system of debt slavery has made possible EVERY WAR since World War I. The Military-Industrial-Financial Complex is FUELED by the Fed's power to create endless debt. If they keep this power more wars are inevitable and if it is removed such wars become difficult if not impossible.
