

There is a REVOLUTION going on in America today. People are starting to wake up and oppose their loss of Personal Freedom and Liberty. It's time to start demanding that congress answer our questions.

Exercise OUR First Amendment Right to Redress of Grievances. We The People Foundation has started a drive to get 1 Million Patriotic American Signatures before June 21st and serve these Petitions to Congress on June 30th.

The 7 Petitions are regarding:

The War Powers Clauses/IRAQ • Federal Income Tax • USA Patriot Act

Gun Control Laws • Federal Reserve • North American Union

Illegal Immigration

To date, the government refuses to answer these lawful petitions and instead chooses to threaten and intimidate the chairman of the We The People Foundation with fines and incarceration. The people of this country MUST understand what is really going on and how this action is a threat to every freedom-loving American. *Please see the website link below and sign the petitions.*

Every May 1st, we will see MILLIONS of Illegal Immigrants demonstrating across the country for rights they don't have. It's hard to believe that there aren't Millions of Americans willing to sign any one of these petitions.

www.givemeliberty.org/revolution

Those who expect to reap the blessings of freedom, must, like men, undergo the fatigue of supporting it.
~Thomas Paine
