

**Local Members of the John Birch Society present:
A briefing and analysis for concerned Americans**

Obamania: Has anything really changed?

Are you concerned about what is happening to our economy, our personal liberty, our Second Amendment rights, our nation's morality, and the future for our children? Do you see that this destruction of our nation is not by accident? Get some of the answers to the apparently confusing events at this information and action event.

- Who is running the Obama Administration?
- Are present policies really different from the neo-cons?
- What elite globalist groups are influencing the current administration?
- Are you aware of the organizations such as the Council on Foreign Relations that rule from behind the scenes with little regard for our Constitution and form of government? How can you find out who these people are?
- How fast are we moving toward a tyrannical world government that would crush the independence of the US?
- Who are the false leaders of the opposition and how have they confused and neutralized conservatives?
- How can citizens take back our Republic? What's the plan to reverse the dangerous trends in our nation?
- What can you do to leave a heritage of freedom for your children and grandchildren?

Join with other patriots for this evening of information, responsible action and good fellowship.

**Friday
June 5, 2009
7:30 PM**

**Ramada Inn
946 New Loudon Road, Route 9
I-87 Exit 7, Latham**

For reservations:
