

**Distress Call**

## **Please Help Save Our Party!** *An Invitation to Utah's Republicans*

Howdy, neighbor!

Do these following statements describe your political views fairly well?

- I support sound money—and I oppose both central banking and steady debasement of our dollar's value.
- I support government that taxes us less, spends much less, and keeps its budget balanced.
- I support Constitutionally-limited government that protects both state and individual rights.
- I oppose unwarranted surveillance, searches, and seizures, as well as other violations of our right to privacy.
- I support rights of parents, including their right to educate their children as they see fit.
- I support our individual right to life, including those among us who are not yet born.
- I support our individual right to liberty, including our rights to speak freely and to bear arms.
- I support our individual right to property—and I oppose abusing “eminent domain” to redistribute it.
- I support both liberty of contract and free enterprise—and I oppose governmental infringements upon these.
- I oppose central economic planning in health care, in energy production, and in every other industry.
- I support genuine free trade, but I oppose government-managed trade agreements that erode our sovereignty.
- I support legal immigration, but I oppose granting amnesty to those who violate our immigration laws.
- I support maintaining our national sovereignty and independence, as well as securing our nation's borders.
- I support respecting other nations' sovereignty as we would want their governments to respect ours.
- I oppose participating in the United Nations, as well as compelling other sovereign nations to obey its resolutions.
- I support neither abject pacifism nor wanton aggression but only wars declared by Congress to defend our nation.
- I support treating our military veterans well—and I oppose torturing our prisoners of war.
- I support candidates who will support these principles listed above, not just in word but also in deed.
- I support candidates who will neither compromise away our rightful liberty nor sell themselves to special interests.

If so, then *please* contact me as soon as possible to tell me that you received my distress call... *because we need your help!!!*
