LAUNCH NOW!

It seems more and more people these days are going independent, and starting their own business. If you are one of them, then you'll need your own company logo, business card and website designed ...

Your Logo

Your Business Card

Your Website

I'm helping small-business owners LAUNCH their brand, by providing them with a creative package where I'll design their own professional logo, business card, and initial website (brochure-ware); and have it launched in 2-3 days for a nominal fee of \$500 (with initial \$100 retainer fee, and the remaining \$400 on completion). If you are interested, or know of anyone else who is interested then tell them to get in touch with me (dkurien@gmail.com).

Here are a few examples of start-up companies that I've helped launch:
