**RON PAUL ON:  
PRIVACY**

“The biggest threat to your privacy is the government. We must drastically limit the ability of government to collect and store data regarding American citizens’ personal matters.”

**ON TAX REFORM**

“Working Americans like lower taxes. So do I. Lower taxes benefit all Americans, creating jobs and allowing us to make more decisions for ourselves about our lives.”

**ON THE ROLE OF GOVERNMENT**

“Most politicians, and too many Americans have accepted the premise that government should plan our lives and control the economy. This subservient mindset encourages political pandering, as candidates strive to convince voters of their superior plans to take care of all of us... In a truly free nation, the government acts only as a referee by protecting property rights, enforcing contracts, prohibiting force and fraud, and providing national defense.”

**ON FOREIGN POLICY**

“We can continue to fund and fight no-win police actions around the globe, or we can re-focus on securing America, and bring the troops home.”

**ON THE BUDGET & ECONOMY**

“We cannot continue to allow private banks, wasteful agencies, lobbyists, corporations on welfare, and governments collecting foreign aid to dictate the size of our ballooning budget. We need a new method to prioritize our spending. It’s called the Constitution of the United States.”
