Did you know...

- Ron Paul is currently **polling ahead of Huckabee and Thompson** in NH, and is closing in on McCain and Giuliani. Polls show that most voters in NH are still undecided and are just now learning about the Ron Paul alternative to more of the same in Washington.
- Ron Paul's message of Freedom, Peace and Prosperity **transcends party platforms**. His support comes from a broad range of voters, including **first-time voters, Independents, Libertarians, Constitutionlists, Democrats, and disenfranchised voters who have not voted in years**. Traditional polls typically only measure the support of GOP voters who are known to have voted in past Republican primary elections. This means a large percentage of Ron Paul's supporters are not being represented in the polls.
- Ron Paul consistently wins text-in polls after nationally televised presidential debates, and polls conducted on the internet and by a wide margin.
- Ron Paul ended the third quarter with **more cash on hand** than any other Republican candidate other than Giuliani and Thompson (Romney's loan to himself is listed as a debt so he is in the hole).
- Ron Paul has received **more donations from active duty military personnel** than any other presidential candidate.
- While so-called "leading" Republicans all saw fundraising decreases in the last quarter, **Ron Paul's fundraising has dramatically increased each quarter. In the first two months of this quarter, he has raised over \$10 million—more money than any Republican candidate in the entire previous quarter.** And that's only the beginning...
