

Campaign for Liberty's Core Principles

- The U.S. Constitution is at the heart of what Campaign for Liberty stands for, and we demand our government have fidelity to its own governing document.
- Like our Founding Fathers, we believe in a noninterventionist foreign policy. Our military overstretch is undermining our national defense and bankrupting our country.
- We believe that the free market is the most just and humane economic system and the greatest engine of prosperity the world has ever known.
- We believe that central banking distorts economic decision-making and misleads entrepreneurs into making unsound investments. We oppose the Federal Reserve System, which has reduced the value of the dollar by 95 percent since it began in 1913.
- We oppose the dehumanizing assumption that all issues that divide us must be settled at the federal level and forced on every American community. We believe in the humane alternative of local self-government, as called for in our Constitution.
- We oppose the transfer of American sovereignty to supranational organizations in which the American people possess no elected representatives.
- We believe that freedom is an indivisible whole, including not only economic liberty, but civil liberties, privacy rights, and all the personal freedoms protected by the Bill of Rights. We defend the timeless rights cherished for centuries by our civilization against the lawless tyranny that has always threatened them, and we seek a future where the American tradition of liberty is restored and respected more profoundly than ever.

“The time has come to act. May future generations look back on our work and say that these were men and women who, in a moment of great crisis, stood up to the politicians, the opinion-molders, and the establishment, and saved their country.”

- Congressman Ron Paul

“We are in a new generation. We are finding new leaders to carry the torch of liberty, and we can win.” - Congressman Barry Goldwater, Jr.

This much is true. You have been lied to.

Your representatives and the unelected bureaucrats they appointed guaranteed you a comfortable life in exchange for the keys to the country.

They promised you health care, quality education, a steady job, safety, and security, with an ever-increasing standard of living.

Instead, they gave you a \$10 trillion national debt, a failing economy, a reckless foreign policy, an inflationary monetary system, and contempt for our nation’s founding documents.

After decades of deficit spending and unconstitutional entitlement programs, each American’s individual share of the federal government’s liabilities is now \$184,000... and rising.

But it doesn’t have to be this way.

The Choice: Their plans for your life, or the Constitution’s promise to give you back your life.

Campaign for Liberty was founded because America stands at the crossroads. We can continue to believe the guarantees of those currently in power, or we can forge a new path - reinvigorating our economy, transforming our foreign policy, and securing our civil liberties.

The United States flourished when government was limited, taxes were low, and civil liberties were respected. For far too long, we have been told that the only choice we have is between the lesser of two evils. The ideals found in our Constitution show us that we do not have to choose evil at all. We can take back our lives and our futures by binding the government down with the chains of its founding document.

Campaign for Liberty’s mission is to promote and defend the great American principles of individual liberty, constitutional government, sound money, free markets, and a noninterventionist foreign policy, by means of educational and political activity.

Liberty is the noblest of political causes, and among political organizations we stand alone in defending and promoting it consistently and comprehensively. With your help, we can prevent the American dream from being taxed, regulated, and spent out of existence.

The battle to take back our nation begins in our own backyard!

Since June 2008, over 100,000 of your fellow Americans have joined Campaign for Liberty to take a stand for the Constitution and our founding principles.

Campaign for Liberty is committed to educating our family, friends, and neighbors about the limited government philosophy. We will work on the local, state, and federal levels to stop unconstitutional and corrosive legislation while promoting bills that secure our rights.

The key to Campaign for Liberty’s success will be our precinct leader program. We will recruit, equip, and train 180,000 leaders, one for each precinct in the U.S.

The precinct leader program will give the cause of freedom a foothold on every street corner in America. This offers the best chance in decades to restore liberty to Americans not at some point in the distant future, but in our lifetimes.
