

*Note!*  
**Ron Paul**  
for President 2008

**Vote for your Firearm Freedoms**  
Primary Election – February 2008  
General Election – Nov. 4, 2008

**Dr. Ron Paul** has 20 years of distinguished service in Congress, and he has **never voted for** gun control, licensing, or registration.

In fact he has **introduced legislation** to repeal “gun free zone” disarmament laws and background checks, stop funding for the gun-grabbing U.N., void any “sporting purpose” tests, and prohibit bans on carrying guns for self-defense in national parks.

Gun Owners of America honors **Congressman Ron Paul** as a “leader in the fight to defend and restore the Second Amendment.”

**Want to win?** No other candidate has his consistent record of protecting your natural rights, while amassing the critical combination of the millions of dollars plus the **tens of thousands of volunteers** necessary to succeed in the early primaries.

**Actions speak louder than words.**

Did Mayor Giuliani or Gov. Romney *lift a finger* to protect citizens’ gun rights when the voters entrusted them with power? How can we believe their assurances now? If they fool you twice - then shame on you. Think!

Dr. Paul is among the last men in Washington who understand the **principles of Liberty** this country was founded on. While other candidates claim to support the Second Amendment, Congressman Paul has an **impeccable record** on Capitol Hill.

How does Ron Paul compare to other candidates: Well, let’s just say if Mitt Romney and Rudy Giuliani were **“good enough” for the gun-grabbers** in New York and Massachusetts, **they’re not good enough for me!**

**Make no mistake. They cannot be trusted.**

*“We do have tough gun laws in Massachusetts; I support them, I won’t chip away at them; I believe they protect us and provide for our safety.” — Mitt Romney*

Back in 1994 Gov. Romney proudly boasted his support of the Brady Bill and the ‘assault weapons’ ban. *Even now he won’t condemn such unconstitutional laws.*

Rudy Giuliani met with then-President Clinton to discuss **national gun registration**. He supported the Brady Bill, which had recently passed, but argued that it didn’t go far enough. Mayor Giuliani **still** thinks gun control works. Huh?!?
