## Defending the Unborn Child's Right to Life

Presidential Candidate Dr. Ron Paul, a 10-term Congressman from Texas, has been a leading advocate for the rights of the unborn.

After proudly serving as a flight surgeon in the U.S. Air Force during the 1960s, he began his medical practice as a specialist in obstetrics/gynecology. He and Carol, his wife of 50 years, are proud parents of five, and grandparents of 18.

"As an OB/GYN doctor, I've delivered over 4,000 babies. That experience has made me an unshakable foe of abortion. Many of you may have read my book, *Challenge To Liberty*, which champions the idea that there cannot be liberty in a society unless the rights of all innocents are protected. Much can be understood about the civility of a society in observing its regard for the dignity of human life.

In Congress, I have authored legislation that seeks to define life as beginning at conception, HR 1094.

*"The right of an innocent, unborn child to life is at the heart of the American ideals of liberty. My professional and legislative record demonstrates my strong commitment to this pro-life principle."*

*"In 40 years of medical practice, I never once considered performing an abortion, nor did I ever find abortion necessary to save the life of a pregnant woman."*

—Ron Paul

I am also the prime sponsor of HR 300, which would negate the effect of Roe v. Wade by removing the ability of federal courts to interfere with state legislation to protect life. This is a practical, direct approach to ending federal court tyranny which threatens our constitutional republic and has caused the deaths of 45 million of the unborn."
