<http://europe4ronpaul.blogspot.com> This site supports Ron Paul and lists dozens of Ron Paul fan pages around the world. Many people around the world love Ron Paul's foreign policy, which was defined by the founding fathers: Entangling alliances with none, but friendship and fair trade with all. This should not be confused with trade deals like NAFTA and the SPP (North American Union). Ron Paul is opposed to both, and has been working to repeal this legislation.
