H.R. 1207

The Federal Reserve Transparency Act of 2009

I, of "We The People," am tired of your abusive spending habits when it comes to my tax dollars. I can only assume you will keep doing so without caring where the money goes since you have not co-sponsored this bill!

If you support transparency and accountability in government as my elected official, then common sense should lead you to support a full and independent Audit of the Federal Reserve. This allows ME the right to understand how MY hard earned money is being spent.

Anything else is just politics and propaganda that serves you, not me!

CONSIDER YOURSELF WARNED!
