Think your tips should be Tax Free?

Ron Paul Does Too!

Congressman Ron Paul (RonPaul2008.com) has JUST introduced legislation that would ease the tax burden on some of America's hardest workers – those in the service industry!

The Tax Free Tips Act of 2007 H.R. 3664 would exempt tips and gratuities from federal income and payroll taxes. Tips often compose a substantial portion of the earnings of waiters, waitresses, and other service-sector employees. However, unlike regular wages, a service sector employee usually has no guarantee of, or legal right to, a tip. Instead, the amount of a tip usually depends on how well an employee satisfies a client. Since the amount of taxes one pays increases along with the size of tip, taxing tips punishes workers for doing a superior job!

Not only that, but the IRS estimates how much in tips an employee should have received and taxes them based on that, whether they actually received that amount or not. **This should stop.**

In order for this to become law, YOU have to tell your representatives that YOU want it!

Go to the website below to easily do just that!
