Dear Neighbor,

With elections just six weeks away our public servants must be made aware of our disapproval of Wall Street Welfare.

Inflation has ravaged our savings and low interest rates set by the Federal Reserve created the housing boom that went bust.

Congress is set to give Wall Street bankers the biggest bailout ever. They also plan on giving the Treasury Department and Federal Reserve unprecedented powers. Treasury Secretary Henry Paulson will be able to make decisions that are not reviewable by any court of law!

Giving the Treasury and the Fed unchecked power is not the answer. Why? Because that power is only ever used for the benefit of Wall Street crooks at the expense of the poor, the middle class and every hard working American.

When banks get into trouble, they beg for inflation. They beg for easy credit, an increase of the money supply and a decrease in the value of every dollar of your income and savings! And who receives the value you lose? The banks. This time to the tune of \$700 billion. Inflation will probably take that number over the 1 trillion dollar mark.

Join me today and call our congressman and senators at the numbers below to let them know government should not be used to bailout banks at the expense of taxpayers whose savings and investments were squandered by those very same banks! Call now!

Your neighbor,
